GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 29th January, 1892, and is hereby promulgated for general information :—

ACT NO. II OF 1892.

An Act to validate certain marriages solemnized under Part VI of the Indian Christian Marriage Act, 1872.

WHEREAS provision is made in Part VI of the Indian Christian Marriage Act, 1872, for the solemnization of marriages between persons of whom both are Native Christians, but not of marriages between persons of whom one only is a Native Christian; XV of 1872.

And whereas persons licensed under section 9 of the said Act have in divers parts of British India, through ignorance of the law, permitted marriages to be solemnized in their presence under the said Part between persons of whom one is a Native Christian and the other is not a Native Christian;

And whereas it is expedient that such marriages, having been solemnized in good faith, should be validated;

It is hereby enacted as follows :—

Commencement.

1. This Act shall come into force at once.

Definition.

2. In this Act the expression "Native Christian" has the same meaning as in the Indian Christian Marriage Act, 1872. XV of 1872.

Validation of irregular marriages.

3. All marriages which have already been solemnized under Part VI of the Indian Christian Marriage Act, 1872, between persons of whom one only was a Native Christian, shall be as good and valid in law as if such marriages had been solemnized between persons of whom both were Native Christians: XV of 1872.

Provided that nothing in this section shall apply to any marriage which has been judicially declared to be null and void, or to any case where either of the parties has, since the solemnization of such marriage and prior to the commencement of this Act, contracted a valid marriage.

Validation of records of irregular marriages.

4. Certificates of marriages which are declared by the last foregoing section to be good and valid in law, and register-books, and certified copies of true and duly authenticated extracts therefrom, deposited in compliance with the law for the time being in force, in so far as the register-books and extracts relate to such marriages as aforesaid, shall be received as evidence of such marriages as if such marriages had been solemnized between persons of whom both were Native Christians.

Application of Act to marriages under Act V of 1865.

5. References in this Act to the Indian Christian Marriage Act, 1872, shall, so far as may be requisite, be construed as applying also to the corresponding portions of the Indian Marriage Act, 1865. XV of 1872. V of 1865.

Penalty for solemnizing irregular marriages.

6. If any person licensed under section 9 of the said Act to grant certificates of marriage between Native Christians shall at any time after the commencement of this Act solemnize or affect to solemnize any marriage under Part VI of the said Act or grant any such certificate as therein mentioned, knowing that one of the parties to such marriage or affected marriage was at the date of such solemnization not a Christian, he shall be liable to have his license cancelled, and in addition thereto he shall be deemed to have been guilty of an offence prohibited by section 73 of the said Act, and shall be punishable accordingly.

S. HARVEY JAMES,
Secretary to the Government of India.

Regarding the White beacon on Point Charles.

THE Acting President, Marine Board, Port Adelaide, has given notice (No. 8 of 1891) that the White beacon, Point Charles (referred to in Notice to Mariners, No. 6 of 1882), has fallen down, and that only the *debris* remain to mark the site.

The locality, which may be easily distinguished by its being the highest land in the vicinity, should not be approached within a distance of three (3) miles.

As a light house is shortly to be erected near the same site (as already notified), it is not proposed to replace the beacon.

JAPAN—YEZO ISLAND.

Fixed lights on Daikoku sima and at Urakawa; and fixed red light at Horo izumi.

The British Admiralty has given notice (No. 602 of 1891), that on 1st November 1891 a light (named *Moro ran*) would be exhibited from a lighthouse erected on Daikoku sima, at the entrance to Sinmororan or Endermo harbour:—

Moro ran light is a *fixed white* light, visible through an arc of 304°, or from the bearing of N. 5° W., through east, to N. 61° W.; a sector of *red* light is shown from S. 45° E. to S. 31° E., covering the sunken rock at the entrance to the harbour, bearing S. 38° E., distant about 7 cables from the light, and on which there is a depth of 3½ fathoms at low water spring tides, not 5 fathoms as heretofore charted. The light is elevated 134 feet above the sea, and should be seen in clear weather from a distance of 6 miles.

The lighthouse, 16 feet high, constructed of wood and hexagonal in shape, is painted white, with a black horizontal band round the middle part of it.

Approximate position, lat. 42° 20′ 55″ N., long. 140° 55′ 45″ E.

Fixed light at Urakawa.

Also, that on 1st November 1891, a light would be exhibited from a lighthouse erected at Urakawa, eastern shore of Urakawa bay :—

Urakawa light is a *fixed white* light, visible through an arc of 153°, or from the bearing of N. 40° W., through east, to S. 67° E. It is elevated 128 feet above the sea, and should be seen in clear weather from a distance of 6 miles.

The lighthouse, 16 feet high, constructed of wood and square in shape, is painted white, with a black horizontal band round the middle part of it.

Approximate position, lat. 42° 11′ N., long. 142° 45′ E.

Fixed red light at Horo izumi.

Also, that on 1st November 1891, a light would be exhibited from a lighthouse erected at Horo izumi, situated about 6 miles north-west from cape Yerimo :—

Horo izumi light is a *fixed red* light, visible through an arc of 140°, or from the bearing of N. 11° W., through east, to S. 51° E. It is elevated 72 feet above the sea, and should be seen in clear weather from a distance of 6 miles.

The lighthouse, 16 feet high, is a square wooden tower, painted white.

Particulars of sunken rocks near Okinoso and Jinoso.

THE British Admiralty has given the following particulars (No. 607 of 1891) relative to the two undermentioned sunken rocks lying respectively near Okinoso and Jinoso, on the eastern shore of Bungo channel—the result of recent examination of the locality :—

1. With reference to Notice to Mariners, No. 485 of 1890 :—The sunken rock, originally reported as lying about 4 cables in a S.S.W. direction from Okinoso, is about one cable in extent, with a least depth of 6 feet on it at low water, and is situated with Okinoso bearing N. ¾ E distant 3 cables, and the south end of Jinoso E.N.E.

Approximate position : lat. 32° 53′ N ; long. 132° 27′ 20″ E.

2. A sunken rock, with 4 fathoms on it at low water, lies with the south end of Jinoso bearing E. by S. ½ S., distant 2½ cables, and Oji sima summit N.W. ¾ N.

AUSTRALIA—NORTH-WEST COAST.

Non-existence of certain reefs; and particulars of Baleine Bank and Walker rock.

THE following Notice to Mariners (No. 624 of 1891) issued by the British Admiralty is republished:—

The following information has been received from Commander W. U. Moore, H. M. surveying vessel *Penguin*, dated October 1891—the result of recent examination of the Several localities on the north-west coast of Australia:—

(1) *Non-existence of reef in lat.* 13° 35′ *S., long.* 125° 13′ *E.*

Search was made during three days, under favourable conditions of sea, for the reef charted as lying in about lat. 13° 35′ S., long. 125° 13′ E., and marked as "not seen in *Cushie Doe*, 1881;" an area extending about 10 miles around this position was sounded over, but

no trace of shoal water was observed. The depths obtained were 30 to 45 fathoms, over an even bottom, consisting generally of coral, sand, and shells.

Consequent on this unsuccessful search, the reef has been removed from the Admiralty Charts.

(2) *Non-existence of Expedition Island.*

Expedition island, originally reported by the Commander of the barque *Tien Tsin* in 1865, and charted as lying (the centre) in approximately lat. 15° 34′ S., long. 123° 46′ E. The *Penguin*, drawing 17 feet water, was anchored in the above position in 32 fathoms water; an examination for a radius of 3 to 5 miles showed that the bottom was uneven, and there were indications of shoal water 3 miles to the west and north-west of the vessel, but no land or sandbank was visible from aloft at low water neap tides. The *Penguin* approached the reported island on the bearing S. by W. distant 8 miles, and left it bearing N. by E. distant 30 miles, without seeing any danger. The description given of this island agrees fairly well with that of Adèle island lying in the same parallel of latitude, but about 33 miles westward.

Consequent on this examination, Expedition island has been removed from the Admiralty Charts.

NOTE.—Shoal water extends farther south of Adèle island than has heretofore been charted. The *Penguin* found very uneven bottom in lat. 15° 45½′ S., long. 123° 17′ E., the least depth being 8 fathoms over coral. Nothing, however, was seen to indicate danger, but the locality should be navigated with caution.

(3) *Particulars of Baleine Bank and Walker rock.*

1. Baleine bank, marked P. D. The western point of this bank lies in lat. 16° 46′ S., long. 121° 49′ E.; thence it was examined for a distance of 5 miles eastward, the general depths being 24 feet over coral, and the least water 18 feet. The bank appeared to extend some miles farther eastward.

NOTE.—The locality around the 7 fathoms struck in 1890, in lat. 16° 43′ S., long. 121° 37′ E., has been examined, but no danger was found; depths of 12 to 18 fathoms over coral exist between it and Baleine bank; the sea was much discoloured with patches of mud and lime, having the appearance of sunken rocks, but none were discovered.

2. Walker rock, a small coral patch with 24 feet water on it, is situated in lat. 16° 52½′ S., long. 121° 48½′ E.

NOTE.—The tides in the neighbourhood of Baleine bank are rotatory, with a velocity of one to 2½ knots an hour; the flood stream at first makes South, and works round eastward; at half flood it sets East; and at high water North; the ebb stream at first sets North, and works round westward; at half ebb its direction is West, and at low water South.

Accountant-General, Bengal.

THE EMBANKMENT REPORTS FOR 1890-91.

No. 158*I*.

GOVERNMENT OF BENGAL—PUBLIC WORKS DEPARTMENT.

Irrigation.

Dated Calcutta, the 2nd February 1892.

RESOLUTION

READ—

The Embankment Reports for 1890-91.

The public embankments in Bengal are of two classes—

First.—Those which are the property of Government and of which the cost of maintenance is a charge against Provincial revenues.

Second.—Those which are the property of the persons interested in the land protected and which are maintained by Government at their expense.

In the first class there are—

A.—The embankments in Orissa which are maintained under Act XXXII of 1855.

B.—Those enumerated in Schedule D of Act VI (B C.) of 1873. In this class are included those embankments the maintenance of which is incumbent on Government under the provisions of the Permanent Settlement, those of the Burdwan Raj Estate which were taken over in 1804, and some additional lengths which have at various times been added to the schedule under the provisions of section 43 of Act II (B.C.) of 1882.

Embankments of the second class are situated in several districts, the most important being those on the banks of the Gunduck in Chumparun, Mozufferpore and Sarun, and those in the Midnapore district. These again may be divided into two classes—C, those where the cost of maintenance is recovered by the payment of a fixed annual charge under a contract extending over a term of years: D, where it is recovered by an annual apportionment of the actual charges.

2. The present lengths of embankments in each class and the total charges of this year were as follows:—

	Miles.	Feet.	Actual cost of works and repairs.	Charges of the year (inclusive of Establishment and Tools and Plant).
			Rs.	Rs.
Government Embankments—				
A—In Orissa	838	4,795	96,991	1,35,787
B—Schedule D	1,135	1,199	1,82,276	2,55,186
Embankments not the property of Government—				
C—Maintained under contract	478	4,942	90,434	1,26,648
D— Ditto by annual apportionment of charges	76	2,887	14,551	17,475
			3,84,252	5,35,096

The distribution of the above by districts is given in the appended statement.

(A) Embankments of the first class, in Orissa.

3. In Orissa the length of the embankments was unaltered during the year. Compared with the previous year, the expenditure was moderate, the similar charges to those shown above having been Rs. 1,19,631 in 1889-90.

(B) Embankments of the first class, Schedule D.

4. The Schedule D embankments were added to during the year by a length of 2 miles in the Moorshedabad embankment.

The cost of actual maintenance decreased from Rs. 2,02,541 to Rs. 1,82,276.

The decrease was general in all districts, except Moorshedabad and Rajshahye. In the former district, owing to damage caused by high floods, the cost of repairs to protective works and of retired lines increased from Rs. 41,145

to Rs. 50,310. The flood levels of the Bhagiruthi river at Berhampore rose to 30 feet 11¾ inches in 1890 against 30 feet 4½ inches in 1889, which was the highest level hitherto recorded. The town of Berhampore was threatened, but was protected by throwing up dwarf banks as a temporary measure.

The Schedule D embankments which protect the Burdwan Raj Estate in the districts of Burdwan, Beerbhoom, Hooghly, and Midnapore were maintained during the year at a cost of Rs. 69,794 (works and repairs) against Rs. 1,53,835 in 1889-90. Government receives a contribution of Rs. 53,742 from the estate on account of these embankments.

5. The length of embankments maintained by Government under contract with the persons interested remained the same as in the previous year.

C. Embankments maintained by contract.

To ascertain the financial position of Government with respect to this class of embankment, it is necessary to compare the sums payable under the contracts with the outlay, including book charges for Establishment and Tools and Plant. The following table gives this information for the last ten years :—

The total sum payable annually by the persons interested is Rs. 1,02,315, whilst the expenditure of the year amounted to Rs. 90,434 for works and repairs, and to Rs. 1,26,648 for all charges.

The cost of maintenance necessarily varies much in different years. So far on the whole Government has been a loser by the contracts, but this may be adjusted in the remaining years of the term.

In the Midnapore district the charges of the year were very low, less than in any previous year since the contract was entered into.

The floods of the Gunduck river were of an ordinary nature and did little damage to the embankments in the Sarun and Mozufferpore districts.

In the Chumparun district the river continued the attack on the left bank which was noticed in last year's resolution, necessitating the construction of further retired lines. The injury is caused by the erosive action of the water, not on the embankment itself, but on the friable soil on which the embankment stands.

6. There was a slight increase to the length of embankments maintained under the system of annual apportionment of the actual charges. The cost of maintenance was Rs. 14,551 for works and repairs, or, including all charges, Rs. 17,475 as compared with Rs. 22,205 in the previous year. The principal embankments maintained under the system of annual apportionment of the charges are the Turki main bund on the right bank of the Bagmati river, in the Mozufferpore district, and the Bazitpur and Monghyr embankments on the left bank of the Ganges. The Turki bund had to resist several high floods, and was cut on two occasions, owing to which the country ordinarily protected suffered considerable damage. As regards the remaining embankments of this class the year was uneventful.

D. Embankments maintained on re-payment of actual cost.

7. During the past year the question of the deterioration of drainage lines in embanked districts has not been forced upon the notice of Government so much as in previous years, as there was no heavy rainfall or excessive flooding; the matter has, however, continued to receive careful attention, and in the case of the Doab

Drainage.

between the Rupnarain and Damudar a scheme has been drawn out which necessitates the considerable retirement of some marginal embankments on the Rupnarain and the removal of additional lengths on the right-bank of the Damudar. The latter portion of the scheme has now been carried out, or almost so, and the former is under consideration by the Civil Revenue authorities with respect to the extent to which Government may be liable to compensate the persons interested in the lands which will be exposed to floods by the retirement of the embankments.

In the south of the Midnapore district the proposals made by the Chief Engineer involve many and varied interests, and His Honour the Lieutenant-Governor, while recognising the importance of the proposals and the difficulty about drainage which appears to be making itself felt over a steadily increasing area, has not been able to come to any definite conclusion on the subject. Further investigations are now being carried out under the more immediate superintendence of the Revenue Board, and it is hoped that some final decision will soon be arrived at. The question is a complicated one, and on the principle of action decided on, and the success of the arrangements made to carry it out, much will necessarily depend as to the treatment of other embanked districts in Bengal, in which the questions of disposal of drainage are becoming year by year more urgent.

By order of the Lieutenant-Governor of Bengal,

J. M. McNEILE, *Col.*, R.E.,

Secretary to the Government of Bengal.

* Mean of 6 days. | † Mean of 5 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical averages or means of the reading during the same period for the last The *humidity* of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers are the *numerical means or* average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 30th of January 1892.

Explanation.— .... indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 2nd February* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 30TH OF JANUARY 1892.

During the previous week a feeble barometric depression had advanced in a south-easterly direction, and on the 23rd its centre was apparently near Amraoti, but the depression was exceedingly slight and it was evidently filling up. The depression had, however, been sufficiently influential to cause the sky to cloud over considerably in Behar and Bengal, and on the 23rd a few light rain showers were reported in South Behar. On the 24th, or the first day of the present week, the barometer had fallen in North and Central Bengal, but it was rising in the west and south of the Province, and pressure became relatively low in North Bengal, though there was no evidence of any distinct depression existing. Conditions were, however, slightly disturbed, and southerly and south-easterly winds prevailed in East and North Bengal, and on this day rather numerous but very light showers were reported from the Shahabad and Gya districts, and also one or two showers from the Patna and Lohardugga districts. Temperature also continued exceptionally high in Bengal on the 24th, the excess above the normal ranging from about 2° or 3° to nearly 8°. On the 25th, there was a general but very slight fall of pressure over the whole Province, while temperature also remained exceptionally high, but wind directions generally became more normal and conditions were less disturbed. On the 26th, a decidedly rapid fall of pressure had taken place over the Province, the fall being largest in North Bengal and Behar, and pressure became below the normal over part of North Bengal, while it was above it elsewhere. The winds over the northern part of the Province also showed the effect of the disturbance, and south-westerly winds were reported at many of the central and northern stations in the Province, and rain fell at several stations in the Darjeeling district, which was reported on the morning of the 27th. The disturbance was, however, exceedingly slight, for pressure had risen on the 27th, and had become above the normal in all districts, and at this time also temperature commenced generally to fall. The rise of pressure continued on the 28th, while temperature also decreased at many stations, and winds also became generally north-westerly or of the normal cold weather direction. The increase of pressure had ceased on the 29th and there had been a slight fall, and on the 30th pressure was rising very slowly at some stations and falling at others, and pressure generally was about 0·05″ to 0·08″ in excess of the normal. The fall of temperature had continued slight, and on the 30th temperature was generally from about 2° to 6° or 7° in excess of the normal. The other conditions of wind direction, cloud proportion and humidity were, however, fairly normal at the close of the week.

Pressure.—The mean pressure for the week has been in excess of the normal over the whole Province, the amount of excess generally ranging from 0·05″ to 0·1″. This excess has, however, been generally smallest at the stations in South, East and North Bengal, while it has been largest in Chutia Nagpur and Behar.

Temperature.—The mean temperature of the Province for the week has been no less than four degrees in excess of the normal. This abnormally high temperature has been fairly equally spread over the whole Province, but the excess was largest in the first half of the week and decidedly smaller during the second half.

The variation of temperature is, however, most clearly seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the Province are compared with the normal values for the same period. It will be seen from this table that the excess has been almost equal both during the day and the night.

Explanation — .... indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 2nd February* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 30TH OF JANUARY 1892.

During the previous week a feeble barometric depression had advanced in a south-easterly direction, and on the 23rd its centre was apparently near Amraoti, but the depression was exceedingly slight and it was evidently filling up. The depression had, however, been sufficiently influential to cause the sky to cloud over considerably in Behar and Bengal, and on the 23rd a few light rain showers were reported in South Behar. On the 24th, or the first day of the present week, the barometer had fallen in North and Central Bengal, but it was rising in the west and south of the Province, and pressure became relatively low in North Bengal, though there was no evidence of any distinct depression existing. Conditions were, however, slightly disturbed, and southerly and south-easterly winds prevailed in East and North Bengal, and on this day rather numerous but very light showers were reported from the Shahabad and Gya districts, and also one or two showers from the Patna and Lohardugga districts. Temperature also continued exceptionally high in Bengal on the 24th, the excess above the normal ranging from about 2° or 3° to nearly 8°. On the 25th, there was a general but very slight fall of pressure over the whole Province, while temperature also remained exceptionally high, but wind directions generally became more normal and conditions were less disturbed. On the 26th, a decidedly rapid fall of pressure had taken place over the Province, the fall being largest in North Bengal and Behar, and pressure became below the normal over part of North Bengal, while it was above it elsewhere. The winds over the northern part of the Province also showed the effect of the disturbance, and south-westerly winds were reported at many of the central and northern stations in the Province, and rain fell at several stations in the Darjeeling district, which was reported on the morning of the 27th. The disturbance was, however, exceedingly slight, for pressure had risen on the 27th, and had become above the normal in all districts, and at this time also temperature commenced generally to fall. The rise of pressure continued on the 28th, while temperature also decreased at many stations, and winds also became generally north-westerly or of the normal cold weather direction. The increase of pressure had ceased on the 29th and there had been a slight fall, and on the 30th pressure was rising very slowly at some stations and falling at others, and pressure generally was about 0·05″ to 0·08″ in excess of the normal. The fall of temperature had continued slight, and on the 30th temperature was generally from about 2° to 6° or 7° in excess of the normal. The other conditions of wind direction, cloud proportion and humidity were, however, fairly normal at the close of the week.

Pressure.—The mean pressure for the week has been in excess of the normal over the whole Province, the amount of excess generally ranging from 0·05″ to 0·1″. This excess has, however, been generally smallest at the stations in South, East and North Bengal, while it has been largest in Chutia Nagpur and Behar.

Temperature.—The mean temperature of the Province for the week has been no less than four degrees in excess of the normal. This abnormally high temperature has been fairly equally spread over the whole Province, but the excess was largest in the first half of the week and decidedly smaller during the second half.

The variation of temperature is, however, most clearly seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the Province are compared with the normal values for the same period. It will be seen from this table that the excess has been almost equal both during the day and the night.

Rainfall.—Light and fairly general rain has fallen in the Darjeeling and Shahabad districts during the week, while showers also are reported from the Gya, Patna, Lohardugga,

Durbhunga and Mozufferpur districts; but as a rule the amounts recorded at the individual stations are decidedly less than a tenth of an inch. The only moderately heavy falls have been Buxa 0·74 inch, Hosseinabad 0·50 inch, Aurangabad 0·37 inch, Darjeeling 0·28 inch, Manahorpur 0·28 inch, Rammagor 0·27 inch, Bassawan 0·19 inch, Bhubooah 0·18 inch, Ageaon 0·13 inch, Gya 0·12 inch, and Garwa 0·10 inch.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

O, overcast; ≏, dew; ≡, fog.

The letter No. 3926Mis., dated the 29th December, 1891, of the Government of Bengal, to the Government of India in the Home Department.
The letter No. 119, dated the 21st January, 1892, from the Government of India, in the Home Department, to the Government of Bengal.

THE transliteration at present authorised of the names of well-known places rivers, &c., in Bengal, of vernacular terms frequently used in official correspondence, and of the names of religious festivals, having been re-considered by the Lieutenant-Governor, the following revised lists, which have been approved by the Government of India, are published for general information and adoption in supersession of the lists published, with the Bengal Government Resolution of 6th March, 1874, at pages 530-32, Part I of the *Calcutta Gazette* of the 11th idem. The lists now published are also intended to supersede so much of the Notifications of 29th May 1876, and 10th December 1877, published, respectively, at pages 535-605, Part I of the *Calcutta Gazette* of 31st May 1876, and page 1686, Part I of the *Calcutta Gazette* of 12th December 1877, as is affected by them.

2. The only names of places of which it is thought desirable to retain, on historical grounds, the accepted spelling, are those in the first list. All other names of places and all technical vernacular terms, which it may be found necessary to use in official letters, should be transliterated on the scientific system. The names of many of the most important places in Bengal will be found in the second list, and the spelling here adopted should be carefully followed in official correspondence. The proper spelling of other less important places will be found in the Civil List, Part XXIXA, and in any other case where doubt may arise, the spelling adopted in Sir W. W. Hunter's "Statistical Account of Bengal" should be followed.

Secretary to the Government of Bengal.

REVENUE DEPARTMENT,—FORESTS.

NOTIFICATION No. , For.

The 9th February, 1892.—The Lieutenant-Governor, with the previous sanction of the Governor-General in Council, is hereby pleased to declare, under section 26 of the Indian Forest Act, (VII of 1878), that the area within the boundaries specified below, which in the notification of the 17th June, 1881, published at page 629, Part I of the *Calcutta Gazette* of the 22nd June, 1881, was declared to be reserved forest and forms a portion of the reserved forest then so declared under the name of the Teesta Chel Forest, ceased to be reserved forest with effect from the 1st December, 1891.

A piece of land on the east boundary of the Pugo block of Teesta Chel Forest, measuring about 2 acres and bounded as follows :—

North, West and South.—A demarcated line separating the piece of land to be excluded from the rest of the Pugo block reserved forest.

East.—The previously existing boundary line which separated the piece of land, now excluded, from Mr. Durnford's Phagoo Tea estate.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 8th February 1892.—Under section 4 of Act V (B.C.) of 1875, Messrs. G. Vanderbeck and G. Campbell are appointed to be Assistant Superintendents of Survey for the purpose of carrying out the survey in Orissa.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

DECLARATION.

The 6th February 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the extension of the Lebong cantonment land on the Lebong spur, in the Darjeeling Municipality, district Darjeeling, it is hereby declared that for the above purpose a piece of land, measuring more or less 17 acres, 1 rood and 14 poles of standard measurement, known as the Boscabel or Rosabel Location, bounded on the north by the present Lebong cantonment land, east by the east Lebong road, south by Mackintyre's Hill location, west by the western Lebong road, is required on the aforesaid Lebong spur.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

The plan of the land may be inspected in the office of the Deputy Commissioner of Darjeeling.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 6th February 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the extension of the Lebong Cantonment land, on the Lebong Spur in the Darjeeling Municipality in the district of Darjeeling, it is hereby declared that for the above purpose a piece of land measuring, more or less, 26 acres 3 roods and 15 poles of standard measurement, comprising the locations known as "Mackintyre's Hill," "Fern Hill," "Appletree Hill" and "Orchard," and bounded on the north by Boscabel Location, east by the East Lebong road, south by Bhutia Basti land, and west by the Western Lebong road, is required on the aforesaid Lebong Spur.

The 9th February 1892.

REVISED WATER-RATE RULES FOR THE ORISSA CANALS.

No. 56.—*Notification.*—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to make the following revised rules for the Orissa Canals, in supersession of those passed in the Notifications marginally quoted.

No. 105, dated 26th July 1880.
„ 442, „ 9th December 1889.
„ 330, „ 15th September 1890.

J. M. MCNEILL, *Col.*, R.E.,
Secretary to the Government of Bengal.

General conditions.

Compensation under section 76 (c).

(1) The Collector, before awarding compensation under section 16 or section 76 (*c*), or making a reference under section 17 of the Irrigation Act [Act III (B.C.) of 1876] shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.

No appeal from order of Canal Officer.

(2) Except as provided in the Irrigation Act and in these rules, no appeal shall lie from any order passed by a Canal Officer, but the Sub divisional and Divisional Canal Officers shall modify any order passed by them on the receipt of definite instruction to that effect from the Divisional or Superintending Canal Officers respectively.

Appeals to Collector.

(3) Appeals to the Collector under section 91 of the Irrigation Act, other than those specially provided for in Rule 49, will ordinarily be against an order passed by the Divisional Canal Officer. When the order passed has reference to the alignment of a village channel, or, to the refusal of the Divisional Canal Officer to grant a lease under schedule I, II or III, the Collector may require the Superintending Canal Officer to state his opinion in writing, and this opinion shall form part of the record of the proceedings in the case.

On village channels.

Canal Officer to assist.

(4) Canal Officers shall give every assistance to applicant in aligning and laying out any village channels which they may desire to construct.

Register of village channels.

(5) A register of all village channels shall be maintained by the Divisional Canal Officer in such form as the Superintending Canal Officer may direct.

On the free irrigation of chaukidars' jaghirs.

Chaukidars' jaghirs.

(6) The chaukidar of any village in which lands are leased under schedule I, II, III or IV shall be entitled to a remission of the water-rates chargeable on account of lands included in his jaghir and in any leased area on the condition that he gives efficient and willing assistance to the Canal Officers in respect to the following matters:—

(*a*) In the preparation of applications for leases.
(*b*) In the measurements of irrigated lands.
(*c*) In giving the names of the occupiers of the various fields.
(*d*) By receiving the demand statement, making it over to one of the principal raiyats in the village, and informing the cultivators that he has done so.
(*e*) By receiving "tippas" from the Canal Officers and distributing them.
(*f*) By reporting cases of unauthorized irrigation which may come to his notice.
(*g*) By being present when any local inquiry is made by a Canal Officer and by giving information concerning the matter under investigation.
(*h*) By reporting to the Collector any mutations in the holdings of persons who have signed a lease under schedule I or II that may come to his knowledge.

On the "lease unit" system.

Distributary lease units.

(7) The area commanded by each distributary which is not fully provided with village channels shall be portioned out by the Divisional Canal Officer into any convenient number of tracts, or group of villages to be called "lease units." The boundary of each of these "lease units" shall be so determined that the land lying within it can be conveniently irrigated from the same outlet or from any convenient group of outlets. The "lease units" shall be approved by the Superintending Canal Officer.

Classification of villages in "lease units."

(8) The area in each "lease unit" shall be divided by the Canal Officer into three classes.

(*a*) Lands which, being situated in immediate contact with a canal or distributary, can be irrigated by direct flow from outlets in it.
(*b*) Lands which are provided with village channels properly constructed and maintained in good order by the owners of the channels.
(*c*) Lands which, not being provided with proper village channels, and being remote from the canal or distributary, can only be irrigated by flow through fields intervening between them and the distributary.

(9) The Canal Officer shall keep in his office a plan showing the "lease units" of each distributary. Each "lease unit" shall be separately numbered and registered in a book which shall show:—

Record of "lease units."

Its area;
The number and size of outlets provided for it;
The names of the villages in it;
The class (*a*, *b*, or *c*,) of each area;
The date when the leases in it terminate.

(10) The boundaries of, or the classification of the tracts in any "lease unit" may at any time be amended by the Divisional Canal Officer with the previous sanction of the Superintending Canal Officer. On receipt of such sanction the Divisional Canal Officer shall amend his plans and registers.

Amendment of "lease units."

(11) The lease first granted in any "lease unit" must be for five years.

(12) No lease shall be granted to any class (*c*) village until all the class (*a*) villages in the "lease unit" have been leased, and until the villages lying between it and the class (*a*) villages of that "lease unit" (if any) have also been leased.

Leases of class (*c*) villages.

(13) Leases granted for a term of years to any or all of the villages situated in the same "lease unit" shall terminate at the same time as the lease first granted in that "lease unit."

Leases to terminate simultaneously.

(14) Provided that, for four years after the date of these rules, the lessees of lands in any "lease unit" in which the class (*a*) villages have been leased for five years, shall, when their leases expire, be offered the opportunity of extending them for such a term of years as will cause them to expire simultaneously with those of the class (*a*) villages of that "lease unit" and they may be extended at the rate of Re. 1-8 per acre. If, however, the lessees decline to renew them on these conditions, within one month of their expiry, they shall not be permitted to renew them subsequently except at the rates given in schedule II.

Exceptions with reference to present leases.

(15) Class (*a*) and class (*b*) villages shall be eligible to obtain leases under all the five schedules attached to these rules. Class (*c*) villages shall only be eligible for leases under schedules II and III.

Schedule of Rates.

On applications for the supply of water during the kharif season.

(16) Applications for the supply of water in the kharif season will be granted:—

Kharif applications of three kinds.

(1) For a term of years (schedules I and II).
(2) For one season only (schedule III).
(3) After the 1st of September from an outlet of a defined size (schedule VI).

(17) Applications for the supply of water for a term of years shall be subject to the following conditions:—

I. Notice in the attached form (Appendix I) must ordinarily be given to the Sub-divisional Canal Officer by the cultivators of a village not later than the 1st April if they require water for irrigation for a term of years to have effect from the 15th of June following. Applications presented after the 1st April will be accepted so far as may be possible, having regard to the measurements, &c., which are necessary before the grant of permits. Those presented between 1st April and 1st May will, if accepted, be liable, at the discretion of the Divisional Canal Officer, to an additional rate of 4 annas per acre for the first year of the lease, and those presented between the 1st May and 1st June will be similarly liable to an additional rate of 8 annas per acre. In either case the additional rate shall be payable at the same time as the first instalment of the ordinary rates due on the lease. On presentation of this notice the Canal Officer shall inspect the block which it is proposed to lease, and, if he approves of it, shall proceed to prepare the final application (Appendix III).

Notice that lease is required.

II. The application shall not be entertained unless it refers to a distinct block of land of which the boundaries are defined. The block must (in all but very exceptional cases) include all the irrigable lands of a village which are, or have been, cultivated with rice. If the block of land offered for lease has included within its boundaries:—

Applications to include all rice lands in village.

(*a*) High lands not irrigable by flow, or—
(*b*) "Beali" lands for which canal water is not ordinarily required, or—
(*c*) "Low lands" which cannot ordinarily benefit by canal water,

these lands may be excluded from the final application. But water cannot in that case be supplied to such lands during the currency of the lease except on an application for an annual lease (schedule III).

III. The application must be in the form attached to these rules (Appendix III), which states that water-rates will be paid on all lands contained in the block for which the application is presented whether water is required or not, and that the applicants will arrange for the transit of the water from the distributary to all the fields of the block to be leased, and give due notice to the Canal Officer of any changes in their holdings.

Payment to be made for area leased.

IV. The lands contained within the defined boundaries must be measured (or the area ascertained from the cadastral survey map) by the Canal Officer or his subordinates, and the application must be completely signed by all the cultivators holding lands in the block, or the applicants must bind themselves to be jointly responsible for the water-rates due on such block before a permit for the supply of water shall ordinarily be granted. Provided that if water is required to be supplied before this can be done, a preliminary application in the form Appendix II must be submitted before the 1st of September instead of the notice referred to in Rule I. This form binds the applicants to pay at the rate of Rs. 3 for each acre of their holdings if they fail to complete the lease for a term of years before the 30th of November of the year in which water is required. The Superintending Canal Officer may, if special circumstances appear to him to justify it, alter this date to the 1st of February next following. A permit which has been granted on this preliminary application will be cancelled as soon as the final application (Appendix III) has been completely signed by all the cultivators holding lands in the block. A permit for a term of years will then be issued.

Lease must be complete before water is supplied.

If not, annual lease must be executed. No leases granted after 1st of September.

V. When under the "lease unit" system described in Rules 7 to 15 inclusive, a portion of a village falls in one "lease unit" and the remainder in another "unit" a separate application must be signed for each portion of the village.

VI. No additions to the area covered by a lease duly executed for a term of years shall, as a rule, be permitted. But when the irrigable area which is under rice cultivation in a village is increased (owing to improvements in distribution or to the actual extension of cultivation or to any other cause), an application may be made for a separate lease for a term of years for such increased area. If the application is approved by the Canal Officer, a permit shall be granted for a term of years such that the lease will terminate at the same time as the one previously granted in the same village. The water-rates chargeable on such a lease shall be those defined in schedule II.

No extension of lease during its currency.

(18) Applications for water for one kharif season only shall be subject to the following conditions:—

I. The application must be for a block of land having well-defined boundaries, and so situated that adjoining or intervening lands will not ordinarily or probably be irrigated by water supplied for the land included in the application. The block must be situated either—

Annual leases.

(1) In immediate contact with a canal or distributary, so that it can be irrigated without a village channel by direct flow therefrom, or
(2) it must be provided with a proper village channel, or
(3) it must be situated in immediate contact with a village leased under schedules I and II, so that it can obtain a supply through the fields of that village.

II. The application must be in the form (Appendix IV) attached to these rules, which states that water-rates will be paid on all lands contained in the block for which an application is presented whether water is required or not, and that the applicants will arrange for the transit of the water from the distributary to all the fields in the block which they desire to irrigate.

III. Applications for leases under schedule III must be submitted before the 1st of September.

No leases granted after 1st September.

(19) Applications for the supply of water after the 1st of September from an outlet of a defined size shall be subject to the following conditions:—

Water supplied after 1st September.

I. Outlets in a canal or distributary bank may, at the discretion of the Subdivisional Canal Officer, be leased from the 1st September until the 15th November at the rates enumerated in schedule VI, care being taken not to lease any outlet unless a head of not less than six inches on the outlet is available.

Outlets leased.

II. Persons occupying lands not under lease may apply for water to be delivered to them after the 1st of September for the current kharif season in the form (Appendix V) attached to these rules. The application shall not be entertained unless it is accompanied by a sum in cash equal to half the amount chargeable for the size of the outlet at the rates defined in schedule VI, and by an agreement executed by substantial persons in the form attached to Appendix V binding themselves to pay the remainder.

III. The person to whom a permit for the use of an outlet is granted shall be allowed the free use of all the water he can obtain from that outlet without reference to the area irrigated.

Lessee of outlet allowed free use of water.

On applications for the supply of water during the rabi and hot-weather seasons.

(20) Applications for the supply of water in the rabi season (15th November to 30th April) and in the hot-weather season (1st May to 15th June) will be subject to the following conditions:—

I. The approximate area of land for which water is required must be stated in the application, which must be signed by all the occupiers of the land. The application must be in the form (Appendix VI) attached, which states that water-rates will be paid on the area actually irrigated.

Water-rates paid in area watered.

II. That water cannot be supplied during the hot-weather season when the canals are closed. Notice of the duration of such closures will be given before the commencement of the season.

Canal closures.

(21) It shall be the duty of the patrol to enter in his shudkar every field which is irrigated in the rabi and hot-weather seasons.

(22) Water for filling tanks may be supplied at the discretion of the Canal Officer at the rates given in schedule VII. The charge for the water shall be paid in advance for such a quantity of water as the Canal Officer may consider necessary to fill the tank. The Canal Officer shall see that the outlet is opened for a sufficient time to give the quantity which is paid for.

Water of tanks.

On permits.

(23) A permit shall not be issued when, in the opinion of the Canal Officer—

Grounds for refusing permit.

(i) waste is likely to occur.

(In the order refusing a permit on this ground the Canal Officer shall state in writing the manner in which he apprehends that waste will occur.)

(ii) The area for which water is required cannot be irrigated without passing canal water through, over or into, unleased areas.

(24) All permits for the use of water shall be subject to the following conditions:—

I. That where there are no village channels the applicants will make their own arrangements for the transit of the water from the canal or distributary to the leased area.

Lessees to arrange for distribution.

II. That the water will be supplied at the level at which it is ordinarily maintained in the distributary, and that no earthen bunds or other works will be used to raise the level of the water in the distributary.

No bunds allowed.

III. That the regulation of the discharge of the outlets will be entirely in the hands of the Canal Officer and his subordinates.

Canal Officer to regulate.

IV. That water-rates are paid when due.

Regular payment.

V. That the applicants will not permit waste of water.

Waste to be prevented.

VI. That water supplied for the irrigation of a leased block of land in a village shall not be applied to any other lands in that village.

Water restricted to leased area.

VII. That land to be irrigated on kharif leases (schedules I, II and III) must form a compact block defined by well-marked boundaries of such a nature as clearly to separate the leased lands from the neighbouring unleased ones. The boundaries must be mentioned in the application.

Leased block to be distinct.

VIII. That when high lands, "beali" lands, or low lands, which cannot ordinarily benefit by canal water, are, under Rule 17, II, excluded from a lease for a term of years, a schedule of such lands shall be attached to the application, the numbers of the fields on the cadastral map being stated in the schedule; or if there is not a cadastral survey map of the village, the Canal Officer shall attach a rough map to the lease showing the excluded area.

Excluded lands.

(25) If all the persons who have signed a lease under schedule I or II submit an application for the lease to be cancelled, the superintending Canal Officer may cancel it if he considers the reasons given are sufficient.

Power to cancel lease.

(26) Permits for irrigation for a single kharif season under schedule III (annual leases) shall be subject to the same general conditions; the essential difference being in the duration of the lease and in the fact that a permit may be issued for any well-defined block and not necessarily for the whole irrigable land in the village which is cultivated with rice. "Beali" lands and low-lying lands cannot be excluded from annual leases if they are situated within the boundaries defined in the application.

Annual permits.

Rabi permits.

(27) Permits for irrigation in the rabi or in the hot weather under schedules IV and V shall be issued on the following conditions:—

I.—That the applicants will give notice to the Canal Officer, or his subordinates, as soon as the area requiring irrigation has received a sufficient supply of water.

II.—That the applicants will undertake, as far as is practicable, to prevent water being wasted or applied to the irrigation of fields not included in the application.

III.—Water-rates will be levied on the areas actually irrigated and not on those specified in the application.

On penalties and the cancelling of leases.

(28) At the request of the Collector of the district, the Superintending Canal Officer shall direct the Divisional Canal Officer to—

Irrigation to be stopped where water-rates are not paid.

I. Decline to renew leases (*i.e.*, to issue permits) for the irrigation of land in villages where there have been constant difficulties in realising water-rates. In such cases permits shall not be again issued until all the arrears of water-rates due are paid up; and also, if specially required, by the Collector not unless half the amount due for the first ensuing season is paid up in advance. An order under this rule (unless the Collector in the meantime apply for its being rescinded or modified) shall be in force for the time stated therein, which shall not exceed three years.

Lease may be cancelled where water-rates are not paid.

II. Cancel any lease under schedule I or II, if, on the 1st of June of any year, the water-rates due on such lease are in arrear by more than half a year's demand.

Lease to be cancelled when water misused.

(29) The Divisional Canal Officer may, with the concurrence of the Collector and the sanction of the Superintending Canal Officer, cancel a lease under schedule I or II if water is habitually misused or wasted. Such an order shall have effect from the 15th June next ensuing, and at least two months' notice must be given to the cultivators.

Interests of others to be considered in cancelling leases.

(30) The Superintending Canal Officer in issuing orders under Rules 28 and 29 shall bear in mind the circumstances affecting "lease units" as described in Rules 7 to 15, and shall not cancel a lease if it is necessary that it should remain in force in order that water may be supplied to other leased areas.

On Unauthorised Irrigation and Waste of Water.

Rate for unauthorised irrigation.

(31) Water-rates for unauthorised irrigation shall be assessed by the Canal Officer under section 78 of the Irrigation Act at rates not exceeding Rs. 5 an acre.

Two classes of unauthorised irrigation.

(32) Unauthorised irrigation during the kharif season consists of two classes—

(i) Unauthorised irrigation within the boundaries of a leased area.

(ii) Unauthorised irrigation effected with water taken either from a leased area or from a canal, distributary or village channel.

(i) Within a leased block.

(33) Unauthorised irrigation of the first class shall, during the kharif season, only be assessed when the land irrigated has been entered in the schedule of lands excluded from the lease; and then only when:—

(*a*) The irrigation has been recorded in the patrol's shudkar.

(*b*) The patrol and sectional officer report that there are signs that the water has been deliberately taken and that the crops have benefited.

(*c*) The reports of the patrol and sectional officer have been received by the Sub-divisional Canal Officer within 10 days after the date on which the illicit irrigation was detected.

(ii) Beyond a leased block.

(34) Unauthorised irrigation in the kharif season of the second class shall only be assessed when the same three conditions (*a*), (*b*) and (*c*) have been complied with, and further—

(*d*) When the assessment of the area irrigated has been authorised by the Divisional Canal Officer.

(35) It shall be the duty of the Subdivisional Canal Officer to deal promptly with cases of unauthorised irrigation. He shall personally inspect as many cases as he can, and shall not make any assessment himself, nor ask the Divisional Canal Officer to sanction any assessment, unless the evidence has been recorded and he considers it quite satisfactory.

(36) When in the first case, the Subdivisional Canal Officer has determined that an assessment of unauthorised irrigation in the kharif season shall be made; or when the Divisional Canal Officer has authorised such an assessment, the Canal Officer shall *at once* send, by post or otherwise, a slip *(a tippa) to each cultivator, informing him of the fact and quoting the approximate area, as detailed in the patrol's shudkar, which has been recorded as irrigated. At the same time he shall send an amin to measure the fields which have been irrigated and to prepare the demand statement therefor.

Notice of assessment to be sent.

(37) Demand statements of unauthorised irrigation during the kharif season should be served in the village immediately they are prepared, and in no case later than the 30th November.

Demand statements to be promptly issued.

(38) Unauthorised irrigation in the rabi season or in the hot-weather season shall be assessed by the Canal Officer on the evidence of the patrol and sectional officer. The Canal Officer should personally inspect as many cases as he can. A notice that an assessment will be made should be served on the cultivators as soon as an assessment is ordered, as provided in Rule 36, the procedure of which should be generally followed (*mutatis mutandis*).

Unauthorised irrigation in rabi season.

(39) Charges for waste of water under section 80 of the Irrigation Act shall be at the rates fixed in Rule 31, and be subject to the same conditions as the assessments of unauthorised irrigation which are stated in the foregoing rules. When a tank or piece of low ground has been deliberately filled, a charge of Rs. 5 per thousand cubic yards may, at the discretion of the Canal Officer, be imposed instead of an acreage rate.

Waste of water.

On demand statements.

(40) Statements showing the amounts due on account of water-rates shall be prepared in such form as may be sanctioned from time to time by the Lieutenant-Governor, under the supervision of the Subdivisional Canal Officer, and shall be signed by him and by the Divisional Canal Officer. They shall then be forwarded to the Collector for the realisation of the demands.

Demand statements.

(41) The demand statement showing the water-rates due on any lease given under schedules I and II shall be prepared at the same time as the application. A copy of it shall be given to the patwari or to the chaukidar of the village for the general information of the villagers. A separate statement or tippa signed and sealed by the zilladar may also, if the Collector so direct, be prepared in the name of each person who has signed the lease, showing the annual sum which is due from him. These tippas may be given to the patwari or chaukidar to distribute or may be sent by post. No further notice of demand shall be given during the currency of the lease.

For long leases prepared once for all. A copy sent to chaukidar.

And tippas to each ryot.

(42) A demand statement showing the water-rates under a lease for a single kharif season (schedule III) shall be prepared as soon as possible after the lease is granted and not later than two months after the issue of the permit. The statement shall show the amount due from each person who has signed the lease, whether irrigation has been effected or not. A copy of it shall be given to the patwari or to the chaukidar of the village for public information, and separate tippas showing the demands against each individual may also be sent as in the previous rule. No further notice of demand shall be given.

Similar procedure for annual kharif leases.

(43) The assessments and issue of demands on account of lands irrigated in the rabi season or in the hot-weather season shall be made under the following procedure:—

Demand statements for rabi and hot weather shall be for

I. The area which is actually irrigated in any village shall be measured, or ascertained by means of the cadastral map, by an amin with the assistance of the patrol. The khasrah, which shall be in a printed form, shall be signed by the amin and by at least two respectable cultivators. If any of the lessees desire to have a copy of the khasrah, he shall be allowed to copy it.

The area actually irrigated.

II. When the measurement is completed, the khasrah shall be forwarded to the Subdivisional Canal Officer, who shall prepare a demand statement with all reasonable despatch. A copy of this statement shall be sent to the patwari or to the chaukidar for public information in the village, and a tippa may be sent as in rules 41 and 42 above to each person whose fields have been irrigated.

Demand statement sent to chaukidar. Tippas to cultivators.

(44) Demand statements on account of unauthorised irrigation shall be dealt with generally in the same manner as those of the rabi season, but with greater promptness. The demand statement in such cases shall be printed on red paper to draw attention to the fact that the demand is payable at sight. The demand statements sent to the patwari or to the chaukidar and the tippas sent to the cultivators shall also be on red paper.

Demand for unauthorised irrigation. Payable at sight.

* A "tippa" is the same thing as the "percha" of the Sone Canal Rules.

(45) Persons who may wish to raise any objections to the demands made against them must present a written statement of their case to the Subdivisional Canal Officer, who, after such local or other enquiry as he may think necessary, shall pass orders on the matter. A copy of the order if not passed in his presence and hearing shall be delivered by post or otherwise to the person who raised the objection.

Objections to demands to be made to Canal Officer.

(46) All objections to demands on account of water-rates which relate to the supply of water and the assessment of water-rates and are addressed to the Collector shall be referred for the orders of the Divisional Canal Officer.

Objections made to Collector to be referred to Canal Officer.

(47) Objections to the demand statements must be presented within thirty days of the date on which the demand statement was given to the patwari or to the chaukidar of the village, or of the date on which the tippa was delivered to the person objecting. This period may be extended when reasonable cause for delay can be established.

Objections to be made within thirty days.

(48) The objection should ordinarily be stated in a form which will be sold for one pice at all Canal Offices, giving instructions as to the particulars required to admit of the objection being readily investigated; but any form may be accepted at the discretion of the Collector or canal officer provided it clearly states the name or names of the persons objecting, the crop and the year for which the charge is made, the demand from each cultivator to which objection is taken, and the name of the village in which the land is situated. *Provided* that no objection shall be received which refers to more than one "lease-unit," and that all or any of the raiyats in one "lease-unit" may join in one objection.

Prescribed form for objections.

(49) Any person who is not satisfied with the order passed by the Subdivisional Canal Officer under Rule 45 may file an application of appeal to the Collector under section 91 of the Irrigation Act. Such application must be accompanied by a copy of the order appealed against. The Collector shall thereupon, after considering the records of the case, pass such order as he may think fit, and may meanwhile suspend collections by a written order if he thinks proper to do so.

Appeals to lie to the Collector.

(50) The Collector may, by a special order passed in each case, refer applications under rule 49 to any Deputy Collector for report or disposal. An appeal against an order passed by a Deputy Collector under this rule may be preferred, within thirty days, by either the applicant or the Divisional Canal Officer.

Appeal against order of Deputy Collector.

(51) When any person appeals to the Collector against an order passed by a Subdivisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record thereon any remarks he may think fit. The papers shall not be detained by him for the purpose of making further enquiries, but the Collector may, on the suggestion of the Divisional Canal Officer, or of his own motion, direct that such enquiries shall be made.

Procedure when an appeal is made to the Collector.

(52) Reports of, and applications for mutations of names in leases under schedules I and II shall be made to the Collector or to any officer authorized by him to receive and dispose of them. If addressed to any Canal Officer, they shall be referred to the Collector for disposal.

Mutations of names.

on the payment of water-rates.

(53) Water-rates assessed under sections 78, 79, and 80 of the Irrigation Act shall be due on the following dates:—

I. Leases for the kharif season for a term of years (schedules I and II)—
In one instalment, on the ... ... 1st March.

Note.—The demand statements will be sent to the Collector as soon as the lease is complete as provided in Rule 41. Annual demand statements are not necessary.

II. Annual leases.

(*a*) Leases for a single kharif season (schedule III)—

In one instalment on the ... ... 1st March.

Note.—The demand statements for the water-rates due on these leases shall be submitted to the Collector as soon as the application is complete (see Rule 42).

(*b*) Leases during the rabi season (schedule IV)—In one instalment on the 1st August (except for sugarcane).

(*c*) Leases during the hot-weather season (schedule V) for sugarcane. The demand for the irrigation of sugarcane for both the rabi and hot-weather seasons shall be paid in one insalment on the 1st of April after the crop is cut.

Note.—The demand statements for these two classes of leases shall be submitted to the Collector fifteen days, if possible, before the water-rates are due, but accuracy in the charges is of more importance than a rigid adherence to dates.

III. For water supplied for kharif crops after the 1st of September to lands which are not under lease (schedule VI)—

First moiety	...	... Before the outlet is opened.
Second ,,	...	... 1st March.

Note.—The first moiety shall be paid to the Subdivisional Canal Officer, the second to the Collector A demand statement shall be forwarded to the Collector as soon as the lease has been granted.

IV. Water supplied for filling tanks (schedule VII)—Shall be paid to the Subdivisional Canal Officer in one instalment—before the outlet is opened.

V. Unauthorised irrigation and waste.

Assessments under sections 79 and 80 of the Irrigation Act.	On receipt of the demand statement by the Collector.

(54) The water-rates shall be paid on or before the dates when they fall due as detailed in the previous paragraph.

Contractor for water-rates.

(55) At the joint written request of all the cultivators signing the application and of a person who shall be termed the contractor, a lease for a term of years may be granted under which the said contractor shall collect and pay to Government the entire sum due annually on the said application. In such a case the form of application shall be altered as prescribed in the footnote of Appendix III. A contractor shall be entitled to receive a commission of 15 per cent. on the amount paid to the Collector.

To be approved by Collector.

(56) No person shall be accepted as contractor under rule 54 except with the written consent of the Collector to his nomination. The Collector may require the contractor to give security for the execution of the agreement. The contractor must be either the zamindar or the farmer of the *entire* village. No person who is the zemindar or farmer of only a portion of the village, less than sixteen annas, shall be accepted as contractor.

Powers of contractors to collect.

(57) Contractors shall be entitled to collect water-rates from the cultivators who have signed the application and from their successors in interest in the land included therein, at the rates fixed by the Lieutenant-Governor under section 78 of the Act. Every sum due from a cultivator to a contractor on account of water-rates under rule 54 shall be deemed to be a sum due to Government under sections 82 and 85 of the Irrigation Act.

Contractor's payments when due.

(58) The sum due from the contractor shall be paid to the Collector, either by instalments or in one sum, before the 31st of March.

Resignation of contractor.

(59) A contractor may resign his interest in a lease on giving to the Collector, before the 1st of October, a written notice of his intention to do so.

Canal Officer may appoint approved contractor.

(60) If, after the completion of a lease under schedule I or II a contractor, as described in rule 55, comes forward, and is willing to undertake to collect the entire sum due from any village on account of water-rates, the Canal Officer, subject to the approval of the Collector, may appoint him to the office under a proper agreement under section 82 of the Act.

Any person paying entire demand may claim 15 per cent.

(61) If, at any time, the cultivators of a village under lease pay to the Collector through any one person nominated by themselves, the entire sum due on their lease, on or before the date on which the water-rates are due, a refund of 15 per cent. of the amount so paid shall be made at the time of payment to such person.

On Remission.

Gauge of discharges.

(62) The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of failure of supply.

Remission for failure of supply.

(63) Claims to remission of water-rates under section 76 (*b*) shall be made to the Subdivisional Canal Officer. Such claims shall only be admitted on proof of actual loss caused by failure or stoppage of supply. On proof of such loss, due to such failure or stoppage as described in section 76 (*b*), the Divisional Canal Officer shall remit the whole or any part of the rates. All Applications for remission of water-rates shall be made in the manner provided in rule 45 within 15 days after the occurrence of such failure or stoppage.

Compensation.

(64) Before awarding compensation under section 76 (*c*), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings.

Remissions by Superintending Canal Officer.

(65) The Collector or the Superintending Canal Officer, acting under the general instructions which he may from time to time receive from Government, may, in special cases, remit the whole or part of the water-rates due to Government. Such remissions shall be classed as "extraordinary" and shall be a matter of grace only. Remissions under this head

will ordinarily be made on the representation of Collectors or of Divisional Canal Officers only No person shall be entitled to receive an order on an application for remissions contemplated by this rule.

(66) A remission statement signed by the Superintending or Divisional Canal Officer shall be sufficient authority for a refund by the Collector.

Authority for remission.

On collections and alteration of Demand Statements.

(67) Collections of all water-rates shall be made by the Collector in accordance with the demand statements furnished to him by the Divisional Canal Officer.

Collections.

(68) The Collector may make any alterations in a demand statement provided that the total sum due is not altered or provided that an error in account only is corrected. When such alterations are made in a demand statement referring to a lease under schedule I or II, a memorandum of the alteration shall be sent to the Divisional Canal Officer.

Alterations in demand.

(69) In cases when water-rates cannot be collected owing to the death, bankruptcy or absconding of the defaulter, the amount which cannot be recovered may be written off as irrecoverable on the authority of the Collector. A detailed list of sums written off under this rule shall be sent to the Divisional Canal Officer.

Power of Collector to write off.

(70) In all cases other than those stated, the sanction of the Commissioner of the Division must be obtained before any sum can be written off as irrecoverable.

Power of Commissioner.

On the supply of water.

(71) The Subdivisional Canal Officer shall, as a rule, sign all permits himself. He may, however, authorise any fit person to sign them if he considers it necessary. No water shall be supplied until a permit has been signed and issued.

Permits.

(72) The Canal Officer shall be responsible that the supply given through any outlet or group of outlets is in accordance with the permits and suitable to the area and nature of the soil which is under lease.

Outlets suitable to leased area.

(73) It shall be the duty of the patrol to :—

Patrol's duties.

(i) Report immediately all cases in which he finds that canal water is flowing beyond the limits of a block leased for irrigation in the kharif season, unless the water is passing into another leased block.

(ii) Inspect the lands (entered in schedule B,) which have been excluded from a lease under schedule I or II, and to shudkar the fields if they have been irrigated without authority.

Shudkar of unauthorised irrigation.

Note.—The patrol shall not shudkar ordinary irrigation in the kharif season. He has only to do with "Beali" or "Low-lying" fields or unauthorised irrigation beyond the leased area.

(iii) Shudkar unauthorised irrigation and make an immediate report to the Sectional Officer and zilladar.

Report to zilladar.

(iv) Shudkar all fields irrigated in the rabi or in the hot-weather seasons.

Shudkar of rabi and hot-weather.

(74) The Divisional Canal Officer may close outlets in rotation as he may consider necessary. But if the lessees require water, such closure shall not, in the kharif season, exceed five days after ten days of consecutive supply.

Tatcel of outlets

(75) The Subdivisional Canal Officer shall have authority to :—

(i) Stop the supply of water to any canal or distributary in a case of pressing emergency.

Stoppage of supply.

Note.—But, if the supply is stopped, the fact shall be at once reported to the Divisional Canal Officer, and if the stoppage exceeds five days in duration, the report shall be forwarded to the Superintending Canal Officer.

(ii) Stop the supply to any village channel under section 76 (*a*) of the Irrigation Act, when he is satisfied that the channel is not maintained in proper repair. A record shall be kept of all orders passed under this rule.

Stoppage of supply to village channel.

(76) No person shall be entitled to be supplied with water through a village channel, unless the channel has been put into a proper state of repair in accordance with the directions of the Subdivisional Canal Officer.

Repair of channel.

(77) A Canal Officer or any of his subordinates may temporarily close any outlet supplying a village channel or any leased area when unauthorised irrigation is, at the time, being carried on from the village channel or from the area under lease which is supplied from the outlet.

Outlet to be closed when unauthorised irrigation is in progress.

Miscellaneous.

(78) No officer employed on the canals, unless specially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold or leased in connection with them, either in his own name or in the name of another, or jointly, or in shares with others.

Interest in canal water.

(79) Tanks may, at the discretion of the Canal Officer, be filled with canal water without charge, and without reference to the area irrigated in any village wherever water can be made available without injury to the cultivation dependent on any canal, provided that no irrigation is practised from the tank, and that the water is required for domestic purposes or for watering cattle only.

Filling tanks.

(80) Any Deputy Collector or Sub-Deputy Collector may, under the general orders and control of the Collector, exercise the powers conferred on the Collector by rules 28, 52, 56, 58, 59, 60, 61, 67 and 68, provided that all orders passed by such Deputy Collector or Sub-Deputy Collector shall be appealable to the Collector, if a petition of appeal is preferred within thirty days of their being passed.

Powers of Deputy Collector.

SCHEDULE No. I.

Leases for a term of years for the whole irrigable rice-cultivated area of a village.

The person to whom the outlet is leased will be permitted to use the water in any way he pleases. He will only be entitled to the use of the outlet for ten days out of every fifteen days. No definite quantity of water is guaranteed, but the Canal Officer will endeavour to keep a minimum head of six inches on the outlet.

SCHEDULE No. VII.

Water will be supplied for filling tanks at the rate of Re. 1 per 10,000 cubic feet of water used calculated at the outlet.

APPENDIX I.

This form of notice will not ordinarily be accepted later than the 1st April for any lease which it is proposed to make in the year then current.

Form of notice that a permit for a term of years is required.

Mouzah , pergunnah , distributary .

We, whose names are attached, give notice that we wish to apply for a lease for a term of years for a block of land containing all the irrigable rice lands in our village. We request that the block may be inspected; that the necessary measurements may be made; and that the form of application, which has to be signed by all the cultivators of the block, may be prepared. We have ascertained that all the cultivators in the block are willing to enter into the lease.

Signatures of five or six principal cultivators ...

Note.—No permit will be granted on this notice.

APPENDIX II.

Note.—No application in this form will be received after the 1st of September for any lease which it is proposed to make in the year then current.

Preliminary application for a lease for a term of years.

Mouzah , pergunnah , distributary .

1. We, whose names are attached, hereby apply for water to be supplied from the above-mentioned distributary for the irrigation of our rice-fields from the 15th of June until the 15th of November in each of the following years:—

*189	corresponding to 129
189	129
189	129
189	129
189	129

We are aware that the rate applicable to this term of years is Rs.———for each acre leased.

2. The area to be irrigated by each of us is approximately stated in the schedule below. The area which we desire to irrigate forms a compact block, having the following boundaries:—

North.—
South.—
East.—
West.—

All the cultivators of this block desire to conclude a lease for the period named above.

3. We undertake to arrange for the transit of the water from the distributary to all the fields in the block which we desire to lease either by the construction of a suitable channel or by arrangement with the occupiers of intervening leased fields. Failure on our part to get the water to any field or fields will not entitle us as a matter of right to claim exemption from payment of water-rate due on such field or fields.

4. We will prevent, as far as possible, the waste of the water supplied to us and its use in an unauthorised manner by other cultivators.

5. We request that the areas of our holdings may be checked and the lease for the term of years specified above may be prepared. We agree to sign the lease for the entire block defined above as soon as it is presented to us.

6. We make this application under section 74 of Act III (B.C.) of 1876 and the rules issued under it, more especially rules 17, 24, 28, 29, 41, 61, 62, 70, 73, 74. We agree to abide by these and by all rules passed under the Act.

7. Should the lease for which we now apply not be completely signed by all the cultivators in the block before the 30th of November next, or should the lease not be accepted by the Canal Officer, we agree to pay at the rate of Rs. 3 for each acre of our holdings within the block as found by actual measurement. *Provided* that if the delay in the completion of the lease be due to any cause beyond our control, the rate to be charged shall be that specified in clause 1 of this application. We agree to pay the sum due from each of us whether we require water during the season or not.

8. We agree to pay the water-rates due on this application in one instalment on or before the 1st of February.

Name of cultivator.	Area to be irrigated.	Signature of cultivator.	REMARKS.

Note.—A permit may be granted on this application by the Subdivisional Officer only.

APPENDIX III.

Form of final application for a lease for a term of years.

Mouzah , pergunnah , distributary

1. We, whose names are attached, apply for water to be supplied from the distributary for the irrigation of our block of rice-fields from the 15th June until the 15th November in each of the following years :—

* 189 corresponding to 129
189 129
189 129
189 129
189 129

* Under the "lease unit" system (rules 7 to 15) a lease may be, under certain circumstances, for less than five years.

The area to be irrigated has the following boundaries :—

North.—
South.—
East.—
West.—

2. The area to be irrigated by each of us is stated in the schedule following, marked A. Each of us agrees to pay water-rates on the area recorded against his name at the rate of Rs.— per acre. We will pay the sums due from us independently of our requiring water in any particular year or not.

3. We desire that the lands entered in the schedule marked B, lying within the boundaries of the block (which are either unirrigable lands, "Beali" lands, or low-lying lands, which will not ordinarily benefit by canal water) may be excluded from irrigation and assessment. Should we require irrigation for such lands, we agree to make a separate application for the particular season when we require the water.

4. We undertake to arrange for the transit of the water from the distributary to all the fields in the block which we desire to lease either by the construction of suitable channels or by arrangement with the occupiers of intervening leased fields. Failure on our part to get the water to any field or fields will not entitle us as a matter of right to claim exemption from payment of water-rate due on such field or fields.

5. We will prevent, as far as possible, the waste of the water supplied to us and its use in an unauthorised manner by other cultivators.

6. We make this application under section 74 of Act III (B. C.) of 1876 and the rules issued under it, more especially rules 17, 24, 28, 29, 41, 61, 62, 70, 73, 74. We agree to abide by these and by all rules passed under the above Act.

7. We agree to pay the water-rates due from us in one instalment on or before the 1st of February, and to give due notice to the Canal Officer of any changes in the holdings included in this application.

8. We are aware that if a permit is granted to us it is liable to be cancelled under rules 28 and 29—

(i) If on the 1st of June of any year, more than one-half of the aggregate water-rates ue on this application are unpaid.

(ii) If water supplied for irrigating the block of land included in the application is habitually wasted or misused.

9. (If all the applicants have not signed.) We who have signed this application further bind ourselves to be jointly responsible for the payment of the water-rates due on the block from those who have not yet signed this application, should they fail to do so in due time, as required by the rules.

SCHEDULE A.

Name of cultivator.	Area to be irrigated.	Signature or mark of cultivator.	Signature of witness to cultivator's signature.

SCHEDULE B.

Name of cultivator.	Number of fields.	Class of land.	Area of land to be excluded from irrigation and assessment.	Signature.

Note.—A permit will not be granted for any lease for a term of years until an application in this form has been signed by all the occupiers of the land included in the block. If this application is not complete by the 15th June, an application either in Form Appendix II or Form Appendix IV must be submitted if water is required during the year then current.

Note.—When a contractor undertakes the collection of all the water-rates due on this application the following shall be inserted above schedule A :—

"9. We desire under rule ——— that ——————— ——— shall be appointed contractor. We agree to pay water-rates to him as they become due so long as he is authorised by proper authority to collect them. Should the contractor resign or be removed, we engage to pay water-rates to the Collector or to any person authorised by him to receive the amounts due from us."

The contractor shall sign the following agreement which shall be added to the lease :—

"I agree to become contractor under rules ——— ——— for the collection of the entire sum due under this application in consideration of being permitted to deduct Rs. 15 per centum from the total amount due on the lease. I undertake to pay to the Collector the whole amount due to Government on or before the 15th of March following the dates when the water-rates are due from the cultivators; should I default the Collector shall be at liberty to realise from me the said amount in terms of Section 85 of Act III (B.C.) of 1876. I will myself take the risk of any default in payment by the cultivators."

Note.—The agreement with a contractor needs an eight-anna court-fee stamp.

APPENDIX IV.

Note.—No application in this form will be received after the 1st September for water to be supplied during the season then current.

Application for a lease during a single kharif season.

Mouzah pergunnah distributary .

1. We, whose names are attached, apply for water to be supplied from the * 15th June to the 15th of November for the irrigation of the block of land formed by our holdings.

2. The area to be irrigated by each of us is stated in the schedule below. The area which we desire to irrigate forms a compact block, having the following boundaries:—

North:—
South:—
East:—
West:—

3. Each of us agrees to pay water-rates at the rate of Rs. 3 an acre on the area in his occupation as found by actual measurement. We will pay the sums due from us independently of our requiring water during the season or not.

4. We undertake to arrange for the transit of the water from the distributary to all the fields in the block which we desire to lease. Failure on our part to get the water to any field or fields will not entitle us as a matter of right to claim exemption from payment of water-rate due on such field or fields.

5. We will prevent, as far as possible, the waste of the water supplied to us and its use in an unauthorised manner by other cultivators.

6. We make this application under section 74 of Act III (B. C.) of 1876 and the rules issued under it, more especially rules 18, 26, 61, 62, 70, 73, 74. We agree to abide by them and by all rules passed under the Act.

7. We agree to pay the water-rates due from us in one instalment on the 1st of February.

SCHEDULE.

Name of cultivator.	Area to be irrigated.	Signature or mark of cultivator.	Signature of witness to cultivator's signature.

* If this application is submitted after the 15th June, this date should be altered.

Note.—The block leased on this application may be of any area, but all the irrigable lands included in it must be assessed and paid for. "Beali" lands cannot (if lying within the block) be excluded from assessment.

APPENDIX V.

Application for the lease of a Distributary outlet from the 1st September to the end of the Kharif Season.

I, , of mouzah pergunnah , apply for water to be supplied to me through outlet, No. of the distributary of inches in diameter for use in the irrigation of rice crops. I herewith tender Rs. , being half the sum of Rs. which is the rent of a inch outlet for the remainder of the season. I agree to pay the remaining sum of Rs. by the 31st of December next.

I am aware that the Canal Officer does not guarantee that any definite quantity of water will be delivered by the outlet. I am also aware that I shall only be entitled to the discharge of the outlet for ten days out of every fifteen days.

Witness:— Signature.

We, the undersigned residents of mouzah , pergunnah , agree to be jointly and severally liable for any portion of the above-mentioned sum of Rs. which may be left unpaid by on the 31st of December next.

[Second Publication.]

The 2nd February 1892.

No. 14*Marine.*—In accordance with the provisions of section 126, clause (4) of the Calcutta Port Act, 1890, the Lieutenant-Governor directs the publication of the following bye-laws for regulating, landing and shipping of goods on inland vessels' wharves, which have been proposed by the Commissioners of the Port of Calcutta:—

Landing and Shipping on Inland Wharves.

BYE-LAWS.

Goods to be landed at authorized wharves only.

1. With the exceptions hereinafter noted, no vessels, not being sea-going vessels, shall land or ship any goods at any wharf on the east bank of the river Hooghly between the northern boundary of the port and the Government Dockyard at Kidderpore, except at the wharves duly notified by the Commissioners under section 97 of Act III (B.C.) of 1890.

Exceptions.

2. The foregoing rule shall not apply to inland steamers or flats, or to boats laden with vegetables, fruits, meat, and market produce; such goods can be landed at the public ghats under any rules or restrictions at present or hereafter in force thereat.

Definition of market "produce."

3. By the term "market produce" shall be meant such perishable commodities as are imported for the bazars for immediate and daily consumption, but on such vegetables as potatoes, red gourds, or pumpkins, and the like, which are imported and stored, the toll shall be levied.

Goods not to be landed or shipped until toll has been paid.

4. No goods, liable under Schedule C for payment of toll, on which toll has not been paid, shall be either landed from, or shipped into, boats or vessels using the inland vessels' wharves.

Goods landed or shipped without payment of toll to be detained.

5. Goods landed from, or shipped into, boats or vessels without payment of the toll, shall be detained by the Commissioners, at the risk and expense of the consignees, until the toll has been paid.

Re landing or re-shipping.

6. If goods shipped have to be re-landed, or goods landed have to be re-shipped, such goods having already paid toll for shipping or landing, shall be exempted from further payment for re-landing or re-shipping, provided such re-landing or re-shipping takes place on the same day as the landing or shipping.

Steam-ferries and passenger-boats not to take goods unprotected by pass.

7. Persons in charge of steam-ferries or passenger-boats plying from any public ghat, shall not permit the landing or shipping from, or upon, their vessels of any goods liable under Schedule C for payment of toll, unless such goods are protected by passes.

Goods not to be stacked on the wharves.

8. Except for the purpose of enabling masters of vessels to take measurements or weighments of goods to be shipped on board their vessels, no goods shall be permitted to be stacked on the wharves beyond the time actually necessary to convey them away.

Goods awaiting shipment to be under control.

9. During the time it is actually necessary for goods in course of landing or shipping, to remain on the wharves, such goods shall be piled in places assigned for the purpose by the Superintendents of the wharves, or their subordinates.

Boats not to moor or anchor for purposes of sale or barter.

10. Boats shall not be moored or anchored at the wharves, in order that the owners of the goods brought in them may sell or barter.

Empty boats to lie in the stream.

11. Empty boats waiting to be hired, or having discharged goods, shall anchor in the stream, at least 150 feet off the wharves.

Timber not to be floated to detriment of the wharves.

12. No person shall float timber, rafts, or any obstructive articles in the stream within 150 feet of the bank, so as to impede the movement of boats and vessels at the inland vessels' wharves.

Commissioners' servants at liberty to board boats or vessels.

13. No person shall prevent the Superintendents of the wharves, or other persons deputed by them, from boarding any boat or vessel within 150 feet of the wharves, for the purpose of examining or ascertaining the quantities of the goods in them, or of detaining them for payment of tolls or other charges, or of giving effect to any of the bye-laws and rules passed by the Commissioners.

14. The hours for landing and shipping goods at the inland vessels' wharves shall be from 6 A.M. to 6 P.M. on all days, except Sundays and holidays authorized by the Commissioners; and no business shall be transacted on the wharves during the hours intervening between 6 P.M. and 6 A.M., nor on such Sundays and authorized holidays, except on payment of overtime or extra fees respectively.

Hours for landing and shipping goods.

15. When goods are to be landed or shipped inward or outward, authenticated challans showing the descriptions and exact quantities of the goods, shall be tendered to the cashier by applicants for the passes. On the data furnished in these challans the passes will be drawn up and the tolls levied. In the absence of such challans, or where reasonable doubts exist with regard to their genuineness or correctness, the calculation for levying the toll shall be based on the registered tonnage of the boats or vessels from which the goods are to be landed, or on which they are to be shipped.

Challans to be filled up.

16. Any person committing an infringement of any of the foregoing bye-laws shall be liable for the first offence to a fine not exceeding Rs. 100, and for a continuance of that offence, after notice shall have been given him by the Commissioners of his having committed the offence, to a further fine of Rs. 50 per diem.

Penalty for non-observance of bye-laws.

Drawing in High Schools.

THE following correspondence regarding the introduction of drawing into High Schools as a subject for the Junior Scholarship Examination is published for general information. Separate intimation will be given as to the time when and the manner in which effect will be given to the orders of Government.

A. CROFT,
Director of Public Instruction.

CALCUTTA, *the 7th February*, 1892.

No. 6456, dated Calcutta, the 14th November, 1891.

From—A. CROFT, ESQ., Director of Public Instruction, Bengal,
To—The Secretary to the Government of Bengal, General Department.

IN reference to your letter No. 440, dated the 4th August 1891, approving of the general introduction of drawing into high schools, I have the honour to recommend for the favourable consideration of Government the following suggestion, which I owe to Mr. Tawney, Principal of the Presidency College.

2. It is known to you that the University examiners candidates for matriculation in drawing as an optional subject, but that a candidate's success or failure in that subject does not help or hinder his passing the examination. Mr. Tawney's suggestion is that, for the purpose of awarding the Government junior scholarships, the marks gained in drawing by each candidate who takes it up should be added to his total. The advantage of taking up drawing would thus be so great that the subject would virtually become a compulsory one for all students who regarded themselves as possible candidates for scholarships, and the practical result would be that where the students of our drawing classes are now counted by tens, they would then number hundreds or more. A further advantage would be that drawing would be practised by all the best boys, not in any perfunctory or half-hearted way, but with a genuine desire to acquire an art that paid so well. The learning of drawing would, I am confident, become so common that there would be little risk of a student gaining a scholarship by drawing alone, while his attainments in other subjects were not up to the scholarship level. Marks should be assigned to drawing on such a scale as would give it its due weight and no more, while offering a tangible advantage to those who took it up. On that ground I prefer the present proposal to another which might possibly be put forward, namely, to award the scholarships on the University results, as at present, but to confine them to those candidates who passed in drawing. I think it better not to disqualify any candidate for backwardness in drawing, provided he is good enough all round to be able to make up his lee-way in other subjects.

3. If the scheme be accepted in principle, it will then be incumbent on Government to provide drawing masters in all Government high schools. The cost will be from Rs. 55 to Rs. 65 a month in each case, as explained in paragraph 8 of my No. 3834, dated the 1st July 1891, besides initial outlay amounting to Rs. 200. In some cases the expenditure, or part of it, can be met from the surplus income of the schools; and in all, the fees paid by students of the drawing-class will go some way to reduce the cost. The fee-rate has been fixed at 4 annas a month in the three high schools in which classes have been opened; but I would now recommend that when the ordinary schooling-fee exceeds Rs. 3 a month, no extra fee should be charged for drawing. The fee-receipts will be further enhanced by the admission of pupils from neighbouring high schools, the managers of which may not wish to entertain a drawing master of their own. The fee for such students should be fixed at 8 annas a month. In Calcutta, out-students should be admissible, not only to the existing drawing-class of the Hare School, so far as the accommodation may permit, but also to special classes to be opened in the School of Art, which may be expected abundantly to pay their way.

4. A further part of Mr. Tawney's scheme is that while drawing should remain optional in the three highest classes, it should be declared compulsory in the lower classes, from the fourth to the sixth or seventh. The suggestion is well worth consideration; and the accompanying copy of a letter No. 245, dated the 5th October 1891, from Mr. E. F. Mondy, late Officiating Principal of the Dacca College, shows that the experiment has been attended in that institution with very fair promise of success. If I do not press for its adoption now, it is chiefly because I should prefer to wait a little and see the results of the other measure which I am advocating. It is quite possible that the hope of becoming proficient in drawing at the Entrance examination will lead students to join the class voluntarily at the earliest possible stage. If otherwise, the subject can hereafter be made compulsory whenever the occasion may arise. It will be observed that if drawing is made compulsory at any stage, no fees can be levied in the corresponding classes; and we should thus forego some slight pecuniary advantage.

5. The date from which the first proposal, if approved, should have effect, would depend on the time within which the School of Art would be able to supply the large number of teachers that the scheme requires.

No. 245, dated Dacca, the 5th October 1891.

From—E. F. MONDY, Esq., Offg. Principal, Dacca College,
To—The Director of Public Instruction, Bengal.

YOUR circular 4T—119, with its accompanying correspondence, on the subject of the teaching of drawing in schools, prompts me to offer the following remarks in anticipation of the regular report on the success of the plan adopted here.

In my letter No. 1, dated 1st April 1891, I reported having arranged to have drawing taught to the 4th, 5th, 6th and 7th classes of the collegiate school, partly in the school hours and partly by extending them an hour every day. This has been in force for over three months, and there is every reason to be entirely satisfied with the result. Both the head master and the drawing master have assured me from time to time that the boys were taking very kindly to the work, the latter stating that all but about three or four of the boys in each class exhibited a liking for it. From reports by both masters sent to me at my request, the same appears. The head master writes: "I am glad to state that the boys evince great interest in drawing. I am therefore of opinion that the present arrangements be continued for another year." In reading this tentative approval, it must be borne in mind that the head master has a fear, as hinted at in my letter above quoted, that the introduction of drawing will, by taking time from other subjects, tend to lower the position the school has held among the schools in Bengal. This feeling is excusable, and though it is not likely to carry any undue weight here, there can be little doubt it may become such a factor of passive resistance to the introduction of drawing into many schools that it must not be lost sight of when estimating the results. That the boys *do* evince great interest in the work is encouraging.

The drawing master reports that he has a "total of 272 boys under instruction, one only being a voluntary student; 90 per cent. of the boys are eagerly prosecuting their studies in this branch, and are eager to show their talents at the annual examinations." He also showed me some drawings that had been executed "by the 4th class in little more or less than an hour without any correction from me," and many were very well done considering the short time the boys have been working at the subject. As at present there is no regular examination for these boys in this subject, I would recommend that a simple examination by the drawing master be conducted, and as a stimulus, seeing that the subject counts nothing towards class promotion, a few inexpensive prizes be offered to each class. As a further evidence of the way in which the boys are taking to the subject, I may add that in one of my recent visits to the hostel I found some boys copying drawings from a copy-book instead of studying at other subjects which count so much more in their school work.

The experience gained by this short trial tends to show that the too generally received notion that the Bengali student has a special inability for drawing is a mistake. That he is inapt is true, but I think experience will prove this to be the result of want of opportunity and incentive. Indeed if any proof of this is necessary, we have it in the survey school, where lads of very ordinary abilities are admitted, while a large number turn out very fair draughtsmen. Drawing here is compulsory, and is pursued with the same interest as other subjects.

Like results will, I feel convinced, follow its introduction here, when I hope it will be more generally extended. My intention was to carry the subject up to the second class in two years, leaving it, for obvious reasons, a voluntary subject for the Entrance class, at least until the University attach greater value to it. This must, however, be left for the report on the subject at the end of a year's trial.

No. 605, dated Calcutta, the 31st December 1891.

From—W. MAUDE, ESQ., C.S., Under-Secy. to the Govt. of Bengal, General Dept.,
To—The Director of Public Instruction, Bengal.

I AM directed to acknowledge the receipt of your letter No. 6456, dated the 14th November last, and in reply to say that the Lieutenant-Governor cordially approves the proposal contained in paragraph 2 thereof, that for the purpose of awarding the Government junior scholarships the marks gained in drawing by each candidate who takes it up at the Entrance Examination of the Calcutta University should be added to his total. His Honour will sanction from provincial revenues the expenditure necessary for the appointment of a drawing master in each high school which has not a surplus income after the deduction of fees. The suggestion made in paragraph 3 of your letter, that drawing should be a compulsory subject in the classes from the 4th to the 6th or 7th of these schools, seems to Sir Charles Elliott to be an excellent one, and His Honour will be ready to sanction it whenever you think the time has come for introducing it.

2. In connection with the policy of closing Government high school whenever there is a thoroughly good aided or unaided school to take its place, I am to observe that it may be arranged that, if the school of the latter class has no drawing master, the master employed at the Government high school to be closed should be transferred on loan to the high school which takes its place.

In the matter of JOHN HENRY ROSE HARLEY, an insolvent.

On Monday, the 11th day of January last, it was ordered that, subject to payment to Albert Birmingham Miller, Esq., the Official Assignee of this Court and the Assignee of the estate and effects of the said insolvent, of his usual commission and all costs and charges lawfully due, the petition filed by the said insolvent seeking for relief under the provisions of the said Act be withdrawn and the Vesting Order made thereon be discharged, provided always that all acts or things done by the said Assignee or other person acting under his authority prior to this order shall be good and valid, and shall not be annulled or in any wise affected thereby, and upon payment of his commission and all costs, charges and expenses lawfully incurred by him as aforesaid, the said Assignee do deliver over to the said insolvent, or to his Attorney upon his receipt, all the estate and effects, moneys, goods, books and papers now remaining in the hands of the said Assignee belonging to the estate of the said insolvent.

N. C. BURRAL, Attorney. (1043—1)

Chief Clerks Office, the 9th day of February 1892.

In the Court for the Relief of Insolvent Debtors at Calcutta.

In the matter of ANNE GALLWAY, of No. 4, Mirzapore Lane, in the Town of Calcutta, an insolvent.

NOTICE is hereby given that on the 5th day of March 1892, at the hour of 11 o'clock in the forenoon, an application will be made to the Presiding Commissioner of the Court for the relief of insolvent debtors at Calcutta, for an order that the petition of insolvency filed by the insolvent on the 14th June 1881 be withdrawn and that the vesting order made on the same date be discharged on the ground that she has settled with all her creditors.

S. J. LESLIE, Attorney for the Insolvent.
Dated the 9th day of February 1892.

BAY OF BENGAL—ORISSA COAST.

The wreck off False Point.

THE wreck reported in the Notice to Mariners, No. 22 of the 30th January, issued by this office, now appears to be a sunken vessel in 10 fathoms reduced, with two masts standing up between 12 to 18 feet above the water, in Lat. 20° 30′ 30″ N: Long. 87° 07′ 30″ E. As this wreck lies directly in the track of vessels going between Calcutta and False Point, and *vice versâ*, navigators are warned to be cautious.

Arrangements are now being made to remove the wreckage with the least possible delay.

LIBERALITY OF RAJA BAIKUNTHA NATH DE, BAHADUR, OF BALASORE, AND OF HIS BROTHER.

No. 333, dated Calcutta, the 9th February 1892.

From—H. H. RISLEY, Esq., Offg. Secy. to the Govt. of Bengal, Financial and Municipal Departments,

To—The Commissioner of the Orissa Division.

I AM directed to acknowledge the receipt of your memorandum No. 26L.F., dated 29th January 1892, and enclosures, on the subject of an offer made by Raja Baikuntha Nath De, Bahadur, of Balasore, and his brother Babu Satyendra Nath De—

(*a*) To provide a permanent endowment of Rs. 300 for the charitable dispensary recently established by them at Soorah,

(*b*) to establish a dispensary at Jelasore on the Jagannath Road, to be called the "Albert Victor Charitable Dispensary," and provide an endowment for the dispensary of Rs. 240 a year, and

(*c*) to establish a female ward to be called the "Rani Sreemati Charitable Female Dispensary" attached to the Raja Syamanund De Dispensary at Balasore, together with quarters for a lady doctor, and to permanently endow the institution with Rs. 600 a year.

2. In reply, I am directed to say that the Lieutenant-Governor has much pleasure in accepting the liberal offer of Raja Baikuntha Nath De, Bahadur, and Babu Satyendra Nath De, and I am to request that His Honour's thanks may be conveyed to the donors for this further proof of their munificence and public spirit. The Magistrate of Balasore has been informed by telegram that, in compliance with the request of the Raja and his brother, His Honour has consented to lay the foundation-stone of the female hospital during his forthcoming visit to Balasore.

4. This letter will be published in the *Calcutta Gazette*.

* Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last [illegible] years. The *humidity* of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station for the period in question during the past [illegible] years in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 6th of February 1892.

ten years. The variations are *negative* when the mean for the week is less than the corresponding normal mean, and *positive* when greater. The normal means denoting cloud amount represents the part of the sky covered the whole sky being denoted by 10. Under the head District observations of rainfall the normal means of the district are the numerical average of the rainfall return received in the district, i.e., from total rainfall at the subdivisional ten years.

Explanation.—... indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

Calcutta, *the 9th February* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY THE 6TH OF FEBRUARY 1892.

AT the close of the previous week the meteorological conditions were fairly normal, except that temperature was unusually high for the season. On the 31st of January, or the first day of the present week, pressure remained fairly steady, though at many stations there was a slight decrease, while temperature on the whole was falling slowly; light north-westerly winds were blowing at almost all stations, and conditions on the whole were nearly normal except in the case of temperature, which was from about 2° to 6° in excess. A slight shower of rain was reported from Darjeeling on this day. A very distinct fall of pressure was reported on the 1st of February, but still pressure remained above the normal by small amounts; temperature also fell slowly, but the mean temperature was still largely in excess. On the 2nd instant winds had become distinctly more westerly, and at a few stations south-westerly winds were reported; pressure had also fallen rather rapidly, usually by more than a twentieth of an inch and had become almost normal, while temperature had risen moderately to rapidly and averaged about 5° to 7° above the normal over the whole province. On the 3rd instant a further rapid fall of pressure took place which at some stations exceeded a tenth of an inch, and a very feeble area of low pressure formed over Bengal, the centre of which appeared to be near Krishnagore, and there was a slight but distinct tendency for winds to circulate cyclonically round the same centre. Temperature also again rose rather rapidly in Bengal, the increase averaging about 2°. A few drops of rain were also reported at Bhogotpore on the 3rd. On the 4th, pressure was almost steady in Bengal, but the area of lowest pressure had been removed to Saugor Island and Calcutta, and to the west of this feeble low pressure winds were north-westerly and to the east of it south-easterly. The changes of temperature were a little variable, but at most stations there had been an increase. On the 5th, pressure began to rise slowly, but it was still largely below the normal, and temperature also continued generally from about 5° to 8° above the normal of the day; winds, however, generally became a little more normal, though at a good many stations winds were more or less southerly. On the 6th, pressure again rose slowly, but was still from about a twentieth to a tenth of an inch below the normal, and again temperature remained exceptionally high, for the mean of the day was from about 6° to 9° in excess. Winds also on this day had became southerly at almost all stations, and altogether conditions were very abnormal for the beginning of February; but probably these abnormal conditions were to a great extent connected with the existence of a shallow depression which had been reported on the 5th to be travelling in a south-easterly direction along the North-West Himalayas.

Pressure.—The mean pressure of the province for the week has been in defect of the normal by amounts usually equalling 0·02" to 0·04," and this defect has been fairly equal in all districts except in the extreme west of the province, where pressure has been more nearly normal.

Temperature—Has been exceptionally high throughout the week, and in most divisions (except Orissa) there has been an excess of about five or six degrees. The excess has been smaller in Orissa, where it only equals 2 5,° but the average excess in the mean temperature for the whole province has been the very large amount of five degrees.

The variation of temperature is, however, most clearly seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the province are compared with the normal values for the s ameperiod Both day and night temperatures have been almost equally in excess :—

Rainfall.—Except for light showers at Darjeeling and Bhogotpore, the whole province has been rainless throughout the week.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 2·5° lower; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

REVISED WATER-RATE RULES FOR THE MIDNAPORE CANAL.

The 16th February 1892.

No. 62.—*Notification.*—In exercise of the powers conferred on him by sections 99 and 78 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to make the following rules and to fix the undermentioned rates to be charged for water supplied from the Midnapore Canal. These rules and rates will supersede those now in force.

J. M. MCNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

1. The officers of the Public Works Department, who have charge of the canal, are solely responsible for maintaining it in an efficient state of repair, for providing drainage channels where necessary, and generally for all engineering work involved in its management, as well as for the distribution of water to lessees. The word "canal" is here used as defined in section 3 of the Act.

2. The Deputy Revenue Superintendent, under the supervision of the Collector of the district as Revenue Superintendent, is responsible for the collection of water-rates and miscellaneous revenue accruing to Government from the canal.

3. Water shall not be distributed otherwise than on the application of a lessee, or o a ryot in whose favour a provisional requisition has been issued, as provided for in Rule 21 below. Such application may be made verbally or in writing to any Public Works Department officer in charge of that part of the canal from which water is required.

4. If any lessee apply for water to the Deputy Revenue Superintendent, or one of his subordinates verbally, he should be told to address himself to the officers of the Public Works Department. If he makes such an application in writing, his petition shall be forwarded direct by the canal revenue officer, to whom it is addressed, to the Public Works Department officer in charge of that part of the canal from which the petitioner's village is supplied.

5. The canal officers of the Public Works Department, in consultation with the Deputy Revenue Superintendent, shall map out the irrigable area into blocks in accordance with the natural features of the ground, and so determined that the whole block shall be irrigable from one outlet, or from one set of outlets. So far as may be practicable, the blocks shall be separated by drainage lines.

6. Each block determined as above shall be numbered and recorded with its irrigable area in registers to be maintained by the Public Works officers and by the Deputy Revenue Superintendent. The blocks shall also be marked on maps to be maintained by the same officers.

7. Leases for not more than five years may be granted for the whole irrigable area of a block, or, subject to the provisions of Rule 14, for definite parts of a block, under the following conditions :—

I.—The lease may be for the lands of one or more villages, but ordinarily the whole irrigable area of any village, so far as situated within the block must be included in the lease.

II.—All leases within one block shall be granted so that they shall expire on the same date.

III.—In order to equalise the areas to be dealt with in each year, the date of expiry of the leases in each block shall be determined by the Public Works officers in consultation with the Deputy Revenue Superintendent, so that one-fifth of the total area usually irrigated may fall out of lease in each year.

Explanation.

A	blocks	commence	1892	...	...	... Expire	1897.
B	,,	,,	1893	...	...	... ,,	1898.
C	,,	,,	1894	...	...	... ,,	1899.
D	,,	,,	1895	...	...	... ,,	1900.
E	,,	,,	1896	...	...	... ,,	1901.

Then, should a lease in a B block expire in 1892, a lease for one year must be given. Similarly, a lease in a B block expiring in 1894 must be renewed for four years only. It may, however, be possible in cases like the latter to arrange by mutual consent to cancel the existing and unexpired leases in B blocks in 1893, and then to renew for the full term of five years.

8. The rates to be charged for water supplied between June and November, whether by flow or lift, to lessees on application shall be—

For a term of five years—Rs. 1-8 per acre for each season.

Provided that the leases, whether new or renewals, required for shorter terms in order to develop the system of blocks as explained above shall, on the first occasion, be offered at the above rate.

Subject to the above provision, the rates shall be—

	Rs.	A	P.	
For a term of four years	1	12	0	per acre per season.
,, ,, of three ,, ...	2	0	0	,, ,,
,, ,, of two ,, ...	2	4	0	,, ,,
For one season	2	8	0	,, ,,

Explanation.

An existing lease in a D block expires in 1892. The lessees will be offered a renewal for three years at Rs. 1-8 per acre per season. They decline this, and do not renew till 1893. They can then only get a lease for two years at Rs. 2-4 per acre per season. Similarly, an application for a new lease in a C block is received in 1892. A lease for two years

at Rs. 1-8 per acre may be given; but should an application for a new lease in a C block be received in 1895, a lease for four years at Rs. 1-12 per acre will be granted.

9. For the supply of water, when available, for winter crops, a rate of Rs. 1-8 per acre per season shall be charged.

10. For the unauthorized use of canal water a rate of Rs. 5 per acre, or such less rate as may be fixed by the Collector, shall be charged.

11. Applications for water-leases under section 74 of the Act should be presented to the zilladar of the division in which the applicant's land lies, and, subject to Rules 12, 13, 14, 15, and 16 below, zilladars are authorized to grant such leases.

12. No village shall be brought under lease for the first time, and no lease shall be renewed for a period exceeding one year, without the consent in writing of the Executive Engineer. Such consent in writing may be taken specially for a single village, or generally for specified tracts including several villages.

13. Every application for a water-lease shall contain the following particulars:—

1.—Name and residence of applicant.

2.—Name of pergunnah, mehal, and village in which the land to be irrigated is situated.

3.—Total area for the irrigation of which the application is made and its boundaries, and if the lands to be irrigated lie in separate *chaks*, the name of each *chak*.

4.—Names of the ryots whose lands are to be irrigated, and the quantity of land held by each.

5.—Name of the canal and number of distributary from which water is required.

6.—Signatures of the applicants.

14. No application for a water-lease shall be entertained when the supply of water must of necessity be delivered across an unleased area, unless a village-channel exists, which, in the opinion of the Executive Engineer, will deliver water without waste across the unleased area.

15. Without the permission of the Collector, no application shall include lands belonging to more than one village, but *khalsa* or other lands lying within the village boundary at the time of survey may be included.

16. Without special orders in writing from the Deputy Revenue Superintendent, no application for a water-lease shall be received unless it includes all the irrigable lands in a village.

17. When a water-lease is granted, a *kabuliyat* shall be taken in a form approved by Government, and a "permit" shall be given to the lessee or lessees in a form similar to that prescribed in Schedule C of the Act.

18. On the issue of a "permit" as above, of which the zilladar shall keep a duplicate, he shall forward a copy of the *kabuliyat* to the Deputy Revenue Superintendent for record, and at the same time he shall forward to the Executive Engineer or Sub-divisional Officer direct a requisition requesting him to supply water to the lessee on application. This requisition shall be kept by the officers of the Public Works Department till January 1st next following, and shall then be returned to the Deputy Revenue Superintendent. On the back should be noted the several dates on which the village was supplied with water. A fresh requisition should be issued on or before June 1st, and returned on or before January 1st, each year, till the lease expires.

19. When application for a lease is received from a village not previously leased, the zilladar, before granting a lease, shall satisfy himself by comparison with the survey records, as well as by local enquiry, that the particulars given in the application are correct. For the purpose of comparison with the survey record, the application should be sent through the Deputy Superintendent to the Collector. The zilladar should also satisfy himself that the Executive Engineer's consent, as required by Rule 12, has been obtained.

20. When application is made for the renewal of an expired lease, the zilladar, before granting a new lease, shall satisfy himself by comparison with his register of *kabuliyats* that the particulars given in the application are correct.

21. Pending the result of the enquiries provided for in the last rules, the zilladar may, at his discretion, issue a provisional requisition for the supply of water to the area covered by the application.

22. When it comes to the knowledge of the Public Works Department officers in charge of the canal that canal water has been taken without authority, notice shall be sent to the Deputy Revenue Superintendent, accompanied by the following particulars:—

1.—Name of village and pergunnah.
2.—Number of distributary from which water has been illicitly obtained.
3.—Manner in which water has been taken.
4.—Abstract of evidence that water has been taken.

A separate notice should be sent for each village irrigated without authority.

23. On receipt of such a notice, the Deputy Revenue Superintendent, after such enquiry as may be necessary, and after hearing any objection which may be raised, shall proceed to assess, at the rate provided in Rule 10, the land irrigated without authority. If in any case he thinks that this rate should not be imposed, he shall report the matter to the Collector for orders.

24. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted, or used for the irrigation of lands not under lease, it shall be competent for the Deputy Revenue Superintendent, on the application of the Executive Engineer, and with the approval of the Collector, to cancel the lease.

25. The rates for water supplied from June to November shall, in each season, fall due on the 1st February following. The rates for water supplied for winter crops shall fall due on the 1st April following.

26. Water-rates imposed under Rule 10, on account of lands irrigated without authority, fall due as soon as the assessment is made, and shall be realized at once.

27. Remission of water-rates, either in whole or part, as the case may require, shall be granted by the Collector for—

1.—Injury to the crop on a leased area caused by deficient supply of water.

2.—Errors in the assessment of rates.

28. The Collector may grant remissions of water-rates, either in whole or part, for injury to the crops on leased areas caused by excess of water due to deficient drainage.

29. The Collector may commute rates charged under Rule 10 to those chargeable for water supplied on application, provided that a lease either for a term of years or for the season has been subsequently executed for the lands in question.

30. Remissions on other grounds than the above require the sanction of Government.

31. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy, or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Collector.

32. Before awarding compensation under section 16 of the Act, or making a reference under section 17 of the Act, the Collector shall obtain the written opinion of the Executive Engineer in charge of the canal, and his written opinion shall form part of the record of the proceedings.

33. The Collector may distribute amongst village *mookhyas*, who agree in writing to assist the Deputy Superintendent in collecting water-rates, and generally in his operations under Act III (B.C.) of 1876, a commission calculated in such manner as he may think fit, provided the total amount paid shall not exceed 6 pies in the rupee on the total water-rates collected during the year. If the payments thus made to *mookhyas* do not amount to 6 pies in the rupee on the total water-rates of any year, the Collector may expend the balance in paying extra collecting establishment.

34. Registers shall be kept in the Deputy Superintendent's and zilladar's offices in forms sanctioned by Government.

35. A copy of the Collector's decision in all cases of remission, and of the Magistrate's decision in all cases of proceedings under section 93 or 94 of the Act, shall be forwarded to the Executive Engineer for information and record in his office.

No. 63.—*Notification.*—It is hereby notified for general information that the undernoted canals in the Orissa Circle will be closed for annual repairs from and to the inclusive dates specified against each.

It is also notified that during the closure of the canals the steamer traffic between Cuttack and Alba, Cuttack and False Point, and Cuttack and Bhudruck, will be stopped during the periods specified hereunder.

Steamer Companies and others engaged in the Orissa trade are requested to note that the Taldundah Canal, which has been opened to traffic up to Paradeep on the tidal reach of the Mahanadi River, will remain open while the Kendrapara Canal is closed for repairs:—

IRRIGATION.

REVISED WATER-RATE RULES FOR THE ORISSA CANALS.

Notification No. 56, dated the 9th February 1892.

IN exercise of the powers conferred on him by sections 99 and 78 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to make the following rules and to fix the undermentioned rates to be charged for water supplied from the Orissa Canals. These rules and rates will supersede those now in force.

J. M. MCNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

General conditions.

Compensation under section 76 (c).

(1) The Collector, before awarding compensation under section 16 or section 76 (*c*), or making a reference under section 17 of the Irrigation Act [Act III (B.C.) of 1876] shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.

No appeal from order of Canal Officer.

(2) Except as provided in the Irrigation Act and in these rules, no appeal shall lie from any order passed by a Canal Officer, but the Sub divisional and Divisional Canal Officers shall modify any order passed by them on the receipt of definite instruction to that effect from the Divisional or Superintending Canal Officers respectively.

Appeals to Collector.

(3) Appeals to the Collector under section 91 of the Irrigation Act, other than those specially provided for in Rule 49, will ordinarily be against an order passed by the Divisional Canal Officer. When the order passed has reference to the alignment of a village channel, or, to the refusal of the Divisional Canal Officer to grant a lease under schedule I, II or III, the Collector may require the Superintending Canal Officer to state his opinion in writing, and this opinion shall form part of the record of the proceedings in the case.

On village channels.

Canal Officer to assist.

(4) Canal Officers shall give every assistance to applicant in aligning and laying out any village channels which they may desire to construct.

Register of village channels.

(5) A register of all village channels shall be maintained by the Divisional Canal Officer in such form as the Superintending Canal Officer may direct.

On the free irrigation of chaukidars' jaghirs.

Chaukidars' jaghirs.

(6) The chaukidar of any village in which lands are leased under schedule I, II, III or IV shall be entitled to a remission of the water-rates chargeable on account of lands included in his jaghir and in any leased area on the condition that he gives efficient and willing assistance to the Canal Officers in respect to the following matters:—

(*a*) In the preparation of applications for leases.
(*b*) In the measurements of irrigated lands.
(*c*) In giving the names of the occupiers of the various fields.
(*d*) By receiving the demand statement, making it over to one of the principal raiyats in the village, and informing the cultivators that he has done so.
(*e*) By receiving "tippas" from the Canal Officers and distributing them.
(*f*) By reporting cases of unauthorized irrigation which may come to his notice.
(*g*) By being present when any local inquiry is made by a Canal Officer and by giving information concerning the matter under investigation.
(*h*) By reporting to the Collector any mutations in the holdings of persons who have signed a lease under schedule I or II that may come to his knowledge.

On the "lease unit" system.

Distributary lease units.

(7) The area commanded by each distributary which is not fully provided with village channels shall be portioned out by the Divisional Canal Officer into any convenient number of tracts, or group of villages to be called "lease units." The boundary of each of those "lease units" shall be so determined that the land lying within it can be conveniently irrigated from the same outlet or from any convenient group of outlets. The "lease units" shall be approved by the Superintending Canal Officer.

Classification of villages in "lease units."

(8) The area in each "lease unit" shall be divided by the Canal Officer into three classes.

(*a*) Lands which, being situated in immediate contact with a canal or distributary, can be irrigated by direct flow from outlets in it.
(*b*) Lands which are provided with village channels properly constructed and maintained in good order by the owners of the channels.
(*c*) Lands which, not being provided with proper village channels, and being remote from the canal or distributary, can only be irrigated by flow through fields intervening between them and the distributary.

(9) The Canal Officer shall keep in his office a plan showing the "lease units" of each distributary. Each "lease unit" shall be separately numbered and registered in a book which shall show:—

Record of "lease units."

Its area;
The number and size of outlets provided for it;
The names of the villages in it;
The class (*a*, *b*, or *c*,) of each area;
The date when the leases in it terminate.

(10) The boundaries of, or the classification of the tracts in any "lease unit" may at any time be amended by the Divisional Canal Officer with the previous sanction of the Superintending Canal Officer. On receipt of such sanction the Divisional Canal Officer shall amend his plans and registers.

Amendment of "lease units."

(11) The lease first granted in any "lease unit" must be for five years.

(12) No lease shall be granted to any class (*c*) village until all the class (*a*) villages in the "lease unit" have been leased, and until the villages lying between it and the class (*a*) villages of that "lease unit" (if any) have also been leased.

Leases of class (*c*) villages.

(13) Leases granted for a term of years to any or all of the villages situated in the same "lease unit" shall terminate at the same time as the lease first granted in that "lease unit."

Leases to terminate simultaneously.

(14) Provided that, for four years after the date of these rules, the lessees of lands in any "lease unit" in which the class (*a*) villages have been leased for five years, shall, when their leases expire, be offered the opportunity of extending them for such a term of years as will cause them to expire simultaneously with those of the class (*a*) villages of that "lease unit" and they may be extended at the rate of Re. 1-8 per acre. If, however, the lessees decline to renew them on these conditions, within one month of their expiry, they shall not be permitted to renew them subsequently except at the rates given in schedule II.

Exceptions with reference to present leases.

(15) Class (*a*) and class (*b*) villages shall be eligible to obtain leases under all the five schedules attached to these rules. Class (*c*) villages shall only be eligible for leases under schedules II and III.

Schedule of Rates.

On applications for the supply of water during the kharif season.

(16) Applications for the supply of water in the kharif season will be granted:—

Kharif applications of three kinds.

(1) For a term of years (schedules I and II).
(2) For one season only (schedule III).
(3) After the 1st of September from an outlet of a defined size (schedule VI).

(17) Applications for the supply of water for a term of years shall be subject to the following conditions:—

I. Notice in the attached form (Appendix I) must ordinarily be given to the Sub-divisional Canal Officer by the cultivators of a village not later than the 1st April if they require water for irrigation for a term of years to have effect from the 15th of June following. Applications presented after the 1st April will be accepted so far as may be possible, having regard to the measurements, &c., which are necessary before the grant of permits. Those presented between 1st April and 1st May will, if accepted, be liable, at the discretion of the Divisional Canal Officer, to an additional rate of 4 annas per acre for the first year of the lease, and those presented between the 1st May and 1st June will be similarly liable to an additional rate of 8 annas per acre. In either case the additional rate shall be payable at the same time as the first instalment of the ordinary rates due on the lease. On presentation of this notice the Canal Officer shall inspect the block which it is proposed to lease, and, if he approves of it, shall proceed to prepare the final application (Appendix III).

Notice that lease is required.

II. The application shall not be entertained unless it refers to a distinct block of land of which the boundaries are defined. The block must (in all but very exceptional cases) include all the irrigable lands of a village which are, or have been, cultivated with rice. If the block of land offered for lease has included within its boundaries:—

Applications to include all rice lands in village.

(*a*) High lands not irrigable by flow, or—
(*b*) "Beali" lands for which canal water is not ordinarily required, or—
(*c*) "Low lands" which cannot ordinarily benefit by canal water,

these lands may be excluded from the final application. But water cannot in that case be supplied to such lands during the currency of the lease except on an application for an annual lease (schedule III).

III. The application must be in the form attached to these rules (Appendix III), which states that water-rates will be paid on all lands contained in the block for which the application is presented whether water is required or not, and that the applicants will arrange for the transit of the water from the distributary to all the fields of the block to be leased, and give due notice to the Canal Officer of any changes in their holdings.

Payment to be made for area leased.

IV. The lands contained within the defined boundaries must be measured (or the area ascertained from the cadastral survey map) by the Canal Officer or his subordinates, and the application must be completely signed by all the cultivators holding lands in the block, or the applicants must bind themselves to be jointly responsible for the water-rates due on such block before a permit for the supply of water shall ordinarily be granted. Provided that if water is required to be supplied before this can be done, a preliminary application in the form Appendix II must be submitted before the 1st of September instead of the notice referred to in Rule I. This form binds the applicants to pay at the rate of Rs. 3 for each acre of their holdings if they fail to complete the lease for a term of years before the 30th of November of the year in which water is required. The Superintending Canal Officer may, if special circumstances appear to him to justify it, alter this date to the 1st of February next following. A permit which has been granted on this preliminary application will be cancelled as soon as the final application (Appendix III) has been completely signed by all the cultivators holding lands in the block. A permit for a term of years will then be issued.

Lease must be complete before water is supplied.

If not, annual lease must be executed.

No leases granted after 1st of September.

V. When under the "lease unit" system described in Rules 7 to 15 inclusive, a portion of a village falls in one "lease unit" and the remainder in another "unit" a separate application must be signed for each portion of the village.

VI. No additions to the area covered by a lease duly executed for a term of years shall, as a rule, be permitted. But when the irrigable area which is under rice cultivation in a village is increased (owing to improvements in distribution or to the actual extension of cultivation or to any other cause), an application may be made for a separate lease for a term of years for such increased area. If the application is approved by the Canal Officer, a permit shall be granted for a term of years such that the lease will terminate at the same time as the one previously granted in the same village. The water-rates chargeable on such a lease shall be those defined in schedule II.

No extension of lease during its currency.

(18) Applications for water for one kharif season only shall be subject to the following conditions:—

I. The application must be for a block of land having well-defined boundaries, and so situated that adjoining or intervening lands will not ordinarily or probably be irrigated by water supplied for the land included in the application. The block must be situated either—

Annual leases.

(1) In immediate contact with a canal or distributary, so that it can be irrigated without a village channel by direct flow therefrom, or
(2) it must be provided with a proper village channel, or
(3) it must be situated in immediate contact with a village leased under schedules I and II, so that it can obtain a supply through the fields of that village.

II. The application must be in the form (Appendix IV) attached to these rules, which states that water-rates will be paid on all lands contained in the block for which an application is presented whether water is required or not, and that the applicants will arrange for the transit of the water from the distributary to all the fields in the block which they desire to irrigate.

III. Applications for leases under schedule III must be submitted before the 1st of September.

No leases granted after 1st September.

(19) Applications for the supply of water after the 1st of September from an outlet of a defined size shall be subject to the following conditions:—

Water supplied after 1st September.

I. Outlets in a canal or distributary bank may, at the discretion of the Subdivisional Canal Officer, be leased from the 1st September until the 15th November at the rates enumerated in schedule VI, care being taken not to lease any outlet unless a head of not less than six inches on the outlet is available.

Outlets leased.

II. Persons occupying lands not under lease may apply for water to be delivered to them after the 1st of September for the current kharif season in the form (Appendix V) attached to these rules. The application shall not be entertained unless it is accompanied by a sum in cash equal to half the amount chargeable for the size of the outlet at the rates defined in schedule VI, and by an agreement executed by substantial persons in the form attached to Appendix V binding themselves to pay the remainder.

III. The person to whom a permit for the use of an outlet is granted shall be allowed the free use of all the water he can obtain from that outlet without reference to the area irrigated.

Lessee of outlet allowed free use of water.

On applications for the supply of water during the rabi and hot-weather seasons.

(20) Applications for the supply of water in the rabi season (15th November to 30th April) and in the hot-weather season (1st May to 15th June) will be subject to the following conditions:—

I. The approximate area of land for which water is required must be stated in the application, which must be signed by all the occupiers of the land. The application must be in the form (Appendix VI) attached, which states that water-rates will be paid on the area actually irrigated.

Water-rates paid in area watered.

II. That water cannot be supplied during the hot-weather season when the canals are closed. Notice of the duration of such closures will be given before the commencement of the season.

Canal closures.

(21) It shall be the duty of the patrol to enter in his shudkar every field which is irrigated in the rabi and hot-weather seasons.

(22) Water for filling tanks may be supplied at the discretion of the Canal Officer at the rates given in schedule VII. The charge for the water shall be paid in advance for such a quantity of water as the Canal Officer may consider necessary to fill the tank. The Canal Officer shall see that the outlet is opened for a sufficient time to give the quantity which is paid for.

Water of tanks.

On permits.

(23) A permit shall not be issued when, in the opinion of the Canal Officer—

Grounds for refusing permit.

(i) waste is likely to occur.

(In the order refusing a permit on this ground the Canal Officer shall state in writing the manner in which he apprehends that waste will occur.)

(ii) The area for which water is required cannot be irrigated without passing canal water through, over or into, unleased areas.

(24) All permits for the use of water shall be subject to the following conditions:—

I. That where there are no village channels the applicants will make their own arrangements for the transit of the water from the canal or distributary to the leased area.

Lessees to arrange for distribution.

II. That the water will be supplied at the level at which it is ordinarily maintained in the distributary, and that no earthen bunds or other works will be used to raise the level of the water in the distributary.

No bunds allowed.

III. That the regulation of the discharge of the outlets will be entirely in the hands of the Canal Officer and his subordinates.

Canal Officer to regulate.

IV. That water-rates are paid when due.

Regular payment.

V. That the applicants will not permit waste of water.

Waste to be prevented.

VI. That water supplied for the irrigation of a leased block of land in a village shall not be applied to any other lands in that village.

Water restricted to leased area.

VII. That land to be irrigated on kharif leases (schedules I, II and III) must form a compact block defined by well-marked boundaries of such a nature as clearly to separate the leased lands from the neighbouring unleased ones. The boundaries must be mentioned in the application.

Leased block to be distinct.

VIII. That when high lands, "beali" lands, or low lands, which cannot ordinarily benefit by canal water, are, under Rule 17, II, excluded from a lease for a term of years, a schedule of such lands shall be attached to the application, the numbers of the fields on the cadastral map being stated in the schedule; or if there is not a cadastral survey map of the village, the Canal Officer shall attach a rough map to the lease showing the excluded area.

Excluded lands.

(25) If all the persons who have signed a lease under schedule I or II submit an application for the lease to be cancelled, the superintending Canal Officer may cancel it if he considers the reasons given are sufficient.

Power to cancel lease.

(26) Permits for irrigation for a single kharif season under schedule III (annual leases) shall be subject to the same general conditions; the essential difference being in the duration of the lease and in the fact that a permit may be issued for any well-defined block and not necessarily for the whole irrigable land in the village which is cultivated with rice. "Beali" lands and low-lying lands cannot be excluded from annual leases if they are situated within the boundaries defined in the application.

Annual permits.

Rabi permits.

(27) Permits for irrigation in the rabi or in the hot weather under schedules IV and V shall be issued on the following conditions:—

I.—That the applicants will give notice to the Canal Officer, or his subordinates, as soon as the area requiring irrigation has received a sufficient supply of water.

II.—That the applicants will undertake, as far as is practicable, to prevent water being wasted or applied to the irrigation of fields not included in the application.

III.—Water-rates will be levied on the areas actually irrigated and not on those specified in the application.

On penalties and the cancelling of leases.

(28) At the request of the Collector of the district, the Superintending Canal Officer shall direct the Divisional Canal Officer to—

Irrigation to be stopped where water-rates are not paid.

I. Decline to renew leases (*i.e.*, to issue permits) for the irrigation of land in villages where there have been constant difficulties in realising water-rates. In such cases permits shall not be again issued until all the arrears of water-rates due are paid up; and also, if specially required, by the Collector not unless half the amount due for the first ensuing season is paid up in advance. An order under this rule (unless the Collector in the meantime apply for its being rescinded or modified) shall be in force for the time stated therein, which shall not exceed three years.

Lease may be cancelled where water-rates are not paid.

II. Cancel any lease under schedule I or II, if, on the 1st of June of any year, the water-rates due on such lease are in arrear by more than half a year's demand.

Lease to be cancelled when water misused.

(29) The Divisional Canal Officer may, with the concurrence of the Collector and the sanction of the Superintending Canal Officer, cancel a lease under schedule I or II if water is habitually misused or wasted. Such an order shall have effect from the 15th June next ensuing, and at least two months' notice must be given to the cultivators.

Interests of others to be considered in cancelling leases.

(30) The Superintending Canal Officer in issuing orders under Rules 28 and 29 shall bear in mind the circumstances affecting "lease units" as described in Rules 7 to 15, and shall not cancel a lease if it is necessary that it should remain in force in order that water may be supplied to other leased areas.

On Unauthorised Irrigation and Waste of Water.

Rate for unauthorised irrigation.

(31) Water-rates for unauthorised irrigation shall be assessed by the Canal Officer under section 78 of the Irrigation Act at rates not exceeding Rs. 5 an acre.

Two classes of unauthorised irrigation.

(32) Unauthorised irrigation during the kharif season consists of two classes—

(i) Unauthorised irrigation within the boundaries of a leased area.

(ii) Unauthorised irrigation effected with water taken either from a leased area or from a canal, distributary or village channel.

(i) Within a leased block.

(33) Unauthorised irrigation of the first class shall, during the kharif season, only be assessed when the land irrigated has been entered in the schedule of lands excluded from the lease; and then only when:—

(*a*) The irrigation has been recorded in the patrol's shudkar.

(*b*) The patrol and sectional officer report that there are signs that the water has been deliberately taken and that the crops have benefited.

(*c*) The reports of the patrol and sectional officer have been received by the Subdivisional Canal Officer within 10 days after the date on which the illicit irrigation was detected.

(ii) Beyond a leased block.

(34) Unauthorised irrigation in the kharif season of the second class shall only be assessed when the same three conditions (*a*), (*b*) and (*c*) have been complied with, and further—

(*d*) When the assessment of the area irrigated has been authorised by the Divisional Canal Officer.

(35) It shall be the duty of the Subdivisional Canal Officer to deal promptly with cases of unauthorised irrigation. He shall personally inspect as many cases as he can, and shall not make any assessment himself, nor ask the Divisional Canal Officer to sanction any assessment, unless the evidence has been recorded and he considers it quite satisfactory.

Notice of assessment to be sent.

(36) When in the first case, the Subdivisional Canal Officer has determined that an assessment of unauthorised irrigation in the kharif season shall be made; or when the Divisional Canal Officer has authorised such an assessment, the Canal Officer shall *at once* send, by post or otherwise, a slip *(a tippa) to each cultivator, informing him of the fact and quoting the approximate area, as detailed in the patrol's shudkar, which has been recorded as irrigated. At the same time he shall send an amin to measure the fields which have been irrigated and to prepare the demand statement therefor.

Demand statements to be promptly issued.

(37) Demand statements of unauthorised irrigation during the kharif season should be served in the village immediately they are prepared, and in no case later than the 30th November.

Unauthorised irrigation in rabi season.

(38) Unauthorised irrigation in the rabi season or in the hot-weather season shall be assessed by the Canal Officer on the evidence of the patrol and sectional officer. The Canal Officer should personally inspect as many cases as he can. A notice that an assessment will be made should be served on the cultivators as soon as an assessment is ordered, as provided in Rule 36, the procedure of which should be generally followed (*mutatis mutandis*).

Waste of water.

(39) Charges for waste of water under section 80 of the Irrigation Act shall be at the rates fixed in Rule 31, and be subject to the same conditions as the assessments of unauthorised irrigation which are stated in the foregoing rules. When a tank or piece of low ground has been deliberately filled, a charge of Rs. 5 per thousand cubic yards may, at the discretion of the Canal Officer, be imposed instead of an acreage rate.

On demand statements.

Demand statements.

(40) Statements showing the amounts due on account of water-rates shall be prepared in such form as may be sanctioned from time to time by the Lieutenant-Governor, under the supervision of the Subdivisional Canal Officer, and shall be signed by him and by the Divisional Canal Officer. They shall then be forwarded to the Collector for the realisation of the demands.

For long leases prepared once for all. A copy sent to chaukidar.

(41) The demand statement showing the water-rates due on any lease given under schedules I and II shall be prepared at the same time as the application. A copy of it shall be given to the patwari or to the chaukidar of the village for the general information of the villagers. A separate statement or tippa signed and sealed by the zilladar may also, if the Collector so direct, be prepared in the name of each person who has signed the lease, showing the annual sum which is due from him. These tippas may be given to the patwari or chaukidar to distribute or may be sent by post. No further notice of demand shall be given during the currency of the lease.

And tippas to each ryot.

Similar procedure for annual kharif leases.

(42) A demand statement showing the water-rates under a lease for a single kharif season (schedule III) shall be prepared as soon as possible after the lease is granted and not later than two months after the issue of the permit. The statement shall show the amount due from each person who has signed the lease, whether irrigation has been effected or not. A copy of it shall be given to the patwari or to the chaukidar of the village for public information, and separate tippas showing the demands against each individual may also be sent as in the previous rule. No further notice of demand shall be given.

Demand statements for rabi and hot weather shall be for

(43) The assessments and issue of demands on account of lands irrigated in the rabi season or in the hot-weather season shall be made under the following procedure:—

The area actually irrigated.

I. The area which is actually irrigated in any village shall be measured, or ascertained by means of the cadastral map, by an amin with the assistance of the patrol. The khasrah, which shall be in a printed form, shall be signed by the amin and by at least two respectable cultivators. If any of the lessees desire to have a copy of the khasrah, he shall be allowed to copy it.

Demand statement sent to chaukidar. Tippas to cultivators.

II. When the measurement is completed, the khasrah shall be forwarded to the Subdivisional Canal Officer, who shall prepare a demand statement with all reasonable despatch. A copy of this statement shall be sent to the patwari or to the chaukidar for public information in the village, and a tippa may be sent as in rules 41 and 42 above to each person whose fields have been irrigated.

Demand for unauthorised irrigation. Payable at sight.

(44) Demand statements on account of unauthorised irrigation shall be dealt with generally in the same manner as those of the rabi season, but with greater promptness. The demand statement in such cases shall be printed on red paper to draw attention to the fact that the demand is payable at sight. The demand statements sent to the patwari or to the chaukidar and the tippas sent to the cultivators shall also be on red paper.

* A "tippa" is the same thing as the "percha" of the Sone Canal Rules.

(45) Persons who may wish to raise any objections to the demands made against them must present a written statement of their case to the Subdivisional Canal Officer, who, after such local or other enquiry as he may think necessary, shall pass orders on the matter. A copy of the order if not passed in his presence and hearing shall be delivered by post or otherwise to the person who raised the objection.

Objections to demands to be made to Canal Officer.

(46) All objections to demands on account of water-rates which relate to the supply of water and the assessment of water-rates and are addressed to the Collector shall be referred for the orders of the Divisional Canal Officer.

Objections made to Collector to be referred to Canal Officer.

(47) Objections to the demand statements must be presented within thirty days of the date on which the demand statement was given to the patwari or to the chaukidar of the village, or of the date on which the tippa was delivered to the person objecting. This period may be extended when reasonable cause for delay can be established.

Objections to be made within thirty days.

(48) The objection should ordinarily be stated in a form which will be sold for one pice at all Canal Offices, giving instructions as to the particulars required to admit of the objection being readily investigated; but any form may be accepted at the discretion of the Collector or canal officer provided it clearly states the name or names of the persons objecting, the crop and the year for which the charge is made, the demand from each cultivator to which objection is taken, and the name of the village in which the land is situated. *Provided* that no objection shall be received which refers to more than one "lease-unit," and that all or any of the raiyats in one "lease-unit" may join in one objection.

Prescribed form for objections.

(49) Any person who is not satisfied with the order passed by the Subdivisional Canal Officer under Rule 45 may file an application of appeal to the Collector under section 91 of the Irrigation Act. Such application must be accompanied by a copy of the order appealed against. The Collector shall thereupon, after considering the records of the case, pass such order as he may think fit, and may meanwhile suspend collections by a written order if he thinks proper to do so.

Appeals to lie to the Collector.

(50) The Collector may, by a special order passed in each case, refer applications under rule 49 to any Deputy Collector for report or disposal. An appeal against an order passed by a Deputy Collector under this rule may be preferred, within thirty days, by either the applicant or the Divisional Canal Officer.

Appeal against order of Deputy Collector.

(51) When any person appeals to the Collector against an order passed by a Subdivisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record thereon any remarks he may think fit. The papers shall not be detained by him for the purpose of making further enquiries, but the Collector may, on the suggestion of the Divisional Canal Officer, or of his own motion, direct that such enquiries shall be made.

Procedure when an appeal is made to the Collector.

(52) Reports of, and applications for mutations of names in leases under schedules I and II shall be made to the Collector or to any officer authorized by him to receive and dispose of them. If addressed to any Canal Officer, they shall be referred to the Collector for disposal.

Mutations of names.

on the payment of water-rates.

(53) Water-rates assessed under sections 78, 79, and 80 of the Irrigation Act shall be due on the following dates:—

I. Leases for the kharif season for a term of years (schedules I and II)—
In one instalment on the ... ... 1st March.

Note.—The demand statements will be sent to the Collector as soon as the lease is complete as provided in Rule 41. Annual demand statements are not necessary.

II. Annual leases.

(*a*) Leases for a single kharif season (schedule III)—

In one instalment on the ... ... 1st March.

Note.—The demand statements for the water-rates due on these leases shall be submitted to the Collector as soon as the application is complete (see Rule 42).

(*b*) Leases during the rabi season (schedule IV)—In one instalment on the 1st August (except for sugarcane).

(*c*) Leases during the hot-weather season (schedule V) for sugarcane. The demand for the irrigation of sugarcane for both the rabi and hot-weather seasons shall be paid in one instalment on the 1st of April after the crop is cut.

Note.—The demand statements for these two classes of leases shall be submitted to the Collector fifteen days, if possible, before the water-rates are due, but accuracy in the charges is of more importance than a rigid adherence to dates.

III. For water supplied for kharif crops after the 1st of September to lands which are not under lease (schedule VI)—

First moiety	...	Before the outlet is opened.
Second ,,	...	1st March.

Note.—The first moiety shall be paid to the Subdivisional Canal Officer, the second to the Collector A demand statement shall be forwarded to the Collector as soon as the lease has been granted.

IV. Water supplied for filling tanks (schedule VII)—Shall be paid to the Subdivisional Canal Officer in one instalment—before the outlet is opened.

V. Unauthorised irrigation and waste.

Assessments under sections 79 and 80 of the Irrigation Act.	On receipt of the demand statement by the Collector.

(54) The water-rates shall be paid on or before the dates when they fall due as detailed in the previous paragraph.

Contractor for water-rates.

(55) At the joint written request of all the cultivators signing the application and of a person who shall be termed the contractor, a lease for a term of years may be granted under which the said contractor shall collect and pay to Government the entire sum due annually on the said application. In such a case the form of application shall be altered as prescribed in the footnote of Appendix III. A contractor shall be entitled to receive a commission of 15 per cent. on the amount paid to the Collector.

To be approved by Collector.

(56) No person shall be accepted as contractor under rule 54 except with the written consent of the Collector to his nomination. The Collector may require the contractor to give security for the execution of the agreement. The contractor must be either the zamindar or the farmer of the *entire* village. No person who is the zemindar or farmer of only a portion of the village, less than sixteen annas, shall be accepted as contractor.

Powers of contractors to collect.

(57) Contractors shall be entitled to collect water-rates from the cultivators who have signed the application and from their successors in interest in the land included therein, at the rates fixed by the Lieutenant-Governor under section 78 of the Act. Every sum due from a cultivator to a contractor on account of water-rates under rule 54 shall be deemed to be a sum due to Government under sections 82 and 85 of the Irrigation Act.

Contractor's payments when due.

(58) The sum due from the contractor shall be paid to the Collector, either by instalments or in one sum, before the 31st of March.

Resignation of contractor.

(59) A contractor may resign his interest in a lease on giving to the Collector, before the 1st of October, a written notice of his intention to do so.

Canal Officer may appoint approved contractor.

(60) If, after the completion of a lease under schedule I or II a contractor, as described in rule 55, comes forward, and is willing to undertake to collect the entire sum due from any village on account of water-rates, the Canal Officer, subject to the approval of the Collector, may appoint him to the office under a proper agreement under section 82 of the Act.

Any person paying entire demand may claim 15 per cent.

(61) If, at any time, the cultivators of a village under lease pay to the Collector through any one person nominated by themselves, the entire sum due on their lease, on or before the date on which the water-rates are due, a refund of 15 per cent. of the amount so paid shall be made at the time of payment to such person.

On Remission.

Gauge of discharges.

(62) The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of failure of supply.

Remission for failure of supply.

(63) Claims to remission of water-rates under section 76 (*b*) shall be made to the Subdivisional Canal Officer. Such claims shall only be admitted on proof of actual loss caused by failure or stoppage of supply. On proof of such loss, due to such failure or stoppage as described in section 76 (*b*), the Divisional Canal Officer shall remit the whole or any part of the rates. All Applications for remission of water-rates shall be made in the manner provided in rule 45 within 15 days after the occurrence of such failure or stoppage.

Compensation.

(64) Before awarding compensation under section 76 (*c*), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings.

Remissions by Superintending Canal Officer.

(65) The Collector or the Superintending Canal Officer, acting under the general instructions which he may from time to time receive from Government, may, in special cases, remit the whole or part of the water-rates due to Government. Such remissions shall be classed as "extraordinary" and shall be a matter of grace only. Remissions under this head

will ordinarily be made on the representation of Collectors or of Divisional Canal Officers only No person shall be entitled to receive an order on an application for remissions contemplated by this rule.

(66) A remission statement signed by the Superintending or Divisional Canal Officer shall be sufficient authority for a refund by the Collector.

Authority for remission.

On collections and alteration of Demand Statements.

(67) Collections of all water-rates shall be made by the Collector in accordance with the demand statements furnished to him by the Divisional Canal Officer.

Collections.

(68) The Collector may make any alterations in a demand statement provided that the total sum due is not altered or provided that an error in account only is corrected. When such alterations are made in a demand statement referring to a lease under schedule I or II, a memorandum of the alteration shall be sent to the Divisional Canal Officer.

Alterations in demand.

(69) In cases when water-rates cannot be collected owing to the death, bankruptcy or absconding of the defaulter, the amount which cannot be recovered may be written off as irrecoverable on the authority of the Collector. A detailed list of sums written off under this rule shall be sent to the Divisional Canal Officer.

Power of Collector to write off.

(70) In all cases other than those stated, the sanction of the Commissioner of the Division must be obtained before any sum can be written off as irrecoverable.

Power of Commissioner.

APPENDIX I.

This form of notice will not ordinarily be accepted later than the 1st April for any lease which it is proposed to make in the year then current.

Form of notice that a permit for a term of years is required.

Mouzah , pergunnah , distributary

We, whose names are attached, give notice that we wish to apply for a lease for a term of years for a block of land containing all the irrigable rice lands in our village. We request that the block may be inspected; that the necessary measurements may be made; and that the form of application, which has to be signed by all the cultivators of the block, may be prepared. We have ascertained that all the cultivators in the block are willing to enter into the lease.

Signatures of five or six principal cultivators ...

Note.—No permit will be granted on this notice.

APPENDIX II.

Note.—No application in this form will be received after the 1st of September for any lease which it is proposed to make in the year then current.

Preliminary application for a lease for a term of years.

Mouzah , pergunnah , distributary

1. We, whose names are attached, hereby apply for water to be supplied from the above-mentioned distributary for the irrigation of our rice-fields from the 15th of June until the 15th of November in each of the following years:—

*189	corresponding to	129
189	.....	129
189	.....	129
189	.....	129
189	.....	129

We are aware that the rate applicable to this term of years is Rs.———for each acre leased.

2. The area to be irrigated by each of us is approximately stated in the schedule below. The area which we desire to irrigate forms a compact block, having the following boundaries:—

North.—
South.—
East.—
West.—

All the cultivators of this block desire to conclude a lease for the period named above.

3. We undertake to arrange for the transit of the water from the distributary to all the fields in the block which we desire to lease either by the construction of a suitable channel or by arrangement with the occupiers of intervening leased fields. Failure on our part to get the water to any field or fields will not entitle us as a matter of right to claim exemption from payment of water-rate due on such field or fields.

4. We will prevent, as far as possible, the waste of the water supplied to us and its use in an unauthorised manner by other cultivators.

5. We request that the areas of our holdings may be checked and the lease for the term of years specified above may be prepared. We agree to sign the lease for the entire block defined above as soon as it is presented to us.

6. We make this application under section 74 of Act III (B.C.) of 1876 and the rules issued under it, more especially rules 17, 24, 28, 29, 41, 61, 62, 70, 73, 74. We agree to abide by these and by all rules passed under the Act.

7. Should the lease for which we now apply not be completely signed by all the cultivators in the block before the 30th of November next, or should the lease not be accepted by the Canal Officer, we agree to pay at the rate of Rs. 3 for each acre of our holdings within the block as found by actual measurement. *Provided* that if the delay in the completion of the lease be due to any cause beyond our control, the rate to be charged shall be that specified in clause 1 of this application. We agree to pay the sum due from each of us whether we require water during the season or not.

* Under the "lease unit" system (rules 7 to 15) a lease may be, under certain circumstances, for less than five years.

8. We agree to pay the water-rates due on this application in one instalment on or before the 1st of February.

Name of cultivator.	Area to be irrigated.	Signature of cultivator.	REMARKS.

Note.—A permit may be granted on this application by the Subdivisional Officer only

APPENDIX III.

Form of final application for a lease for a term of years.

Mouzah , pergunnah , distributary

1. We, whose names are attached, apply for water to be supplied from the distributary for the irrigation of our block of rice-fields from the 15th June until the 15th November in each of the following years:—

* 189 corresponding to 129
189 129
189 129
189 129
189 129

The area to be irrigated has the following boundaries:—

North.—
South.—
East.—
West.—

2. The area to be irrigated by each of us is stated in the schedule following, marked A Each of us agrees to pay water-rates on the area recorded against his name at the rate of Rs — per acre. We will pay the sums due from us independently of our requiring water in any particular year or not.

3. We desire that the lands entered in the schedule marked B, lying within the boundaries of the block (which are either unirrigable lands, "Beali" lands, or low-lying lands, which will not ordinarily benefit by canal water) may be excluded from irrigation and assessment. Should we require irrigation for such lands, we agree to make a separate application for the particular season when we require the water.

4. We undertake to arrange for the transit of the water from the distributary to all the fields in the block which we desire to lease either by the construction of suitable channels or by arrangement with the occupiers of intervening leased fields. Failure on our part to get the water to any field or fields will not entitle us as a matter of right to claim exemption from payment of wate -rate due on such field or fields.

5. We will prevent, as far as possible, the waste of the water supplied to us and its use in an unauthorised manner by other cultivators.

6. We make this application under section 74 of Act III (B. C.) of 1876 and the rules issued under it, more especially rules 17, 24, 28, 29, 41, 61, 62, 70, 73, 74. We agree to abide by these and by all rules passed under the above Act.

7. We agree to pay the water-rates due from us in one instalment on or before the 1st of February, and to give due notice to the Canal Officer of any changes in the holdings included in this application.

8. We are aware that if a permit is granted to us it is liable to be cancelled under rules 28 and 29—

(i) If on the 1st of June of any year, more than one-half of the aggregate water-rates on this application are unpaid.

(ii) If water supplied for irrigating the block of land included in the application is habitually wasted or misused.

9. (If all the applicants have not signed.) We who have signed this application further bind ourselves to be jointly responsible for the payment of the water-rates due on the block from those who have not yet signed this application, should they fail to do so in due time, as required by the rules.

SCHEDULE A.

Name of cultivator.	Area to be irrigated.	Signature or mark of cultivator.	Signature of witness to cultivator's signature.

* Under the "lease unit" system (rules 7 to 15) a lease may be, under certain circumstances, for less than five years.

SCHEDULE B.

Name of cultivator.	Number of fields.	Class of land.	Area of land to be excluded from irrigation and assessment.	Signature.

Note.—A permit will not be granted for any lease for a term of years until an application in this form has been signed by all the occupiers of the land included in the block. If this application is not complete by the 15th June, an application either in Form Appendix II or Form Appendix IV must be submitted if water is required during the year then current.

Note.—When a contractor undertakes the collection of all the water-rates due on this application the following shall be inserted above schedule A :—

"9. We desire under rule ——— that ——————————— shall be appointed contractor. We agree to pay water-rates to him as they become due so long as he is authorised by proper authority to collect them. Should the contractor resign or be removed, we engage to pay water-rates to the Collector or to any person authorised by him to receive the amounts due from us."

The contractor shall sign the following agreement which shall be added to the lease :—

"I agree to become contractor under rules ——————— for the collection of the entire sum due under this application in consideration of being permitted to deduct Rs. 15 per centum from the total amount due on the lease. I undertake to pay to the Collector the whole amount due to Government on or before the 15th of March following the dates when the water-rates are due from the cultivators; should I default the Collector shall be at liberty to realise from me the said amount in terms of Section 85 of Act III (B.C.) of 1876. I will myself take the risk of any default in payment by the cultivators."

Note.—The agreement with a contractor needs an eight-anna court-fee stamp.

APPENDIX IV.

Note.—No application in this form will be received after the 1st September for water to be supplied during the season then current.

Application for a lease during a single kharif season.

Mouzah pergunnah distributary .

1. We, whose names are attached, apply for water to be supplied from the * 15th June to the 15th of November for the irrigation of the block of land formed by our holdings.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

[Third Publication.]

The 2nd February 1892.

No. 14*Marine.*—In accordance with the provisions of section 126, clause (4) of the Calcutta Port Act, 1890, the Lieutenant-Governor directs the publication of the following bye-laws for regulating, landing and shipping of goods on inland vessels' wharves, which have been proposed by the Commissioners of the Port of Calcutta:—

Landing and Shipping on Inland Wharves.

BYE-LAWS.

Goods to be landed at authorised wharves only.

1. With the exceptions hereinafter noted, no vessels, not being sea-going vessels, shall land or ship any goods at any wharf on the east bank of the river Hooghly between the northern boundary of the port and the Government Dockyard at Kidderpore, except at the wharves duly notified by the Commissioners under section 97 of Act III (B.C.) of 1890.

Exceptions.

2. The foregoing rule shall not apply to inland steamers or flats, or to boats laden with vegetables, fruits, meat, and market produce; such goods can be landed at the public ghats under any rules or restrictions at present or hereafter in force thereat.

Definition of market "produce."

3. By the term "market produce" shall be meant such perishable commodities as are imported for the bazars for immediate and daily consumption, but on such vegetables as potatoes, red gourds, or pumpkins, and the like, which are imported and stored, the toll shall be levied.

Goods not to be landed or shipped until toll has been paid.

4. No goods, liable under Schedule C for payment of toll, on which toll has not been paid, shall be either landed from, or shipped into, boats or vessels using the inland vessels' wharves.

Goods landed or shipped without payment of toll to be detained.

5. Goods landed from, or shipped into, boats or vessels without payment of the toll, shall be detained by the Commissioners, at the risk and expense of the consignees, until the toll has been paid.

Re landing or re-shipping.

6. If goods shipped have to be re-landed, or goods landed have to be re-shipped, such goods having already paid toll for shipping or landing, shall be exempted from further payment for re-landing or re-shipping, provided such re-landing or re-shipping takes place on the same day as the landing or shipping.

Steam-ferries and passenger-boats not to take goods unprotected by pass.

7. Persons in charge of steam-ferries or passenger-boats plying from any public ghat, shall not permit the landing or shipping from, or upon, their vessels of any goods liable under Schedule C for payment of toll, unless such goods are protected by passes.

Goods not to be stacked on the wharves.

8. Except for the purpose of enabling masters of vessels to take measurements or weighments of goods to be shipped on board their vessels, no goods shall be permitted to be stacked on the wharves beyond the time actually necessary to convey them away.

Goods awaiting shipment to be under control.

9. During the time it is actually necessary for goods in course of landing or shipping, to remain on the wharves, such goods shall be piled in places assigned for the purpose by the Superintendents of the wharves, or their subordinates.

Boats not to moor or anchor for purposes of sale or barter.

10. Boats shall not be moored or anchored at the wharves, in order that the owners of the goods brought in them may sell or barter.

Empty boats to lie in the stream.

11. Empty boats waiting to be hired, or having discharged goods, shall anchor in the stream, at least 150 feet off the wharves.

Timber not to be floated to detriment of the wharves.

12. No person shall float timber, rafts, or any obstructive articles in the stream within 150 feet of the bank, so as to impede the movement of boats and vessels at the inland vessels' wharves.

Commissioners' servants at liberty to board boats or vessels.

13. No person shall prevent the Superintendents of the wharves, or other persons deputed by them, from boarding any boat or vessel within 150 feet of the wharves, for the purpose of examining or ascertaining the quantities of the goods in them, or of detaining them for payment of tolls or other charges, or of giving effect to any of the bye-laws and rules passed by the Commissioners.

Hours for landing and shipping goods.

14. The hours for landing and shipping goods at the inland vessels' wharves shall be from 6 A.M. to 6 P.M. on all days, except Sundays and holidays authorized by the Commissioners; and no business shall be transacted on the wharves during the hours intervening between 6 P.M. and 6 A.M., nor on such Sundays and authorized holidays, except on payment of overtime or extra fees respectively.

15. When goods are to be landed or shipped inward or outward, authenticated challans showing the descriptions and exact quantities of the goods, shall be tendered to the cashier by applicants for the passes. On the data furnished in these challans the passes will be drawn up and the tolls levied. In the absence of such challans, or where reasonable doubts exist with regard to their genuineness or correctness, the calculation for levying the toll shall be based on the registered tonnage of the boats or vessels from which the goods are to be landed, or on which they are to be shipped.

Challans to be filled up.

16. Any person committing an infringement of any of the foregoing bye-laws shall be liable for the first offence to a fine not exceeding Rs. 100, and for a continuance of that offence, after notice shall have been given him by the Commissioners of his having committed the offence, to a further fine of Rs. 50 per diem.

Penalty for non-observance of bye-laws.

BABU BRAJAMOHAN DUTT'S PRIZE-ESSAY FOR NATIVE LADIES.

No essay of sufficient merit having been sent in for Babu Brajamohan Dutt's prize in the years 1889-90 and 1890-91, it has been decided to award three prizes of Rs. 40 each for the year 1891-92, the subject selected being "Domestic Arts as practised by Bengali women."

The conditions for the award of the prize are—

(1) That the competition be open to all educated women, being natives of Bengal, without regard to age.

(2) That the prize be given for an essay, to be written in either Bengali or Sanskrit.

(3) That the essays be sent to the Central Text-Book Committee for adjudication within six months of the date of advertisement.

(4) That each essay be accompanied by the written declaration of the husband, parent, or guardian of the competitor that, to the best of his belief, she has received no assistance of any kind, direct or indirect, in writing the essay.

Candidates are requested to send their essays, not later than the 30th June 1892, to the Secretary to the Central Text-Book Committee, Office of the Inspector of Schools, Presidency Circle, Calcutta. The envelope containing the essay should be superscribed "Brajamohan Dutt Prize-Essay." The name of the successful competitor will be published in the *Calcutta Gazette*.

The winner of the prize in any year may, if she pleases, again compete. If she is adjudged to have sent in the best essay in such subsequent competition, her name will be published in the *Gazette*, but the prize will be awarded to the next eligible candidate.

No prize will be awarded if, in the opinion of the judges, the best essay sent in is not such as to deserve a prize.

A. CROFT,
Director of Public Instruction.

NOTIFICATION.

The 15th February 1892.—It is hereby notified for general information that, in exercise of the power vested in him by clause 2 of section 139 of Act III (B.C.) of 1885, the Lieutenant-Governor confirms the bye-laws set forth below, which have been framed by the Patna District Board under clause 1 of the said section, in supersession of those previously framed by the Board, and published at page 93, Part IB of the *Calcutta Gazette* of 1st May 1889, under notification, dated 25th April 1889:—

Bye-laws.

"Road" in these rules means any road under the control of the District Board or any Local Board, and includes its slope, berm, and side-drains, and all land, bridges, and culverts being the property of the said Board attached to it.

2. Whoever commits any of the following offences, namely—

(1) steeps jute, hemp or any other offensive matter in any roadside drain under the control and administration of the District Board;

(2) makes any encroachment or causes obstruction on any road;

(3) throws or lays down dirt, filth or rubbish, or stacks straw, stone or building materials on any road or into any drain;

(4) forces his way or drives any animal or vehicle over any road, bridge or culvert while in course of construction or repair, and closed for traffic, when a passage is provided through another part of the road or otherwise;

(5) keeps any horse, cattle, cart or other conveyance standing longer on any road than is required for the purpose of loading or unloading or taking up or setting down passengers, or leaves any animal or conveyance, or does any other act in such a manner as to cause danger, inconvenience or obstruction to the public;

(6) exposes any goods for sale, or slaughters or tethers any animal on any road;

(7) removes soil or turf from any road or drain, or uproots grass on any road, or plucks leaves, fruits or branches of any tree planted by the side of a road which is the property of the District Board;

(8) refuses to prune or trim any tree, bamboo or hedge (in his possession or under his control) overhanging on any road on a requisition signed by the Chairman of the District or a Local Board;

(9) eases himself on any road or in any drain;

(10) washes or bathes in any tank or at any well set apart for drinking or culinary purposes under section 90 of the Local Self-Government Act III (B. C.) of 1885, or fouls the water of any such tank or well;

(11) fails to observe the rule of the road by not keeping on the left while riding or driving, or fails to carry conspicuous light when driving on a dark night,

shall, on conviction, be liable to a fine not exceeding Rs. 10, and to a further penalty not exceeding Rs. 2 each day after the imposition of the fine for the continuance of the obstruction or nuisance mentioned in clauses (1), (2), (4) and (8).

3. Any person making a channel or conveying water by a channel across a public road, except in such manner as may be prescribed by the Chairman, shall be liable to a fine not exceeding Rs. 10.

4. Any person who shall have been permitted by the Chairman to cut a channel across a road, and neglects to cover or refill the channel so as to restore the road to its former condition, and any person who has the prescriptive right of keeping a channel open for carrying water and fails to keep it in proper order, thereby causing danger or inconvenience to the public, shall be liable to a fine not exceeding Rs. 10.

5. Any person obstructing a waterway adjoining a road so as to injure or tend to injure such road shall be liable to a fine not exceeding Rs. 50.

6. Any person hereafter causing the rainfall off the roof to be discharged by means of spout or other thing intended for the conveyance of water on a public road, without the permission of the Chairman, shall be liable to a fine not exceeding Rs 5.

7. Any person owning or possessing a tree, house, wall or other erection, which has fallen, or part of which has fallen on to a road, may be required by a notice from the Board to remove the tree, house, wall, erection or such part of it as has fallen on to the road; and if he neglect to comply with such notice shall be liable to a fine not exceeding Rs. 20.

8. Any person driving a bullock-cart without springs on any part of a road except the *like*, so long as the latter exist and are in good order, shall be liable to a fine not exceeding Rs. 10.

9. Any person carrying bamboos or *bullahs* on a cart in such a manner as to scrape the road, or cause injury, annoyance or risk of injury to other travellers, shall be liable to a fine not exceeding Rs. 5.

10. Every elephant or camel proceeding on a road shall be provided with a bell; and any person owning, riding, driving or in charge of an elephant or camel on a road shall, if he is not so provided, be liable to a fine not exceeding Rs. 20.

11. The driver or person in charge of every elephant or camel on a road shall, on the approach of a carriage, cart, or horse, remove the elephant or camel to such a distance from the road as to avoid all risk of accident, and if he fail to do this shall be liable to a fine not exceeding Rs. 20.

12. Any person driving an elephant over a bridge or culvert shall be liable to a fine not exceeding Rs. 50.

13. Any person riding or driving an elephant on a newly constructed road or in wet weather on any road so as to injure it shall be liable to a fine not exceeding Rs. 50.

PUBLIC WORKS DEPARTMENT,—BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION No. 57.

Dated the 11th February 1892.

THE subjoined annual accounts and reports of the Road Cess Committees of the districts of Hazaribagh, Lohardugga, Manbhoom, and Singbhoom for the year 1890-91, together with the remarks thereon of the Commissioner of the Chota Nagpore Division, are published for general information.

F. J. JOHNSTONE,
Joint-Secy. to the Govt. of Bengal.

No. 41D.R., dated Hazaribagh, the 29th May 1891.

From—C. J. S. FAULDEN, Esq., C.S., Chairman, District Road Cess Committee, Hazaribagh,

To—The Commissioner of the Chota Nagpore Division.

I HAVE the honour to submit the following report on the administration of the District Road Fund, together with a detailed account of receipts and expenditure for the year ending 31st March 1891.

2. The District Committee held three meetings during the year, in all of which quorum was obtained, the average attendance being 7·6. The members residing in and about the town of Hazaribagh took more interest in the working of the Act than those living in the interior of the district.

3. The term of five years since their last appointment of many of the members having expired, the Committee was reconstituted during the year.

4. The following is a summary of the business transacted by the Committee during the year under report:—

(1) Preparation of the budget estimates of receipts and expenditure for the year 1891-92.
(2) Passing of estimates of different works to be executed in 1891-92.
(3) Passing of annual account and report for 1889-90.
(4) Consideration of the District Engineer's application for increase of travelling allowance.
(5) Revision of the list of members.

5. The accounts were as usual audited by a Sub-Committee appointed under section 174 of the Act.

6. *Branch Committee.*—There is only one Branch Committee in the district at Giridih, which held five meetings during the year, in which the average attendance was 4·8. The Committee consists of 14 members, of whom 5 are Europeans. The Sub-divisional Officer reports that most of the members who attended the meetings were native gentlemen, and that the European members, with the exception of one, took no interest in the working of the Act.

7. Rs. 4,544 were made over to the Branch Committee for the repairs of the roads under it, and all but Re. 0-2-9 were spent—Rs. 567-0-11 departmentally by the Vice-

Chairman, Rs. 760-6-9 by five native and one European member, and the rest by contract. Rs. 289-6-9 were spent on original works of a petty nature, Rs. 197-12 on establishments, and the rest on repairs. A Sub-Overseer of the District Committee received allowance of Rs. 5 for inspecting the work of the Branch Committee, but the arrangement was not satisfactory. The Branch Committee has to spend a very large part of its income on the roads immediately round Giridih, which is a large and rising town, where there ought to be a municipality paying for its own roads, and the roads of the interior have to be neglected in consequence; at the same time they might be better than they are. The Branch Committee has 232 miles of roads on its hands: the average sum available per mile is thus Rs. 24-6. The Branch Committee complains that at this figure it cannot keep the roads up. My own experience is that with Rs. 24-6 per mile a very great deal can be done for fair-weather roads. Rs. 10, or even Rs. 5, have, I have found, been sufficient to keep such roads in good order, and it certainly should be possible with Rs. 24-6. The work of the Branch Committee in past year has no doubt been badly done, too much being left to uninstructed and unsupervised contractors. Mr. Rattray towards the end of his tour noted that he had not come across a single Branch Committee's road in good order. He himself takes interest in the work, and may, I hope, effect an improvement. The Vice-Chairman, Babu Burmeshor Prosad, also takes great interest in the work.

8. The road cess in the district continued to be levied at the maximum rates prescribed by law.

9. The demand on account of cess on lands and mines during the year was Rs. 46,173 against Rs. 46,170 in the previous year. The annual valuation of mines brought about an increase of Rs. 15 in the demand, but on the other hand there has been a decrease of Rs. 12 in the demand of road cess collected in the Gya district owing to revaluation operations of that district; hence the net increase was Rs. 3 only.

10. The year commenced with an arrear balance of Rs. 1,289. This, together with Rs. 46,173, the demand for the year, less the sum of Rs. 1,535 paid in advance in previous years, gave a total of Rs 45,927 for collection within the year under report. Of this sum Rs. 36,471 were realised, the balance outstanding at close of the year being Rs. 9,456. In addition to the above, a sum of Rs. 1,635 was collected as advance for future years. The percentage of collections on current demand is Rs. 82·5. Most of the arrears due at close of the year was due from revenue-paying estates in which the last kist fell due on the 28th March, or three days before the close of the year. The accrual of heavy balance is chiefly due to the failure of the proprietor of the Ramgurh Estate to pay in Rs. 8,798 out of the sum payable by him on account of kist of 28th March last. Most of the arrears, namely Rs. 8,701, have since been realised.

11. From fees, fines, *&c.*, chiefly for non-submission of revaluation returns, Rs. 6,929 were realised in the year.

12. Including a few small miscellaneous receipts and an opening balance of Rs. 29,134-4-3, the income available for expenditure in the year was Rs. 82,674-10.

13. *Original works.*—The only original works taken up during the year under review were the gravelling of the road from Golah to Dakagurha *vid* Dimra towards Jhalda *en route* to Purulia, a distance of about 12 miles, and the construction of a third class inspection bungalow at Murkutcho. The bungalow (Rs. 433-0-9) and a little more than 6 miles of the road (Rs. 3,000) have been completed during the year. Owing to the limited funds at the disposal of the Committee no other work could be undertaken during the year.

14. *Repairs.*—Thirty-four miles of the metalled and 47 miles of gravelled roads have been maintained at a cost, respectively, of Rs. 6,301-10-8 and Rs. 3,566-12-5, and are in fair condition.

15. Nineteen fair-weather roads, aggregating to about 300 miles, have been kept up in fair condition at a cost of Rs. 12,822-0-5 and are fit for cart traffic. The steep gradients are gradually being improved and the approaches down to beds of unbridged rivers and nallahs eased for wheeled traffic.

16. Village roads, aggregating to about 357 miles, have been repaired and made feasible for cart traffic. The roads of this class in the head-quarters were under the supervision of the District Engineer, and were kept up at a cost of Rs. 2,639-1-11, and those in the Giridih subdivision were under the supervision of the Branch Committee.

17. *Arboriculture.*—No new trees were planted during the year; the existing trees, about 14,000 in number have been maintained at a cost of Rs. 1,562-1-6, and are generally in a flourishing state. Many of the avenues are incomplete owing to want of proper protection, and the completion of these avenues must be the care of the Committee before fresh avenue planting can be undertaken. The proposal of clump planting or planting of topes of trees along every 5 or 6 miles of the road has since been approved by the Commissioner, and will be adopted in future in place of avenue planting as funds permit. The expenditure on replanting trees and protecting them during the year under report was Rs. 1,562-1-6.

18. *Nursery.* There is only one nursery garden in the Road Cess Office compound containing about 900 plants.

19. *Staging Bungalows and Serais.*—There is only one staging bungalow at Ramgurh. It yielded Rs. 55-8 during the year, and its maintenance cost Rs. 257-3-9. Since the opening of the Bengal-Nagpur Railway the dâk bungalow is rarely used, and the income is therefore reduced.

20. The only cart serai in the district, namely at Bogodhur on the Grand Trunk Road, yielded Rs. 103, and its maintenance cost Rs. 36-5-3.

H. C. MITTER,
Vice-Chairman.

Explanatory memorandum attached to the District Road Fund Account for the year 1890-91.

THE receipts on account of fines for non-submission of revaluation returns during 1889-90 and 1890-91 having been much larger than what had been estimated for, the closing balance at the end of the year exceeded the limit prescribed in paragraph 9 of the Government Resolution No. 4228R.C., of the 18th December 1885. Provisions have, however, been made for the disposal of the excess balance in the budget for the current year.

The transfer of allotments noted in antigue figures in column 2 of Part II of the account has been sanctioned by the Committee; the Commissioner's sanction to the same is being applied for.

H C. MITTER,
Vice-Chairman,

No. 95D.R., dated Ranchi, the 18th June 1891.

From—COLONEL E. G. LILLINGSTON, Deputy Commissioner and Chairman, District Road Cess Committee, Lohardugga.

To—The Commissioner of the Chota Nagpore Division.

I HAVE the honour to submit herewith the annual accounts and report on the working of the Road Cess Act, IX (B.C.) of 1880, for the year ending 31st March 1891.

* * * * * * * *

3. * * * * The attendance of the non-official members of the District Road Cess Committee during the year under report was unsatisfactory, for out of nine non-officials three attended only two meetings, and two failed to attend any meetings of the Committee during 1890-91. Regarding Palamow Branch Road Cess Committee * * * also the attendance of the non-official members was unsatisfactory.

4. The following is the summary of business transacted at the meetings of the District Road Cess Committee held during the year under report :—

(*a*) Passing the budget estimate.
(*b*) Fixing the rate of road cess to be levied during the year.
(*c*) Passing the annual accounts for 1889-90.
(*d*) Passing estimates submitted by the District Engineer for the repairs of different roads during 1890-91.
(*e*) Appointing contractors for the construction and repairs of different roads for 1890-91.
(*f*) Disposing of other miscellaneous business.

5. P. H. O'Brien, Esq., C.S., Joint-Magistrate, held the office of Vice-Chairman from July to December 1890, and Assistant Magistrate B. B. Newbould, Esq., C.S., from January to March 1891. On account of there being no covenanted assistant from April to June 1890, the office of the Vice-Chairman was under my direct supervision. The cheques were signed by Debendra Lal Bose, one of the members of the Committee in place of the Vice-Chairman, under the sanction of the Commissioner of the Division under clause 2, section 129 of Act IX (B.C.) of 1880.

6. The demand on account of cess on lands and mines during the year, including arrears of last year, amounted to Rs. 65,433. Of this Rs. 544 was collected in advance during the previous year, and Rs. 61,044 has been collected within the year under report, thus leaving a balance outstanding on 31st March 1891, Rs. 3,845. In addition to the above, a sum of Rs. 505 was collected in advance on account of the ensuing year 1891-92.

7. The cess was levied at the maximum rate. There was no difficulty in collecting it at head-quarters. In the Palamow sub-division, however, some difficulty was experienced in collecting the cesses from the estates which are held by numerous sharo-holders either by purchase or by inheritance. The recognised and recorded proprietors of these estates are but proprietors in name. A separate report on this subject will be submitted.

8. The accounts of the year were duly examined and audited by a Sub-Committee consisting of the Vice-Chairman and two other English-knowing members.

9. *Original Works.—Ranchi-Lohardugga road.*—A masonry arched bridge, 16 feet span, was constructed in the 46th mile, and the diversions at Karrak, Bara, and Baratpore bridges, which had been taken in hand in the previous year, were also completed, and the approaches of these bridges were metalled with gravel over a layer of soling.

10. Survey was taken of Ranchi-Gola and Daltongunge Sherghotty roads and plans prepared. Drawings were prepared of Ranchi-Chandil, Ranchi-Palkote, Bundu-Jhalda, and Kuru to Orenga stream roads.

11. *Repairs.—Lalpore to Hazaribagh road.*—Gravel was put over metalling in half a mile of the length and petty repairs undertaken.

12. *Ranchi-Booti road.*—Gravelling was renewed here and there and the road maintained in good order.

13. *Ranchi and Lohardugga road.*—About 5 miles of the road were gravelled, and gravel collection was made in 7 miles. Petty repairs, including renewal of gravelling here and there, were executed throughout the length of the road. The timber roadway of a culvert on the 13th mile was reconstructed.

14. *Anandi-Gola road.*—Surface repairs were undertaken and the road maintained in fair order.

15. *Lohardugga and Chattra road.*—Timber roadways in two bridges, 15 feet span each, were thoroughly renewed and timber railings constructed on one bridge. Much earthwork was executed in thoroughly repairing the road from 26th mile to Baloomath, and petty repairs, including renewal of some temporary bridges, were undertaken throughout the entire length of the road.

16. *Ranchi-Chandil road.*—The new diversion from Subornarekha bridge on Public Works Department road to Purulia, about a mile and a half in length, was gravelled and a rubble masonry and flag stone culvert constructed on it. Several temporary bridges were reconstructed and the road maintained in good order.

17. *Ranchi and Palma road.*—A timber bridge was rebuilt in Nagri Done, gravelling was executed at places and petty repairs undertaken.

18. *Ranchi-Pithoria road.*—About a mile and a half of the road was gravelled. A diversion was constructed near Pithoria and patch repairs undertaken.

19. *Ranchi and Palkote road.*—About a mile of the road was gravelled. The entire length of the old road from Kulhutoo to Muruchkel, 22 miles in length, which had been abandoned in favour of a diversion 5 miles longer, was again resumed for public convenience and was almost thoroughly reconstructed, including rebuilding several temporary bridges; petty repairs were undertaken.

20. *Khunti and Kamdera road.*—Road was maintained in fair order and some temporary bridges rebuilt and repaired.

21. *Palma-Lohardugga* viâ *Bhandra road.*—Road was maintained in fair order and some temporary bridges rebuilt and repaired.

22. *Lohardugga-Sumbulpore road.*—Five miles of the road thoroughly reconstructed. About 100 running feet of temporary bridges were constructed; petty repairs were undertaken.

23. *Kuru to Orenga stream.*—The bridge over Senha stream was completed and the earthwork in diversion at this bridge was in progress. Surface repairs were executed and some temporary bridges rebuilt.

24. *Orenga stream to Daltongunge road*—Surface maintained in good order and several temporary bridges renewed.

25. *Daltongunge-Mohurajgunge road.*—About a mile of the road was gravelled, some temporary bridges were reconstructed and the road kept in fair order.

26. *Daltongunge and Garwa road.*—The road maintained in fair order.

27. *Garwa-Majiwan and Garwa-Untari roads.*—About 2 miles of each of the roads were reconstructed and petty repairs undertaken.

28 *Majiwan-Jupla road.*—About 4 miles of the road were reconstructed, surface repairs undertaken and some temporary bridges renewed.

29. *Daltongunge Sherghotty road.*—Three miles of the road in the ghât requiring heavy earthwork in cutting and filling were thoroughly reconstructed and some temporary bridges rebuilt; petty repairs were also undertaken.

30. *Daltongunge-Patan road.*—About 2 miles of the road reconstructed.

31. *Petty roads near Sudder station.*—They were maintained in good order.

32. *Village roads.*—In the head-quarters sub-division 24 miles of roads were newly constructed, about 20 miles which had been taken in hand in previous year were completed, and some 120 miles maintained in passable order. A bridge 20 feet span with rubble masonry abutments and wing walls on sâl timber roadway was constructed on Palkote-Gomla road. In Palamow sub-division some 15 miles of roads were constructed and about 25 miles maintained in fair order.

33. *Arboriculture.*—About 350 seedlings brought from Shibpur Botanical Gardens, and some 400 taken from nurseries at Ranchi, Lohardugga, and Daltongunge were planted along the roadside. Plants along 75 miles of roads taken altogether were maintained, and several new gabions supplied to them.

34. *Staging Bungalows.*—Two staging huts, one on Ranchi-Gola road, and another on the Daltongunge and Garwa road, were completed this year. The bungalow at Balamath

was much improved with additions and alterations, renewal of the tiled roof with sal batt and bullahs, and providing light terrace roofings in the rooms. All the bungalows and h were kept in fair order.

35. *Tools and Plant.*—One stone road-roller for consolidation of gravels was c structed, and several other tools were purchased and repaired.

36. Generally it may be said that more attention has been paid to securing good lasting work rather than quantity. Drainage is being specially looked after and care ta that the bad portions of roads are completed before work is done on the better pa A system has been introduced to finish off such portions of roads as are to be put in o first, and until these are completed the contractors and subordinates employed under District Engineer are not given credit for any other work executed.

37. *Accounts.*—The monthly accounts of the Road Fund and of the District Engine office were examined by the Vice-Chairman, and two other English-knowing member the Committee who were appointed for the purpose.

38. The Local Auditor inspected this and the District Engineer's office on the 2 November 1890, and the result was very satisfactory.

39. The establishments entertained under the Road Cess Act are—

(*a*) Establishment for collection of revenue.
(*b*) Committee's office establishment.
(*c*) Engineering establishment.

40. The establishment for collection of revenue at head-quarters consists of head-clerk and accountant, one assistant clerk, one mohurir, and one peon. Th officers also do the works connected with the Committee's office, for which there is separate establishment. The establishment under the Sub-divisional Officer of Palas consists of one clerk and one peon.

* * * * * * * *

43. The roads, bridges, and culverts mentioned in the budget estimate for 189 (sanctioned by Government) are the works proposed to be taken in hand during ensuing year 1891-92.

44. The works have all been executed by contract during the year under report, the small sums advanced to the contractors have been adjusted.

E. G. LILLINGSTON, *Colonel.*
Chairman, District Road Cess Committee,
Lohardugga.

N. L CHATTERJEE, *Accountant.* D. C. BOSE, *Member.* B. B. NEWBOULD, *Vice-Chairman.*

No. 25 D. R., dated Purulia, the 7th July 1891.

From—C. A. S. BEDFORD, Esq. Chairman, District Road Committee, Manbhoom,
To—The Commissioner of the Chota Nagpore Division.

I HAVE the honour to submit the following brief annual report of the operations of the Cess Act, IX (B.C.) of 1880, and of the working of the District Road Committee of Manbhoom during the year 1890-91.

2. *Working of the Cess Act, IX (B.C.) of* 1880.—The demands, collections, and arrears on Road and Public Works cesses, and interest on lands, mines, quarries, and jungles for the year 1890-91, are shown in statement.

The arrears due for 1889-90 were Rs. 8,795, including Rs. 35 on account of a *Digwari* estate which had escaped assessment, and the demand for the year was Rs. 86,305 against

Rs. 27,465 and Rs. 87,492, respectively, for the two preceding years. There was a decrease of Rs. 1,187 in the demand owing to reduction in assessments on some mines, quarries, and jungles. The collection of the year was Rs. 76,149 against Rs. 1,03,951 in the preceding year, showing an outstanding balance of Rs. 18,950 at the end of the year against Rs. 8,760 in the preceding year. This is chiefly owing to the non-realisation of Rs. 14,064 (since realised) due from the Pachet estate for the kist ending 28th March 1891. The percentage of collections on net demand was Rs. 80,073. Out of the net balance (Rs. 18,950) outstanding at the end of the year. Rs. 17,836 have since been realised, and steps are being taken to recover the amount in arrear. As has often been noticed, cesses were not paid regularly during the year under report in many cases. There is a general tendency to put off payment until certificates are enforced. Of the revenue-paying estates, Jaipur, Katras, and Pachet are the most irregular in their payments. The practice of intimating to owners of mines, quarries, and jungles the amount of their indebtedness by means of post-cards was continued and was found to work satisfactorily.

3. *Working of the Committee.*—During the year under report the Committee held 12 meetings for the transaction of business, and in all of them a sufficient number of members was present to form a quorum. * * * *

The following is a summary of the business transacted by the Committee during the year:—

(1) Passing monthly accounts of the District Road Fund audited by a Standing Sub-Committee.
(2) Passing annual account and report for the year 1889-90.
(3) Discussing District Engineer's report regarding reduction of cost of maintaining cart serais, the income from falling off on account of the Bengal-Nagpore Railway.
(4) Discussing proposal submitted by the Barrabhum Estate Manager, of Messrs. R. Watson and Company regarding the construction of a bridge over the Nungshai nullah below Barrabazar.
(5) Considering a petition from the Bagmundi zemindar for the construction of a road from the Bolorampore Railway station to Bagmundi.
(6) Sanctioning acting allowance to District Engineer's clerk for the performance of District Road Committee's Accountant's duties during latter's privilege leave.
(7) Sanctioning annual budget estimate of the Committee's receipts and expenditure for the year 1891-92.

4. *Working of the Branch Road Committee at Govindpore.*—Babu Mohendronath Mukerjee, Sub-divisional Officer of Govindpore, was Chairman of the Branch Committee. No meetings were held and no business transacted.

5. *Working establishment.*—There has been no material change in the executive establishment of the Committee during the year under report. Two of the sub-overseers were absent on leave for short periods, and temporary arrangements had to be made to carry on their work.

* * * * *

6. *Works done during the year.*—Appendix B gives the abstract of all the works done during the year and the expenditure on them.

(a) *Sudder sub-division—Original Works.*—The following original works were executed during the year under report:—

(1) Approach road to the Anara Railway station
(2) Approach road to the Adra Railway station.

These approach roads connect the Purulia-Burrakur road with the adjacent railway stations, the necessity of which was much felt soon after the opening of the Bengal-Nagpore Railway. Earthwork, turfing, and bridgework were entirely completed and the roads opened to public traffic during the year under report. A valuable strip of land had to be acquired for the approach road to the Adra Railway station at some expense. In addition to the above, a road from Chirkunda on the Grand Trunk Road to Patlabari was budgetted for, but the project was afterwards abandoned owing to the Bengal Coal Company's making a free gift of a road which was their private property and which was found would meet our requirements.

Repair Works.—The works under this head consisted of the usual maintenance of the district roads, and were generally much the same as in previous years. All the roads were kept up in fair condition generally. The following improvements however, deserve notice:—

(1) All the railway level-crossings on the Purulia-Chybassa road, which were left in a more or less unfinished condition by the Railway Company, were attended to and were properly completed at the expense of the Railway Company.
(2) About 2 miles more of the Purulia station roads were stone-metalled to meet the requirements of increased wheel traffic in the vicinity of the Railway station.
(3) Minor improvements, such as easing steep gradients, adjusting alignments, construction of temporary stone culverts, &c., were effected.

The inspection and staging bungalows and bridges and culverts on all the roads were kept up in good condition.

Village roads.—Besides the annual petty repairs to the several existing village roads, the following are the principal additions and improvements under this head :—

(1) A surface road was constructed from the Adra Railway station to Kashipore for Rs. 500 only. It was very much wanted, especially as Kashipore, which is a big village of some importance, had no outlet in the direction of the Railway line. It is our intention to improve this road very shortly.

(2) The Barrabazar-Manbazar road was extended a mile further on towards Manbazar.

(3) The Jeypore-Begoonkochar road was completed, and it is now thoroughly fit for wheel traffic.

Cart serais.—The serais on the Purulia-Ranchi road and Purulia-Bankura road were maintained and are in good condition. The compound of the Jeypore serai was improved by metalling. The incomes from the serais on the other roads, especially from those on the Purulia-Burrakur and Purulia-Chybassa roads, fell off very much during the year, and in anticipation of the abolition of some of them and reduction of others, no money was expended on them except what was absolutely necessary for petty repairs.

Arboriculture.—The work under this head consisted merely of the maintenance of young trees and plants along the Purulia station roads, as nothing more could be done for want of funds.

(*b*) *Govindpore sub-division.*—There was no original work done in this sub-division.

Repair works.—The works under this head consisted of the usual maintenance repairs in this sub-division. Besides the above seven miles of the Govindpore-Giridih and two of 3rd and 4th sections of the Jhapra-Govindpore road were improved by gravelling.

The bridges and culverts on all the roads in the sub-division and the bungalows at Govindpore and Rajgunj were kept in proper repair.

Village roads.—The only road under this head on which work was done is the one from Rajgunj to Nowagurh. This road was very much improved and extended towards the Ranchi road close to the Damuda river.

Cart serais.—The serais along the Grand Trunk Road were repaired and are in good condition.

Audit Certificate.

We hereby certify that the books and accounts specified below,* prescribed for the Road Cess office and for the office of the District Engineer, are duly kept up, and that they have been posted for the year 1890-91, and they have been duly scrutinized by the Sub-Committe.

Also that the treasury officer's abstract of the account of the Committee for the year has been duly received and checked with the cash and pass books, and found to agree therewith, except in respect of the amount of imprest in the hands of the Accountant which has been duly noted in the cash-book.

That the vouchers for the payments of the year have been cancelled that none but duly sanctioned expenditure has been incurred, and that in the case of original works the register of monthly expenditure shows clearly the amount of sanctioned estimates, the grant for the year, and generally that the work of the office has been performed with a due observance of the rules prescribed by Government.

Ram Doyal Mozumdar, Jadu Nath Bhuttacharge } Members of S. A. C.

H. W. Hill,
Vice-Chairman.

* Road Cess Office—(1) Cash-book; (2) Cash abstract book; (3) Register of monthly receipts and expenditure; (4) Account of deposits; (5) Account of advances.
District Engineer's Office—(I) Accounts, viz.—(1) Files of contract certificates; (2) Files of bills for purchases or purchase lists; (3) Files of day-books; (4) Files of establishment bills; (5) Files of aquittance rolls: (II) Books, viz.—(2) Register of bills passed; (3) Register of works and repairs; (4) Register of tools and plant; (6) Account of advances; (7) Account of deposits.

Explanatory Note.

1. The excess expenditure of Rs. 182-13-4 under head "Establishment and Contingencies of Office of Collection" is on account of the head-clerk's salary for March 1891, viz. Rs. 70 having been paid to him in advance owing to his leaving on privilege leave for three months, and the balance, (Rs. 112-13-4) is on account of cost of service of notices, &c., not recoverable under sections 72, 78, and 81 of the Cess Act IX (B.C.) of 1880.

2. The excess expenditure of Rs. 124-3-7 under head of "Percentage cost of establishment, &c.," is owing to payment made during the year for the year previous.

3. The excess expenditure in some of the items of "Repair works" is apparent, but not actual, as the budget provision is for the year under report, whereas the expenditure includes payment for works provided for in the previous year.

4. The contingent expenditure incurred by the District Engineer from April to December 1890 has been charged under head "Administration" according to the old practice, as there was no such provision in the budget under head "Public Works Establishment and Contingencies." In the revised budget, however, a sum of Rs. 43 was provided to meet the contingent expenditure of the District Engineer's office for January, February, and March 1891, but no expenditure for the purpose was incurred during the three months of the year.

Remarks by the Chairman.

I inspected the whole length of this road. The repair works were on the whole fairly well executed.

Annual Report on the Road Cess Operations for the year 1890-91.

1. *Chybassa-Bend road.*—A second class road, 73 miles in length, extends from Chybassa to Kopun nullah near Bend. In addition to repairs of a petty nature to the surface of the road and to the bridges and culverts, the low portions of the road near Bend have been raised. The dilapidated timber platform of the bridge about two miles to the west of Ghatsilla has been

I inspected the whole length of this road and found it in fair order.

R. H. RENNY,

The 16th April 1891.

I inspected nearly the whole length of this road and found it in good order.

R. H. RENNY,

The 16th April 1891.

I inspected the road. The portion up to the level crossing over the railway is in good order, but that from the crossing to Khursowan is nearly obliterated. A road from the crossing to the Amda Railway station is badly needed.

R. H. RENNY,

The 16th April 1891.

I inspected the road as far as Goilkera about 24 miles; it was in fair order.

R. H. RENNY,

The 16th April 1891.

I inspected the whole of this road and found it in good order.

R. H. RENNY,

The 16th April 1891.

I inspected the whole of this road and found it in good condition.

replaced by brick arches. Almost all portions up to Nursingurh that get very miry during the rains have been gravelled, the aggregate length of such gravelling being about 5 miles. There are two big streams, the Kharkai and the Subornarekha, which have been crossed by this road, and there are private ferries for passage of traffic across during the rains. The Gorura nullah crossings, of which there are two, have got no ferries, and during floods the traffic is discontinued. There are seven other minor unbridged steams in the 9th, 14th, 17th, 21st, 22nd, and 51st miles, and for want of funds the bridging of these could not be taken up.

Nursingurh-Bhairagora road.—This is a fifth class road which branches off from Nursingurh on the 56th mile of the Chybassa-Bond road and extends up to Bhairagora, a distance of 21 miles. The surface of the road and the timber culverts have been maintained. About a mile in length of road near Kokpara has been gravelled; very narrow places of the old road have been widened; jungle cutting and drain clearing have been done in many places.

Chybassa-Subornarekha River road—A third class road, 31 miles long, extends from Chybassa to the Subornarekha river. This road leads to Purulia. The road and the culverts have been maintained. The steep approaches to the Sunjoy river in the 20th mile have been eased. The portions that get miry during the rains have been gravelled, the aggregate length of such gravelling being over 4 miles.

The Subornarekha ghât improvement.—The more important and difficult portion of the work, namely rock cutting, has nearly been finished. The ghât on the south of the hill has been completed and is being used for traffic.

Chybassa-Khursowan road.—A fourth class road from Chybassa to Khursowan, a distance of 17 miles, of which the first 12 miles being in Kolhan is annually maintained from the Road Cess fund. In addition to maintaining the surface of the road and the culverts, clayey portions of the road of an aggregate length of about a mile have been gravelled. Since the opening of the Bengal-Nagpore Railway the road has became more important than before as it serves as a feeder road to the Amda station.

Chakradharpore-Koksinga road—Is a fourth class road, from Chakradharpore to Koksinga, a distance of 51 miles only, the first 18 miles of which is annually maintained. Low portions in the beginning of the road were raised, and rain damage repairs done in the beginning of the cold season.

Chybassa-Jyntgurh road—Is a second class road from Chybassa to Jyntgurh, a distance of 36 miles. The surface of the road has been maintained and the dilapidated timber culverts have been renewed. Heavy portions have mostly been gravelled, the total length of these being about 2 miles.

Village roads.—Of the village roads, the one from Chybassa to Katbari, a distance of 20 miles, has been improved. The surface has been repaired, and the clayey portions that become impassable for carts during the rains have been gravelled. The timber platforms of a few culverts have been replaced by brick arches.

EXPLANATION.

OF the amounts, Rs. 281-8-6 and Rs. 304-10, shown against head "Miscellaneous" both in the receipt and expenditure side in Part I of the annual accounts, Rs. 268, represents the sum received from one Sona Prodhan of Goilmoora for raising a portion of Chakradharpur-Kosinga road No. 6. The work, however, was subsequently ordered to be executed by the said Prodhan himself, and the amount thus received and credited in favour of the District Road Fund under head "Miscellaneous" in the cash-book was refunded to the said Sona Prodhan, debiting the same under the same head.

R. H. RENNY,
Chairman, District Road Cess Committee, Singbhoom.

No. 192R.C., dated Ranchi, the 30th September 1891.

From—COLONEL E. G. LILLINGSTON, Offg. Commissioner of the Chota Nagpore Division,
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to submit the accounts and reports of the several District Road Committees of this division for the year ending 31st March 1891 with the following remarks.

2 The number of meetings held by the District Road Committees varied from a minimum of three in Hazaribagh to a maximum of twelve in Manbhoom. In all districts except Lohardugga there were sufficient members present at each meeting to form a quorum. In Lohardugga alone in two meetings of the District Road Committee and in one of the Palamow Branch Committee there was no quorum. As in previous years the members residing in and about the head-quarters stations were more regular in their attendance than those living in the interior of the districts. The attendance of members was generally satisfactory, except in Lohardugga, where out of nine non-official members three attended only two meetings and two altogether failed to attend any meetings of the Committee.

In the Giridih Branch Committee out of five European members only one is reported to have taken any interest in the Committee's proceedings. This is much to be regretted.

3. During the past year the cess was levied in all the districts at the maximum rate. The opening balances, receipts, charges and closing balances of the several Road Committees during the past year are shown below—

	Hazaribagh.	Lohardugga.	Singbhoom.	Manbhoom.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.
Opening balance	29,134	14,864	6,270	23,461	73,729
Receipts	53,540	70,658	15,353	36,839	1.76,390
Total	82,674	85,522	21,623	60,300	2,50,119
Charges	62,971	61,098	17,742	49,497	1,91,308
Closing balances	19,703	24,424	3,881	10,803	58 811

It is satisfactory to observe that the closing balances are smaller than the opening balances in Hazaribagh, Manbhoom, and Singbhoom. In Lohardugga, however, they are larger than the closing balances of the previous year. The Road Committee of the last named district will be asked to see that these balances are reduced at the end of the current year to a quarter's demand of the year.

4. As might be expected owing to the extensive areas of the districts and the insufficiency of the funds at the disposal of the several Committees very little could be done under the head of Original Works, the bulk of the expenditure incurred being devoted to repairs and maintenance of the existing roads. In Hazaribagh the only original works undertaken during the year were the gravelling of the road between Gola and Dakagurha *vid* Dimra and the construction of a third class inspection bungalow at Murkatcho. In Lohardugga a masonry arched bridge of 16 feet span at the 46th mile of the Ranchi-Lohardugga road was constructed during the year, while the diversions at the Karak, Bora, and Baratpur bridges, which had been taken in hand in the previous year, were completed during the year.

In Manbhoom two short roads connecting the Purulia-Burrakur road with the stations of Adra and Anara on the Bengal-Nagpore Railway were constructed during the year.

In Singbhoom the only original works undertaken during the past five years consisted of the metalling of the heavy portions of the six roads noted on the margin and the improving of the Subornorekha ghât. The total expenditure incurred on original works in the several districts amounted to Rs. 18,843 against Rs. 1,00,396 spent on repairs, and Rs. 2,871 on petty construction and repairs. The following statement shows the amounts spent in the several districts on original works, repairs, and petty construction and repairs, the total cost of the engineering staff entertained and the percentage of this cost on the total amounts spent on works:—

1. Chybassa-Bend road.
2. Narsinghurh-Bhairagora road.
3. Chybassa-Subornorekha road.
4. Chybassa-Kursowan road.
5. Chybassa-Jaintighur road.
6. Chybassa-Katbari road

District.	Amount spent on original works.	Amount spent on repairs.	Amount spent on petty construction and repairs.	Total amount spent on works.	Total cost of Public Works establishment entertained.	Percentage of cost of establishment on the amounts spent on works.
	Rs.	Rs.	Rs.	Rs.	Rs.	
Hazaribagh	4,442	34 031	160	38,633	7,691	19·9
Lohardugga	3,713	31,266	1,069	36,047	9,218	25·5
Singbhoom	5,437	4,483	236	10,556	3,133	29·7
Manbhoom	4,851	30,617	1,406	36 874	7,262	19·7
Total ...	18,843	1,00,396	2,871	1,22,110	27,304	22·4

Considering the amount spent on works, the cost of the establishments entertained in Singbhoom and Lohardugga is very high, being about 29·7 and 25·5 per cent, respectively, of the amounts actually spent on works. The Road Committees of these two districts will be called on to see that much larger amounts are spent by them on works during the current year.

LAND SALE NOTICES.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates, or shares of estates, in the district of Dinagepore, will be put up for sale at the Collector's Office of that district on the 7th March 1893, for arrears of revenue and other demands which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 12th February, 1892 :—

No. 3 OF 1892.

A Bill to provide for the levy of a rate on private estates under the management of Government to meet the cost of superior supervision and management.

WHEREAS it is expedient to provide for the levy of a rate on private estates under the management of Government to cover the cost of all Government establishments in so far as they are employed in the supervision and management of such estates, other than establishments specially entertained for any particular estate or group of estates, and to meet all contingent expenditure incurred by Government in connection with such supervision and management; It is hereby enacted as follows:—

Title, extent and commencement.

1. (*1*) This Act may be called the Government Management of Private Estates Act, 1892.

(*2*) It extends to the whole of British India; and

(*3*) It shall come into force on the passing thereof.

Definitions.

2. In this Act, unless there is something repugnant in the subject or context,—

(*1*) "immovable property" includes land, buildings, hereditary allowances, rights to ways, lights, ferries, fisheries or any other benefit to arise out of land, and things attached to the earth or permanently fastened to anything which is attached to the earth, but not standing timber, growing crops or grass:

(*2*) "gross income" includes all receipts of every kind in produce or cash, except recoveries of principal and the sale-proceeds of immovable property:

(*3*) "private estates under Government management" include—

(*a*) estates under the Court of Wards;

(*b*) encumbered estates under Government management;

(*c*) estates attached for default of payment of Government revenue;

(*d*) minors' estates placed under the guardianship of an officer of Government by a Civil Court;

(*e*) estates managed by a Collector under section 323 or section 504, Civil Procedure Code; and XIV of 1882.

(*f*) all other estates made over to or taken under the management of an officer of Government as such, under any law for the time being in force or in virtue of any special agreement.

Power to levy rate.

3. It shall be lawful for the Local Government—

(*1*) to levy on all private estates under Government management a rate, not exceeding four per cent. on the gross income, calculated, as nearly as may be possible, to cover—

(*a*) the cost of all Government establishments in so far as they may be employed in the supervision or management of such estates, other

than establishments specially entertained for the supervision or management of any particular estate or group of estates, and

(*b*) all contingent expenditure incurred in consequence of such supervision or management;

(*2*) from time to time to vary such rate; and

(*3*) to reduce or remit such rate in any special case or cases as may be equitable.

Power to levy special fees.

4. It shall be lawful for the Local Government —

(*1*) to prescribe and levy, irrespective of the said rate, on all or any of the said estates, special fees for legal advice and for the audit of accounts, when such advice is given or such audit is made by an officer or department of Government; or

(*2*) include the charges for such advice or audit in the said rate.

Saving of special establishments, &c.

5. Nothing in this Act shall apply to the cost of establishments specially entertained or to expenditure of any description specially incurred in respect of any particular estate or estates.

Validation of levy of past rates.

6. All rates for general supervision or management levied by any Local Government before the commencement of this Act shall be deemed to have been levied under this Act.

Power to make rules.

7. The Local Government may make any rules and issue any orders which may be necessary for carrying this Act into effect.

Exemption from jurisdiction of Civil Courts.

8. Where any Government establishment is employed in such supervision as aforesaid, the Local Government shall be the sole judge of the cost attributable to such employment, and its decision thereon shall not be questioned in any Court of law or otherwise. [Cf. Act XV of 1887, s. 58.]

STATEMENT OF OBJECTS AND REASONS.

IN several provinces a general rate is already levied on estates under the Court of Wards, and is credited to Government to meet the estimated cost of supervision and management by Government officers. It is desirable to place the legality of these rates beyond doubt, and at the same time to limit their amount. It has been decided that other Local Governments should be empowered to levy similar rates, and that the rates should be leviable on all estates under Government management, and not merely on those under the Court of Wards.

Power has been given to the Local Governments to reduce or remit the rate in special cases. This provision is designed especially to meet cases in which Government officials are relieved of the supervision and management by the employment of special general managers.

Under section 4 of the Bill it is open to Local Governments either to charge special fees for legal advice and audit of accounts, where these services are rendered by Government officials, or to debit the contribution for these services to the general rate.

PHIL. P. HUTCHINS.

AUSTRALIA—POLLARD CHANNEL—CAPE BOWLING GREEN.

What the channel approach and shoal off the cape are composed of.

THE Port Master, Brisbane, has given notice (No. 1 of 1892) that the "Erlangen Patch" in the Pollard Channel consists of coral and is about 550 yards in diameter. It rises abruptly from deep water and can be seen a short distance off when the sun is in a favourable position.

The least water found on it is 9 feet at low-water springs.

It lies in following position :—

Summit N.E. Cookburn Island	...	...	...	N. 28° W.
Summit North Home Island		...	...	S. 64° W.
Summit N. Sir Charles Hardy Island			...	N. 78° E.
Latitude	...	...	...	11° 55½′ S.
Longitude	...	...	...	143° 19′ E.

The same officer reports that the shoal off Cape Bowling Green is 1½ miles long, lying in a N. W. and S. E. direction, and about 1½ cables wide. The shoal is composed of sand and is steep to. The depth over it at low-water springs is 3 fathoms with from 9 to 11 fathoms close to.

Vessels should not approach Cape Bowling Green within a distance of 5 miles.

From its N.W. end Cape Bowling Green Light-house bears S. 69° W , distant 3$\frac{4}{10}$ miles.

From its S. E. end Cape Bowling Green Light-house bears S. 89° W., distant 4$\frac{9}{10}$ miles.

All bearings are magn. tic.

Foul ground in channel between Labuan and Kuraman.

WITH reference to Notice to Mariners No. 64, dated 6th April 1891, issued by this office, the British Admiralty has given further notice (No. 1 of 1892) that an examination of the channel between Labuan and Kuraman has recently been made by Commander A. M. Field H.M. Surveying vessel *Egeria*, with the result that the rocks and foul ground southward of Kiamaan point have been found to extend about a quarter of a mile further into the channel than previously charted; also, that shoal water was found upwards of 3 cables from the north-eastern point of Kuraman.

Mariners are therefore warned that the channel between Labuan and Kuraman should not be used, pending a thorough survey of the locality.

Flashing light on Gomiga saki Okusiri.

THE British Admiralty has given notice (No. 4 of 1892) that on 1st December 1891 a light would be exhibited from a light-house recently erected on Gomiga saki, the northern point of Okusiri:—

Gomiga saki light is a *flashing white* light, showing a flash *every fifteen seconds*, visible through an arc of 266°, or between the bearings of N. 83° E. through south, and N. 6° W. It is elevated 150 feet above the sea, and should be seen in clear weather from a distance of 18 miles.

The illuminating apparatus is of the third order.

The light-house, 60 feet in height, is an iron framework structure, with a circular shaft in the middle, painted black and white in horizontal bands.

Approximate position: lat. 42° 14′ 40″ N., long. 139° 33′ 10″ E.

AUSTRALIA—NORTH COAST.

TORRES STRAIT—PRINCE OF WALES CHANNEL.

Reported sunken reef in western approach.

THE British Admiralty has given notice (No. 5 of 1892) that Mr. F. Jardine reports having passed over a reef of small extent, with apparently a depth of not more than 6 feet on it, at low water, lying in a position estimated to be about 5 miles W. by N. from Quoin point, Goode island, Prince of Wales channel.

Approximate position to be considered doubtful, lat. 10° 33′ S., long. 142 4½′ E.

NOTE.—Soon after passing the reef, the course steered being southerly, the Government Residency on Thursday island was seen to open southward of Quoin point. Mariners are therefore warned that, when in the vicinity of this danger, the Residency on Thursday island should be kept well open southward of Quoin point, and that great caution should be exercised.

AUSTRALIA—TERN ISLET.

Reef extending north-east of the islet.

THE British Admiralty has given notice (No. 13 of 1892) that a reef, which dries 3 feet in places at low water spring tides, extends about three quarters of a mile N.E. by N. from Tern islet. The outer extreme of the reef lies with Shadwell peak bearing S. 65° W., distant 2 miles, and X reef beacon N. 10° W.

Approximate position: lat. 10° 59′ S.; long. 142° 46½′ E.

NOTE.—By keeping Remarkable Red cliffs point (near Deft hill) just open of No. II point, bearing S. by E., a vessel will pass about half a mile seaward of Tern islet reef.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF JANUARY 1892.

1. The most noticeable feature of the weather during the past month has been the absence of rainfall in all districts; the only falls occurring in Behar and the Darjeeling Hill Tracts, where, however, they rarely exceeded a tenth of an inch—a small fraction of what is usually received in January.

2. In consequence of the continued absence of cloudy weather, temperature has been above the normal, especially during the third week, when both night and day readings were about 5° in excess. In the early part of the month minimum readings were generally a little below the normal in the northern districts, and about 3° below in Orissa and South-West Bengal, and again there was a similar arrangement after the period of warm weather about the middle of the month.

3. Humidity differed very little from the normal, as taken from the 8 A.M. readings, but cloud proportion is low in all districts.

4. These abnormal conditions as to rainfall and temperature have not been due to the absence of barometric depressions, as three of these approached the province during the month, but though pressure was considerably in defect at the time, their influence in the higher reaches of the atmosphere seems to have been much less than usual.

At the end of December a rather rapid fall of pressure set in at the western stations, and continuing for about two days caused defect of more than a tenth of an inch in the western districts. Southerly winds began in Lower Bengal, but the effect of the disturbance which disappeared before the centre reached Bengal, was apparent only in the wind circulation and increasing temperature. On the 1st of January pressure was again rising, and by the 2nd, northerly winds recommenced. After this ordinary cold weather conditions prevailed till the 9th, with small oscillations of pressure, but on the 9th another disturbance in North-Western India began to affect the pressure and temperature distribution in Bengal, the former falling by a tenth of an inch and the latter rising several degrees. As before, fine clear weather continued with increasing humidity and a tendency to southerly winds. The depression was, however, not so short-lived as the previous one, and moving in an easterly direction reached Bengal about the 11th, when passing near Berhampore it moved slowly over the province, the recovery of pressure not occurring till the 14th. While southerly winds were blowing, the air near the surface of the earth was warm and moist, but the sky continued almost cloudless, and no rain was reported except a few drops at Kalimpong. On the 14th pressure was below the normal by amounts varying from ·15 inch to ·2 inch. The depression then began to fill up, the rise on the 15th being moderate in the southern districts, and continuing more rapidly on the following day. From this date winds became northerly, temperature fell rapidly, and ordinary cold weather prevailed for some days. From the 16th to the 19th, northerly or north-westerly winds prevailed, humidity and temperature were both low, and the sky absolutely cloudless. On the 20th the third depression of the month began to affect weather in Bengal, but it was then far to the north-west, and as happened in the beginning of the month, it filled up before it reached the western districts of the province. It was only on the 23rd and 24th that its influence was marked, in the cloudy sky and light rainfall, in Behar; but from the 22nd temperature and humidity rose, and wind directions were east or south-east. The districts where light rain fell were Shahabad, Gya, and Patna on both the 23rd and 24th. On the latter of these two days pressure was falling in North and Central Bengal, but though temperature and humidity continued high, there was no apparent depression, and no more rain fell except a few showers in the Darjeeling Hills on the 29th. Pressure then began to rise, and continued till the 29th, the resulting distribution being between a twentieth and a tenth of an inch above the normal. Temperature, however, continued high, and excess in some places amounted to 7°. During the last week, North Behar received on an average about a tenth of the normal rainfall, and South Behar about a third, while the average excess of temperature for the whole province was very little under 4°.

Pressure—Differed very little from the normal during the first ten days of January, the average for this period being a few thousandths of an inch above the normal, except in the extreme north where there was a very slight defect. During the following week readings were generally a tenth of an inch below, and the largest average defect was ·126 inch at Dinagepore and ·118 inch at Berhampore, while at some of the eastern and southern stations defect was little over ·05 inch. After the filling up of the depression about the middle of the month, there was a rapid rise resulting in a moderate excess for the week ending on the 23rd and this excess continued or slowly increased to about a tenth of an inch till the end of the month.

Temperature—Has been high during the greater part of the month, especially during the day. In the first part of the month minimum readings were generally one or two degrees below the normal, but as there was a considerable excess during the day, the means were only slightly in defect, except in Orissa. During the second week unusually warm weather prevailed, and means were in some cases more than 5° above the normal. After the depression filled up, night readings were again below the normal, but towards the end of the month there was again a large excess, especially in the hill districts where previously there had been comparatively low temperatures. The means for the whole month are above the normal by amounts varying between 1·3° in Assam and about 3° in Chutia Nagpur and South Behar.

The actual oscillations and variations of temperature from the normal for the month are given in the following table, where the variations from the normal of the average maximum, minimum and mean temperatures at nine typical stations in different districts are given :—

* Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last [illegible] years. The [illegible] atmosphere is expressed as percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers [illegible] the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station for the period in question during the [illegible] stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 13th of February 1892.

Explanation.—.... indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 16th February* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 13TH OF FEBRUARY 1892.

AT the close of the previous week the meteorological conditions in Bengal were particularly abnormal. The mean temperature of February 5th reported on the morning of the 6th had been no less than from 6° to 9° above the normal of the day, humidity was also very high on the 6th, pressure was below the normal by amounts varying from a twentieth to a tenth of an inch, and more or less southerly winds had set in at almost all stations On the 7th there had been a brisk fall of pressure over the whole province, and pressure had become below the normal by amounts varying up to about a sixth of an inch. Temperature, on the other hand, had risen moderately, and southerly winds continued to be reported at practically all stations. On the 8th pressure was rising slowly, and temperature also again rose at the majority of stations. The distribution of pressure on this day was, however, decidedly irregular, and the barometer was distinctly low over Central and North Bengal; north-westerly winds set in at the western stations, while southerly and south-easterly winds were blowing over the eastern half of the province. Considerable interaction was therefore taking place, and this resulted in the formation of a series of small local storms usually accompanied by rain, and on the morning of the 9th a large proportion of the stations in East and North Bengal and a few stations in North Behar reported light to moderate rain. These disturbed conditions, however, quickly passed away from Bengal, and pressure had increased on the morning of the 9th, while a brisk fall of temperature had occurred, though again the majority of stations reported southerly winds. On the 10th both pressure and temperature had fallen slowly in Bengal, but more important meteorological changes had taken place in North-Western India, where a barometric depression had appeared over the western desert. On the 11th this depression had become more marked, and was apparently travelling in an easterly direction, and in advance of the depression moderate general rain commenced to fall, but on the 11th only a few light showers were reported, principally in Chutia Nagpur, though a few other local showers occurred elsewhere. On the 11th the pressure changes in Bengal were exceedingly small, but temperature had again commenced to rise rather rapidly in front of the advancing depression, and was again from about 7° to 10° above the normal. On the 12th pressure was rising slowly over the greater part of Bengal, though at the extreme western stations in Chutia Nagpur it had commenced to fall, apparently being influenced by the advancing depression, which was reported on this date to have developed very considerably in intensity. Wind directions in the western districts of the province also appeared to form the eastern part of a cyclonic circulation, though in the eastern half of the province winds were north-westerly. Fairly general rain commenced in Chutia Nagpur on the 12th, and rain also was reported on this day in Sonthal Pergunnahs, Shahabad, and Gya. On the 13th the barometric depression had advanced in an easterly direction, and its centre was near Agra and Jhansi, and it was still a considerable storm. In Bengal pressure fell moderately in connection with the advancing depression, and temperature was generally rising slowly, while rainfall had on this day extended over a considerable part of Behar, though it was very light and perhaps not very general. Conditions therefore at the close of the week were entirely dependent on the depression in the North Western Provinces.

Pressure.—The mean pressure for the week has been below the normal in all districts, but the variations have been decidedly irregular, pointing to the existence of disturbed conditions generally. The largest defects have been about 0·06″ at some of the central stations of the province, such as at Berhampore, Bankura, &c., while on the other hand at the stations in the south of Chutia Nagpur pressure has been almost normal.

Temperature.—Has again been exceptionally high throughout the week, and the mean temperature has been more than six degrees in excess of the normal. This excess has been fairly equally distributed (except in Orissa where it is only 3°), though in Behar and North Bengal it exceeds 7°.

The variation of temperature is, however, most clearly seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the province are compared with the normal values for the same period. The excess, it will be seen, has been even larger in the night than it has been in the day temperatures:—

Rainfall.—The heaviest falls during the week have taken place in East Bengal, where an average amount of 0·50 inch has been recorded, while Chutia Nagpur also averages 0·44 inch. In South Behar an average fall of 0·15 inch has been registered, but in all other divisions the average falls have been less than a tenth of an inch. The districts which have received the largest falls have been Dacca 0·83 inch, Furreedpore 0·76 inch, Commillah 0·36 inch, Gya 0·35 inch, Shahabad 0·33 inch, Mymensingh 0·78 inch, Lohardugga 0·49 inch, Darjeeling and Manbhoom 0·15 inch, Chumparun 0·13 inch, Julpiguri and Cooch Behar 0·12 inch, and Sarun 0·11 inch.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 13th of February 1892 :—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

≏, dew; –, fog; o, overcast.

Increase.

Grains—

(4) Others ... 13

Due to greater import of rohur, khesaree and barbatty, owing to high market rate.

Provisions—

(3) Others ... 40

Due to import of potatoes.

Sugar—

(1) Drained ... 11

There being no traffic under this head last year.

Decrease.

Coal ... 797

Due to no brick-burning coal imported this year in the month of December 1891.

Grains—

(2) Rice ... 257

Due to less export owing to short crops this year.

(3) Gram ... 21

Exported by steamer plying between Jeaganj and Calcutta.

Jute—

(1) Raw ... 150

Owing to less demand.

Oil-seeds—

(2) Mustard and rape ... 48

Owing to less demand.

Railway plant and rolling-stock ... 50

Due to renewals of permanent-way materials being stopped.

Salt ... 16

Less imported into intermediate stations.

Silk, raw—

(2) Indian ... 37

This is due partly to failure of cocoons this year, and partly to despatch of silk by steamer plying between Jeaganj and Calcutta.

Sugar—

(2) Undrained ... 37

Due to less demand.

IRRIGATION.

REVISED WATER-RATE RULES FOR THE MIDNAPORE CANAL.

Notification No. 62, *dated the* 16*th February* 1892.

In exercise of the powers conferred on him by sections 99 and 78 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to make the following rules and to fix the undermentioned rates to be charged for water supplied from the Midnapore Canal. These rules and rates will supersede those now in force.

J. M. MCNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

1. The officers of the Public Works Department, who have charge of the canal, are solely responsible for maintaining it in an efficient state of repair, for providing drainage channels where necessary, and generally for all engineering work involved in its management, as well as for the distribution of water to lessees. The word "canal" is here used as defined in section 3 of the Act.

2. The Deputy Revenue Superintendent, under the supervision of the Collector of the district as Revenue Superintendent, is responsible for the collection of water-rates and miscellaneous revenue accruing to Government from the canal.

3. Water shall not be distributed otherwise than on the application of a lessee, or of a ryot in whose favour a provisional requisition has been issued, as provided for in Rule 21 below. Such application may be made verbally or in writing to any Public Works Department officer in charge of that part of the canal from which water is required.

4. If any lessee apply for water to the Deputy Revenue Superintendent, or one of his subordinates verbally, he should be told to address himself to the officers of the Public Works Department. If he makes such an application in writing, his petition shall be forwarded direct by the canal revenue officer, to whom it is addressed, to the Public Works Department officer in charge of that part of the canal from which the petitioner's village is supplied.

5. The canal officers of the Public Works Department, in consultation with the Deputy Revenue Superintendent, shall map out the irrigable area into blocks in accordance with the natural features of the ground, and so determined that the whole block shall be irrigable from one outlet, or from one set of outlets. So far as may be practicable, the blocks shall be separated by drainage lines.

6. Each block determined as above shall be numbered and recorded with its irrigable area in registers to be maintained by the Public Works officers and by the Deputy Revenue Superintendent. The blocks shall also be marked on maps to be maintained by the same officers.

7. Leases for not more than five years may be granted for the whole irrigable area of a block, or, subject to the provisions of Rule 14, for definite parts of a block, under the following conditions:—

I.—The lease may be for the lands of one or more villages, but ordinarily the whole irrigable area of any village, so far as situated within the block must be included in the lease.

II.—All leases within one block shall be granted so that they shall expire on the same date.

III.—In order to equalise the areas to be dealt with in each year, the date of expiry of the leases in each block shall be determined by the Public Works officers in consultation with the Deputy Revenue Superintendent, so that one-fifth of the total area usually irrigated may fall out of lease in each year.

Explanation.

A	blocks	commence	1892	...	...	...	Expire 1897.
B	,,	,,	1893	...	...	...	,, 1898.
C	,,	,,	1894	...	...	...	,, 1899.
D	,,	,,	1895	...	...	...	,, 1900.
E	,,	,,	1896	...	...	...	,, 1901.

Then, should a lease in a B block expire in 1892, a lease for one year must be given. Similarly, a lease in a B block expiring in 1894 must be renewed for four years only. It may, however, be possible in cases like the latter to arrange by mutual consent to cancel the existing and unexpired leases in B blocks in 1893, and then to renew for the full term of five years.

8. The rates to be charged for water supplied between June and November, whether by flow or lift, to lessees on application shall be—

For a term of five years—Rs. 1-8 per acre for each season.

Provided that the leases, whether new or renewals, required for shorter terms in order to develop the system of blocks as explained above shall, on the first occasion, be offered at the above rate.

Subject to the above provision, the rates shall be—

	Rs.	A.	P.	
For a term of four years	1	12	0	per acre per season.
,, ,, of three ,, ...	2	0	0	,, ,,
,, ,, of two ,, ...	2	4	0	,, ,,
For one season	2	8	0	,, ,,

Explanation.

An existing lease in a D block expires in 1892. The lessees will be offered a renewal for three years at Rs. 1-8 per acre per season. They decline this, and do not renew till 1893. They can then only get a lease for two years at Rs. 2-4 per acre per season. Similarly, an application for a new lease in a C block is received in 1892. A lease for two years at Rs. 1-8 per acre may be given; but should an application for a new lease in a C block be received in 1895, a lease for four years at Rs. 1-12 per acre will be granted.

9. For the supply of water, when available, for winter crops, a rate of Rs. 1-8 per acre per season shall be charged.

10. For the unauthorized use of canal water a rate of Rs. 5 per acre, or such less rate as may be fixed by the Collector, shall be charged.

11. Applications for water-leases under section 74 of the Act should be presented to the zilladar of the division in which the applicant's land lies, and, subject to Rules 12, 13, 14, 15, and 16 below, zilladars are authorized to grant such leases.

12. No village shall be brought under lease for the first time, and no lease shall be renewed for a period exceeding one year, without the consent in writing of the Executive Engineer. Such consent in writing may be taken specially for a single village, or generally for specified tracts including several villages.

13. Every application for a water-lease shall contain the following particulars:—

1.—Name and residence of applicant.

2.—Name of pergunnah, mehal, and village in which the land to be irrigated is situated.

3.—Total area for the irrigation of which the application is made and its boundaries, and if the lands to be irrigated lie in separate *chaks*, the name of each *chak*.

4.—Names of the ryots whose lands are to be irrigated, and the quantity of land held by each.

5.—Name of the canal and number of distributary from which water is required.

6.—Signatures of the applicants.

14. No application for a water-lease shall be entertained when the supply of water must of necessity be delivered across an unleased area, unless a village-channel exists, which, in the opinion of the Executive Engineer, will deliver water without waste across the unleased area.

15. Without the permission of the Collector, no application shall include lands belonging to more than one village, but *tehsilalaids* or other lands lying within the village boundary at the time of survey may be included.

16. Without special orders in writing from the Deputy Revenue Superintendent, no application for a water-lease shall be received unless it includes all the irrigable lands in a village.

17. When a water-lease is granted, a *kabuliyat* shall be taken in a form approved by Government, and a "permit" shall be given to the lessee or lessees in a form similar to that prescribed in Schedule C of the Act.

18. On the issue of a "permit" as above, of which the zilladar shall keep a duplicate, he shall forward a copy of the *kabuliyat* to the Deputy Revenue Superintendent for recordr and at the same time he shall forward to the Executive Engineer or Sub-divisional Officer direct a requisition requesting him to supply water to the lessee on application. This requisition shall be kept by the officers of the Public Works Department till January 1st next following, and shall then be returned to the Deputy Revenue Superintendent. On the back should be noted the several dates on which the village was supplied with water. A fresh requisition should be issued on or before June 1st, and returned on or before January 1st, each year, till the lease expires.

19. When application for a lease is received from a village not previously leased, the zilladar, before granting a lease, shall satisfy himself by comparison with the survey records, as well as by local enquiry, that the particulars given in the application are correct. For the purpose of comparison with the survey record, the application should be sent through the Deputy Superintendent to the Collector. The zilladar should also satisfy himself that the Executive Engineer's consent, as required by Rule 12, has been obtained.

20. When application is made for the renewal of an expired lease, the zilladar, before granting a new lease, shall satisfy himself by comparison with his register of *kabuliyats* that the particulars given in the application are correct.

21. Pending the result of the enquiries provided for in the last rules, the zilladar may, at his discretion, issue a provisional requisition for the supply of water to the area covered by the application.

22. When it comes to the knowledge of the Public Works Department officers in charge of the canal that canal water has been taken without authority, notice shall be sent to the Deputy Revenue Superintendent, accompanied by the following particulars :—

1.—Name of village and pergunnah.

2.—Number of distributary from which water has been illicitly obtained.

3.—Manner in which water has been taken.

4.—Abstract of evidence that water has been taken.

A separate notice should be sent for each village irrigated without authority.

23. On receipt of such a notice, the Deputy Revenue Superintendent, after such enquiry as may be necessary, and after hearing any objection which may be raised, shall proceed to assess, at the rate provided in Rule 10, the land irrigated without authority. If in any case he thinks that this rate should not be imposed, he shall report the matter to the Collector for orders.

24. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted, or used for the irrigation of lands not under lease, it shall be competent for the Deputy Revenue Superintendent, on the application of the Executive Engineer, and with the approval of the Collector, to cancel the lease.

25. The rates for water supplied from June to November shall, in each season, fall due on the 1st February following. The rates for water supplied for winter crops shall fall due on the 1st April following.

26. Water-rates imposed under Rule 10, on account of lands irrigated without authority, fall due as soon as the assessment is made, and shall be realized at once.

27. Remission of water-rates, either in whole or part, as the case may require, shall be granted by the Collector for—

1.—Injury to the crop on a leased area caused by deficient supply of water.

2.—Errors in the assessment of rates.

28. The Collector may grant remissions of water-rates, either in whole or part, for injury to the crops on leased areas caused by excess of water due to deficient drainage.

29. The Collector may commute rates charged under Rule 10 to those chargeable for water supplied on application, provided that a lease either for a term of years or for the season has been subsequently executed for the lands in question.

30. Remissions on other grounds than the above require the sanction of Government.

31. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy, or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Collector.

32. Before awarding compensation under section 16 of the Act, or making a reference under section 17 of the Act, the Collector shall obtain the written opinion of the Executive Engineer in charge of the canal, and his written opinion shall form part of the record of the proceedings.

33. The Collector may distribute amongst village *mookhyas*, who agree in writing to assist the Deputy Superintendent in collecting water-rates, and generally in his operations under Act III (B.C.) of 1876, a commission calculated in such manner as he may think fit, provided the total amount paid shall not exceed 6 pies in the rupee on the total water-rates collected during the year. If the payments thus made to *mookhyas* do not amount to 6 pies in the rupee on the total water-rates of any year, the Collector may expend the balance in paying extra collecting establishment.

34. Registers shall be kept in the Deputy Superintendent's and zilladar's offices in forms sanctioned by Government.

35. A copy of the Collector's decision in all cases of remission, and of the Magistrate's decision in all cases of proceedings under section 93 or 94 of the Act, shall be forwarded to the Executive Engineer for information and record in his office.

IRRIGATION.

REVISED WATER-RATE RULES FOR THE ORISSA CANALS.

Notification No. 56, *dated the* 9*th February* 1892.

IN exercise of the powers conferred on him by sections 99 and 78 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to make the following rules and to fix the undermentioned rates to be charged for water supplied from the Orissa Canals. These rules and rates will supersede those now in force.

J. M. McNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

General conditions.

Compensation under section 76 (c).

(1) The Collector, before awarding compensation under section 16 or section 76 (*c*), or making a reference under section 17 of the Irrigation Act [Act III (B.C.) of 1876] shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.

No appeal from order of Canal Officer.

(2) Except as provided in the Irrigation Act and in these rules, no appeal shall lie from any order passed by a Canal Officer, but the Sub divisional and Divisional Canal Officers shall modify any order passed by them on the receipt of definite instruction to that effect from the Divisional or Superintending Canal Officers respectively.

Appeals to Collector.

(3) Appeals to the Collector under section 91 of the Irrigation Act, other than those specially provided for in Rule 49, will ordinarily be against an order passed by the Divisional Canal Officer. When the order passed has reference to the alignment of a village channel, or, to the refusal of the Divisional Canal Officer to grant a lease under schedule I, II or III, the Collector may require the Superintending Canal Officer to state his opinion in writing, and this opinion shall form part of the record of the proceedings in the case.

On village channels.

Canal Officer to assist.

(4) Canal Officers shall give every assistance to applicant in aligning and laying out any village channels which they may desire to construct.

Register of village channels.

(5) A register of all village channels shall be maintained by the Divisional Canal Officer in such form as the Superintending Canal Officer may direct.

On the free irrigation of chaukidars' jaghirs.

Chaukidars' jaghirs.

(6) The chaukidar of any village in which lands are leased under schedule I, II, III or IV shall be entitled to a remission of the water-rates chargeable on account of lands included in his jaghir and in any leased area on the condition that he gives efficient and willing assistance to the Canal Officers in respect to the following matters:—

(*a*) In the preparation of applications for leases.
(*b*) In the measurements of irrigated lands.
(*c*) In giving the names of the occupiers of the various fields.
(*d*) By receiving the demand statement, making it over to one of the principal raiyats in the village, and informing the cultivators that he has done so.
(*e*) By receiving "tippas" from the Canal Officers and distributing them.
(*f*) By reporting cases of unauthorized irrigation which may come to his notice.
(*g*) By being present when any local inquiry is made by a Canal Officer and by giving information concerning the matter under investigation.
(*h*) By reporting to the Collector any mutations in the holdings of persons who have signed a lease under schedule I or II that may come to his knowledge.

On the "lease unit" system.

(7) The area commanded by each distributary which is not fully provided with village channels shall be portioned out by the Divisional Canal Officer into any convenient number of tracts, or group of villages to be called "lease units." The boundary of each of these "lease units" shall be so determined that the land lying within it can be conveniently irrigated from the same outlet or from any convenient group of outlets. The "lease units" shall be approved by the Superintending Canal Officer.

Distributary lease units.

(8) The area in each "lease unit" shall be divided by the Canal Officer into three classes.

Classification of villages in "lease units."

(*a*) Lands which, being situated in immediate contact with a canal or distributary, can be irrigated by direct flow from outlets in it.

(*b*) Lands which are provided with village channels properly constructed and maintained in good order by the owners of the channels.

(*c*) Lands which, not being provided with proper village channels, and being remote from the canal or distributary, can only be irrigated by flow through fields intervening between them and the distributary.

(9) The Canal Officer shall keep in his office a plan showing the "lease units" of each distributary. Each "lease unit" shall be separately numbered and registered in a book which shall show:—

Record of "lease units."

Its area;
The number and size of outlets provided for it;
The names of the villages in it;
The class (*a*, *b*, or *c*,) of each area;
The date when the leases in it terminate

(10) The boundaries of, or the classification of the tracts in any "lease unit" may at any time be amended by the Divisional Canal Officer with the previous sanction of the Superintending Canal Officer. On receipt of such sanction the Divisional Canal Officer shall amend his plans and registers.

Amendment of "lease units."

(11) The lease first granted in any "lease unit" must be for five years.

(12) No lease shall be granted to any class (*c*) village until all the class (*a*) villages in the "lease unit" have been leased, and until the villages lying between it and the class (*a*) villages of that "lease unit" (if any) have also been leased.

Leases of class (*c*) villages.

(13) Leases granted for a term of years to any or all of the villages situated in the same "lease unit" shall terminate at the same time as the lease first granted in that "lease unit."

Leases to terminate simultaneously.

(14) Provided that, for four years after the date of these rules, the lessees of lands in any "lease unit" in which the class (*a*) villages have been leased for five years, shall, when their leases expire, be offered the opportunity of extending them for such a term of years as will cause them to expire simultaneously with those of the class (*a*) villages of that "lease unit" and they may be extended at the rate of Re. 1-8 per acre. If, however, the lessees decline to renew them on these conditions, within one month of their expiry, they shall not be permitted to renew them subsequently except at the rates given in schedule II.

Exceptions with reference to present leases

(15) Class (*a*) and class (*b*) villages shall be eligible to obtain leases under all the five schedules attached to these rules. Class (*c*) villages shall only be eligible for leases under schedules II and III.

Schedule of Rates.

On applications for the supply of water during the kharif season.

(16) Applications for the supply of water in the kharif season will be granted:—

Kharif applications of three kinds.

(1) For a term of years (schedules I and II).
(2) For one season only (schedule III).
(3) After the 1st of September from an outlet of a defined size (schedule VI).

(17) Applications for the supply of water for a term of years shall be subject to the following conditions:—

I. Notice in the attached form (Appendix I) must ordinarily be given to the Subdivisional Canal Officer by the cultivators of a village not later than the 1st April if they require water for irrigation for a term of years to have effect from the 15th of June following. Applications presented after the 1st April will be accepted so far as may be possible, having regard to the measurements, &c., which are necessary before the grant of permits. Those presented between 1st April and 1st May will, if accepted, be liable, at the discretion of the Divisional Canal Officer, to an additional rate of 4 annas per acre for the first year of the lease, and those presented between the 1st May and 1st June will be similarly liable to an additional rate of 8 annas per acre. In either case the additional rate shall be payable at the same time as the first instalment of the ordinary rates due on the lease. On presentation of this notice the Canal Officer shall inspect the block which it is proposed to lease, and, if he approves of it, shall proceed to prepare the final application (Appendix III).

Notice that lease is required.

II. The application shall not be entertained unless it refers to a distinct block of land of which the boundaries are defined. The block must (in all but very exceptional cases) include all the irrigable lands of a village which are, or have been, cultivated with rice. If the block of land offered for lease has included within its boundaries:—

Applications to include all rice lands in village.

(*a*) High lands not irrigable by flow, or—

(*b*) "Beali" lands for which canal water is not ordinarily required, or—.

(*c*) "Low lands" which cannot ordinarily benefit by canal water,

these lands may be excluded from the final application. But water cannot in that case be supplied to such lands during the currency of the lease except on an application for an annual lease (schedule III).

III. The application must be in the form attached to these rules (Appendix III), which states that water-rates will be paid on all lands contained in the block for which the application is presented whether water is required or not, and that the applicants will arrange for the transit of the water from the distributary to all the fields of the block to be leased, and give due notice to the Canal Officer of any changes in their holdings.

Payment to be made for area leased.

IV. The lands contained within the defined boundaries must be measured (or the area ascertained from the cadastral survey map) by the Canal Officer or his subordinates, and the application must be completely signed by all the cultivators holding lands in the block, or the applicants must bind themselves to be jointly responsible for the water-rates due on such block before a permit for the supply of water shall ordinarily be granted. Provided that if water is required to be supplied before this can be done, a preliminary application in the form Appendix II must be submitted before the 1st of September instead of the notice referred to in Rule I. This form binds the applicants to pay at the rate of Rs. 3 for each acre of their holdings if they fail to complete the lease for a term of years before the 30th of November of the year in which water is required. The Superintending Canal Officer may, if special circumstances appear to him to justify it, alter this date to the 1st of February next following. A permit which has been granted on this preliminary application will be cancelled as soon as the final application (Appendix III) has been completely signed by all the cultivators holding lands in the block. A permit for a term of years will then be issued.

Lease must be complete before water is supplied.

If not, annual lease must be executed.

No leases granted after 1st of September.

V. When under the "lease unit" system described in Rules 7 to 15 inclusive, a portion of a village falls in one "lease unit" and the remainder in another "unit" a separate application must be signed for each portion of the village.

VI. No additions to the area covered by a lease duly executed for a term of years shall, as a rule, be permitted. But when the irrigable area which is under rice cultivation in a village is increased (owing to improvements in distribution or to the actual extension of cultivation or to any other cause), an application may be made for a separate lease for a term of years for such increased area. If the application is approved by the Canal Officer, a permit shall be granted for a term of years such that the lease will terminate at the same time as the one previously granted in the same village. The water-rates chargeable on such a lease shall be those defined in schedule II.

No extension of lease during its currency.

(18) Applications for water for one kharif season only shall be subject to the following conditions:—

I. The application must be for a block of land having well-defined boundaries, and so situated that adjoining or intervening lands will not ordinarily or probably be irrigated by water supplied for the land included in the application. The block must be situated either—

Annual leases.

(1) In immediate contact with a canal or distributary, so that it can be irrigated without a village channel by direct flow therefrom, or

(2) it must be provided with a proper village channel, or

(3) it must be situated in immediate contact with a village leased under schedules I and II, so that it can obtain a supply through the fields of that village.

II. The application must be in the form (Appendix IV) attached to these rules, which states that water-rates will be paid on all lands contained in the block for which an application is presented whether water is required or not, and that the applicants will arrange for the transit of the water from the distributary to all the fields in the block which they desire to irrigate.

No leases granted after 1st September.

III. Applications for leases under schedule III must be submitted before the 1st of September.

Water supplied after 1st September.

(19) Applications for the supply of water after the 1st of September from an outlet of a defined size shall be subject to the following conditions:—

I. Outlets in a canal or distributary bank may, at the discretion of the Subdivisional Canal Officer, be leased from the 1st September until the 15th November at the rates enumerated in schedule VI, care being taken not to lease any outlet unless a head of not less than six inches on the outlet is available.

Outlets leased

II. Persons occupying lands not under lease may apply for water to be delivered to them after the 1st of September for the current kharif season in the form (Appendix V)

attached to these rules. The application shall not be entertained unless it is accompanied by a sum in cash equal to half the amount chargeable for the size of the outlet at the rates defined in schedule VI, and by an agreement executed by substantial persons in the form attached to Appendix V binding themselves to pay the remainder.

Lessee of outlet allowed free use of water.

III. The person to whom a permit for the use of an outlet is granted shall be allowed the free use of all the water he can obtain from that outlet without reference to the area irrigated.

On applications for the supply of water during the rabi and hot-weather seasons.

(20) Applications for the supply of water in the rabi season (15th November to 30th April) and in the hot-weather season (1st May to 15th June) will be subject to the following conditions:—

Water-rates paid in area watered.

I. The approximate area of land for which water is required must be stated in the application, which must be signed by all the occupiers of the land. The application must be in the form (Appendix VI) attached, which states that water-rates will be paid on the area actually irrigated.

Canal closures.

II. That water cannot be supplied during the hot-weather season when the canals are closed. Notice of the duration of such closures will be given before the commencement of the season.

(21) It shall be the duty of the patrol to enter in his khudkar every field which is irrigated in the rabi and hot-weather seasons.

Water of tanks.

(22) Water for filling tanks may be supplied at the discretion of the Canal Officer at the rates given in schedule VII. The charge for the water shall be paid in advance for such a quantity of water as the Canal Officer may consider necessary to fill the tank. The Canal Officer shall see that the outlet is opened for a sufficient time to give the quantity which is paid for.

On permits.

Grounds for refusing permit.

(23) A permit shall not be issued when, in the opinion of the Canal Officer—

(i) waste is likely to occur.

(In the order refusing a permit on this ground the Canal Officer shall state in writing the manner in which he apprehends that waste will occur)

(ii) The area for which water is required cannot be irrigated without passing canal water through, over or into, unleased areas.

(24) All permits for the use of water shall be subject to the following conditions:—

Lessees to arrange for distribution.

I. That where there are no village channels the applicants will make their own arrangements for the transit of the water from the canal or distributary to the leased area.

No bunds allowed.

II. That the water will be supplied at the level at which it is ordinarily maintained in the distributary, and that no earthen bunds or other works will be used to raise the level of the water in the distributary.

Canal Officer to regulate.

III. That the regulation of the discharge of the outlets will be entirely in the hands of the Canal Officer and his subordinates.

Regular payment.

IV. That water-rates are paid when due.

Waste to be prevented.

V. That the applicants will not permit waste of water.

Water restricted to leased area.

VI. That water supplied for the irrigation of a leased block of land in a village shall not be applied to any other lands in that village.

Leased block to be distinct.

VII. That land to be irrigated on kharif leases (schedules I, II and III) must form a compact block defined by well-marked boundaries of such a nature as clearly to separate the leased lands from the neighbouring unleased ones. The boundaries must be mentioned in the application.

Excluded lands.

VIII. That when high lands, "beali" lands, or low lands, which cannot ordinarily benefit by canal water, are, under Rule 17, II, excluded from a lease for a term of years, a schedule of such lands shall be attached to the application, the numbers of the fields on the cadastral map being stated in the schedule; or if there is not a cadastral survey map of the village, the Canal Officer shall attach a rough map to the lease showing the excluded area.

Power to cancel lease.

(25) If all the persons who have signed a lease under schedule I or II submit an application for the lease to be cancelled, the superintending Canal Officer may cancel it if he considers the reasons given are sufficient.

Annual permits.

(26) Permits for irrigation for a single kharif season under schedule III (annual leases) shall be subject to the same general conditions; the essential difference being in the duration of the lease and in the fact that a permit may be issued for any well-defined block and not necessarily for the whole irrigable land in the village which is cultivated with rice. "Beali" lands and low-lying lands cannot be excluded from annual leases if they are situated within the boundaries defined in the application.

Rabi permits.

(27) Permits for irrigation in the rabi or in the hot weather under schedules IV and V shall be issued on the following conditions:—

I.—That the applicants will give notice to the Canal Officer, or his subordinates, as soon as the area requiring irrigation has received a sufficient supply of water.

II.—That the applicants will undertake, as far as is practicable, to prevent water being wasted or applied to the irrigation of fields not included in the application.

III.—Water-rates will be levied on the areas actually irrigated and not on those specified in the application.

On penalties and the cancelling of leases.

(28) At the request of the Collector of the district, the Superintending Canal Officer shall direct the Divisional Canal Officer to—

Irrigation to be stopped where water-rates are not paid.

I. Decline to renew leases (*i.e.*, to issue permits) for the irrigation of land in villages where there have been constant difficulties in realising water-rates. In such cases permits shall not be again issued until all the arrears of water-rates due are paid up; and also, if specially required, by the Collector not unless half the amount due for the first ensuing season is paid up in advance. An order under this rule (unless the Collector in the meantime apply for its being rescinded or modified) shall be in force for the time stated therein, which shall not exceed three years.

Lease may be cancelled where water-rates are not paid.

II. Cancel any lease under schedule I or II, if, on the 1st of June of any year, the water-rates due on such lease are in arrear by more than half a year's demand.

Lease to be cancelled when water misused.

(29) The Divisional Canal Officer may, with the concurrence of the Collector and the sanction of the Superintending Canal Officer, cancel a lease under schedule I or II if water is habitually misused or wasted. Such an order shall have effect from the 15th June next ensuing, and at least two months' notice must be given to the cultivators.

Interests of others to be considered in cancelling leases.

(30) The Superintending Canal Officer in issuing orders under Rules 28 and 29 shall bear in mind the circumstances affecting "lease units" as described in Rules 7 to 15, and shall not cancel a lease if it is necessary that it should remain in force in order that water may be supplied to other leased areas.

On Unauthorised Irrigation and Waste of Water.

Rate for unauthorised irrigation.

(31) Water-rates for unauthorised irrigation shall be assessed by the Canal Officer under section 78 of the Irrigation Act at rates not exceeding Rs. 5 an acre.

Two classes of unauthorised irrigation.

(32) Unauthorised irrigation during the kharif season consists of two classes—

(i) Unauthorised irrigation within the boundaries of a leased area.

(ii) Unauthorised irrigation effected with water taken either from a leased area or from a canal, distributary or village channel.

(i) Within a leased block.

(33) Unauthorised irrigation of the first class shall, during the kharif season, only be assessed when the land irrigated has been entered in the schedule of lands excluded from the lease; and then only when:—

(*a*) The irrigation has been recorded in the patrol's shudkar.

(*b*) The patrol and sectional officer report that there are signs that the water has been deliberately taken and that the crops have benefited.

(*c*) The reports of the patrol and sectional officer have been received by the Sub-divisional Canal Officer within 10 days after the date on which the illicit irrigation was detected.

(ii) Beyond a leased block.

(34) Unauthorised irrigation in the kharif season of the second class shall only be assessed when the same three conditions (*a*), (*b*) and (*c*) have been complied with, and further—

(*d*) When the assessment of the area irrigated has been authorised by the Divisional Canal Officer.

(35) It shall be the duty of the Subdivisional Canal Officer to deal promptly with cases of unauthorised irrigation. He shall personally inspect as many cases as he can, and shall not make any assessment himself, nor ask the Divisional Canal Officer to sanction any assessment, unless the evidence has been recorded and he considers it quite satisfactory.

(36) When in the first case, the Subdivisional Canal Officer has determined that an assessment of unauthorised irrigation in the kharif season shall be made; or when the Divisional Canal Officer has authorised such an assessment, the Canal Officer shall *at once* send, by post or otherwise, a slip *(a tippa) to each cultivator, informing him of the fact and quoting the approximate area, as detailed in the patrol's shudkar, which has been recorded as irrigated. At the same time he shall send an amin to measure the fields which have been irrigated and to prepare the demand statement therefor.

Notice of assessment to be sent.

(37) Demand statements of unauthorised irrigation during the kharif season should be served in the village immediately they are prepared, and in no case later than the 30th November.

Demand statements to be promptly issued.

(38) Unauthorised irrigation in the rabi season or in the hot-weather season shall be assessed by the Canal Officer on the evidence of the patrol and sectional officer. The Canal Officer should personally inspect as many cases as he can. A notice that an assessment will be made should be served on the cultivators as soon as an assessment is ordered, as provided in Rule 33, the procedure of which should be generally followed (*mutatis mutandis*).

Unauthorised irrigation in rabi season.

(39) Charges for waste of water under section 80 of the Irrigation Act shall be at the rates fixed in Rule 31, and be subject to the same conditions as the assessments of unauthorised irrigation which are stated in the foregoing rules. When a tank or piece of low ground has been deliberately filled, a charge of Rs. 5 per thousand cubic yards may, at the discretion of the Canal Officer, be imposed instead of an acreage rate.

Waste of water.

On demand statements.

(40) Statements showing the amounts due on account of water-rates shall be prepared in such form as may be sanctioned from time to time by the Lieutenant-Governor, under the supervision of the Subdivisional Canal Officer, and shall be signed by him and by the Divisional Canal Officer. They shall then be forwarded to the Collector for the realisation of the demands.

Demand statements

(41) The demand statement showing the water-rates due on any lease given under schedules I and II shall be prepared at the same time as the application. A copy of it shall be given to the patwari or to the chaukidar of the village for the general information of the villagers. A separate statement or tippa signed and sealed by the zilladar may also, if the Collector so direct, be prepared in the name of each person who has signed the lease, showing the annual sum which is due from him. These tippas may be given to the patwari or chaukidar to distribute or may be sent by post. No further notice of demand shall be given during the currency of the lease.

For long leases prepared once for all. A copy sent to chaukidar.

And tippas to each ryot.

(42) A demand statement showing the water-rates under a lease for a single kharif season (schedule III) shall be prepared as soon as possible after the lease is granted and not later than two months after the issue of the permit. The statement shall show the amount due from each person who has signed the lease, whether irrigation has been effected or not. A copy of it shall be given to the patwari or to the chaukidar of the village for public information, and separate tippas showing the demands against each individual may also be sent as in the previous rule. No further notice of demand shall be given.

Similar procedure for annual kharif leases.

(43) The assessments and issue of demands on account of lands irrigated in the rabi season or in the hot-weather season shall be made under the following procedure:—

Demand statements for rabi and hot weather shall be for

I. The area which is actually irrigated in any village shall be measured, or ascertained by means of the cadastral map, by an amin with the assistance of the patrol. The khasrah, which shall be in a printed form, shall be signed by the amin and by at least two respectable cultivators. If any of the lessees desire to have a copy of the khasrah, he shall be allowed to copy it.

The area actually irrigated.

II. When the measurement is completed, the khasrah shall be forwarded to the Subdivisional Canal Officer, who shall prepare a demand statement with all reasonable despatch. A copy of this statement shall be sent to the patwari or to the chaukidar for public information in the village, and a tippa may be sent as in rules 41 and 42 above to each person whose fields have been irrigated.

Demand statement sent to chaukidar. Tippas to cultivators.

(44) Demand statements on account of unauthorised irrigation shall be dealt with generally in the same manner as those of the rabi season, but with greater promptness. The demand statement in such cases shall be printed on red paper to draw attention to the fact that the demand is payable at sight. The demand statements sent to the patwari or to the chaukidar and the tippas sent to the cultivators shall also be on red paper.

Demand for unauthorised irrigation. Payable at sight.

* A "tippa" is the same thing as the "percha" of the Sone Canal Rules.

Objections to demands to be made to Canal Officer.

(45) Persons who may wish to raise any objections to the demands made against them must present a written statement of their case to the Subdivisional Canal Officer, who, after such local or other enquiry as he may think necessary, shall pass orders on the matter. A copy of the order if not passed in his presence and hearing shall be delivered by post or otherwise to the person who raised the objection.

Objections made to Collector to be referred to Canal Officer.

(46) All objections to demands on account of water-rates which relate to the supply of water and the assessment of water-rates and are addressed to the Collector shall be referred for the orders of the Divisional Canal Officer.

Objections to be made within thirty days.

(47) Objections to the demand statements must be presented within thirty days of the date on which the demand statement was given to the patwari or to the chaukidar of the village, or of the date on which the tippa was delivered to the person objecting. This period may be extended when reasonable cause for delay can be established.

Prescribed form for objections.

(48) The objection should ordinarily be stated in a form which will be sold for one pice at all Canal Offices, giving instructions as to the particulars required to admit of the objection being readily investigated; but any form may be accepted at the discretion of the Collector or canal officer provided it clearly states the name or names of the persons objecting, the crop and the year for which the charge is made, the demand from each cultivator to which objection is taken, and the name of the village in which the land is situated. *Provided* that no objection shall be received which refers to more than one "lease-unit," and that all or any of the raiyats in one "lease-unit" may join in one objection.

Appeals to lie to the Collector.

(49) Any person who is not satisfied with the order passed by the Subdivisional Canal Officer under Rule 45 may file an application of appeal to the Collector under section 91 of the Irrigation Act. Such application must be accompanied by a copy of the order appealed against. The Collector shall thereupon, after considering the records of the case, pass such order as he may think fit, and may meanwhile suspend collections by a written order if he thinks proper to do so.

Appeal against order of Deputy Collector.

(50) The Collector may, by a special order passed in each case, refer applications under rule 49 to any Deputy Collector for report or disposal. An appeal against an order passed by a Deputy Collector under this rule may be preferred, within thirty days, by either the applicant or the Divisional Canal Officer.

Procedure when an appeal is made to the Collector.

(51) When any person appeals to the Collector against an order passed by a Subdivisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record thereon any remarks he may think fit. The papers shall not be detained by him for the purpose of making further enquiries, but the Collector may, on the suggestion of the Divisional Canal Officer, or of his own motion, direct that such enquiries shall be made.

Mutations of names.

(52) Reports of, and applications for mutations of names in leases under schedules I and II shall be made to the Collector or to any officer authorised by him to receive and dispose of them. If addressed to any Canal Officer, they shall be referred to the Collector for disposal.

on the payment of water-rates.

(53) Water-rates assessed under sections 78, 79, and 80 of the Irrigation Act shall be due on the following dates:—

I. Leases for the kharif season for a term of years (schedules I and II)—

In one instalment on the ... ... 1st March.

Note.—The demand statements will be sent to the Collector as soon as the lease is complete as provided in Rule 41. Annual demand statements are not necessary.

II. Annual leases.

(*a*) Leases for a single kharif season (schedule III)—

In one instalment on the ... ... 1st March.

Note.—The demand statements for the water-rates due on these leases shall be submitted to the Collector as soon as the application is complete (see Rule 42).

(*b*) Leases during the rabi season (schedule IV)—In one instalment on the 1st August (except for sugarcane).

(*c*) Leases during the hot-weather season (schedule V) for sugarcane. The demand for the irrigation of sugarcane for both the rabi and hot-weather seasons shall be paid in one instalment on the 1st of April after the crop is cut.

Note.—The demand statements for these two classes of leases shall be submitted to the Collector fifteen days, if possible, before the water-rates are due, but accuracy in the charges is of more importance than a rigid adherence to dates.

III. For water supplied for kharif crops after the 1st of September to lands which are not under lease (schedule VI)—

First moiety	...	... Before the outlet is opened.
Second ,,	...	... 1st March.

Note.—The first moiety shall be paid to the Subdivisional Canal Officer, the second to the Collector A demand statement shall be forwarded to the Collector as soon as the lease has been granted.

IV. Water supplied for filling tanks (schedule VII)—Shall be paid to the Subdivisional Canal Officer in one instalment—before the outlet is opened.

V. Unauthorised irrigation and waste.

Assessments under sections 79 and 80 of the Irrigation Act. } On receipt of the demand statement by the Collector.

(54) The water-rates shall be paid on or before the dates when they fall due as detailed in the previous paragraph.

Contractor for water-rates.

(55) At the joint written request of all the cultivators signing the application and of a person who shall be termed the contractor, a lease for a term of years may be granted under which the said contractor shall collect and pay to Government the entire sum due annually on the said application. In such a case the form of application shall be altered as prescribed in the footnote of Appendix III. A contractor shall be entitled to receive a commission of 15 per cent. on the amount paid to the Collector.

To be approved by Collector.

(56) No person shall be accepted as contractor under rule 54 except with the written consent of the Collector to his nomination. The Collector may require the contractor to give security for the execution of the agreement. The contractor must be either the zamindar or the farmer of the *entire* village. No person who is the zemindar or farmer of only a portion of the village, less than sixteen annas, shall be accepted as contractor.

Powers of contractors to collect.

(57) Contractors shall be entitled to collect water-rates from the cultivators who have signed the application and from their successors in interest in the land included therein, at the rates fixed by the Lieutenant-Governor under section 78 of the Act. Every sum due from a cultivator to a contractor on account of water-rates under rule 54 shall be deemed to be a sum due to Government under sections 82 and 85 of the Irrigation Act.

Contractor's payments when due.

(58) The sum due from the contractor shall be paid to the Collector, either by instalments or in one sum, before the 31st of March.

Resignation of contractor.

(59) A contractor may resign his interest in a lease on giving to the Collector, before the 1st of October, a written notice of his intention to do so.

Canal Officer may appoint approved contractor.

(60) If, after the completion of a lease under schedule I or II a contractor, as described in rule 55, comes forward, and is willing to undertake to collect the entire sum due from any village on account of water-rates, the Canal Officer, subject to the approval of the Collector, may appoint him to the office under a proper agreement under section 82 of the Act.

Any person paying entire demand may claim 15 per cent.

(61) If, at any time, the cultivators of a village under lease pay to the Collector through any one person nominated by themselves, the entire sum due on their lease, on or before the date on which the water-rates are due, a refund of 15 per cent. of the amount so paid shall be made at the time of payment to such person.

On Remission.

Gauge of discharges.

(62) The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of failure of supply.

Remission for failure of supply.

(63) Claims to remission of water-rates under section 76 (*b*) shall be made to the Subdivisional Canal Officer. Such claims shall only be admitted on proof of actual loss caused by failure or stoppage of supply. On proof of such loss, due to such failure or stoppage as described in section 76 (*b*), the Divisional Canal Officer shall remit the whole or any part of the rates. All Applications for remission of water-rates shall be made in the manner provided in rule 45 within 15 days after the occurrence of such failure or stoppage.

Compensation.

(64) Before awarding compensation under section 76 (*c*), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings.

Remissions by Superintending Canal Officer.

(65) The Collector or the Superintending Canal Officer, acting under the general instructions which he may from time to time receive from Government, may, in special cases, remit the whole or part of the water-rates due to Government. Such remissions shall be classed as "extraordinary" and shall be a matter of grace only. Remissions under this head

will ordinarily be made on the representation of Collectors or of Divisional Canal Officers only No person shall be entitled to receive an order on an application for remissions contemplated by this rule.

(66) A remission statement signed by the Superintending or Divisional Canal Officer shall be sufficient authority for a refund by the Collector.

Authority for remission.

On collections and alteration of Demand Statements.

(67) Collections of all water-rates shall be made by the Collector in accordance with the demand statements furnished to him by the Divisional Canal Officer.

Collections.

(68) The Collector may make any alterations in a demand statement provided that the total sum due is not altered or provided that an error in account only is corrected. When such alterations are made in a demand statement referring to a lease under schedule I or II, a memorandum of the alteration shall be sent to the Divisional Canal Officer.

Alterations in demand.

(69) In cases when water-rates cannot be collected owing to the death, bankruptcy or absconding of the defaulter, the amount which cannot be recovered may be written off as irrecoverable on the authority of the Collector. A detailed list of sums written off under this rule shall be sent to the Divisional Canal Officer.

Power of Collector to write off.

(70) In all cases other than those stated, the sanction of the Commissioner of the Division must be obtained before any sum can be written off as irrecoverable.

Power of Commissioner.

On the supply of water.

(71) The Subdivisional Canal Officer shall, as a rule, sign all permits himself. He may, however, authorise any fit person to sign them if he considers it necessary. No water shall be supplied until a permit has been signed and issued.

Permits.

(72) The Canal Officer shall be responsible that the supply given through any outlet or group of outlets is in accordance with the permits and suitable to the area and nature of the soil which is under lease.

Outlets suitable to leased area.

(73) It shall be the duty of the patrol to :—

Patrol's duties.

(i) Report immediately all cases in which he finds that canal water is flowing beyond the limits of a block leased for irrigation in the kharif season, unless the water is passing into another leased block.

(ii) Inspect the lands (entered in schedule B,) which have been excluded from a lease under schedule I or II, and to shudkar the fields if they have been irrigated without authority.

Shudkar of unauthorised irrigation.

Note.—The patrol shall not shudkar ordinary irrigation in the kharif season. He has only to do with "Beali" or "Low-lying" fields or unauthorised irrigation beyond the leased area.

(iii) Shudkar unauthorised irrigation and make an immediate report to the Sectional Officer and zilladar.

Report to zilladar.

(iv) Shudkar all fields irrigated in the rabi or in the hot-weather seasons.

Shudkar of rabi and hot-weather.

(74) The Divisional Canal Officer may close outlets in rotation as he may consider necessary. But if the lessees require water, such closure shall not, in the kharif season, exceed five days after ten days of consecutive supply.

Tatsil of outlets.

(75) The Subdivisional Canal Officer shall have authority to :—

(i) Stop the supply of water to any canal or distributary in a case of pressing emergency.

Stoppage of supply.

Note.—But, if the supply is stopped, the fact shall be at once reported to the Divisional Canal Officer, and if the stoppage exceeds five days in duration, the report shall be forwarded to the Superintending Canal Officer.

(ii) Stop the supply to any village channel under section 76 (*a*) of the Irrigation Act, when he is satisfied that the channel is not maintained in proper repair. A record shall be kept of all orders passed under this rule.

APPENDIX I.

This form of notice will not ordinarily be accepted later than the 1st April for any lease which it proposed to make in the year then current.

Form of notice that a permit for a term of years is required.

Mouzah , pergunnah , distributary

We, whose names are attached, give notice that we wish to apply for a lease for a term of years for a block of land containing all the irrigable rice lands in our village. We request that the block may be inspected; that the necessary measurements may be made; and that the form of application, which has to be signed by all the cultivators of the block, may be prepared. We have ascertained that all the cultivators in the block are willing to enter into the lease.

Signatures of five or six principal cultivators ...

Note.—No permit will be granted on this notice.

APPENDIX II.

Note.—No application in this form will be received after the 1st of September for any lease which it is proposed to make in the year then current.

Preliminary application for a lease for a term of years.

Mouzah , pergunnah , distributary

1. We, whose names are attached, hereby apply for water to be supplied from the above-mentioned distributary for the irrigation of our rice-fields from the 15th of June until the 15th of November in each of the following years: —

*189	corresponding to 129
189	129
189	129
189	129
189	129

We are aware that the rate applicable to this term of years is Rs.———for each acre leased.

2. The area to be irrigated by each of us is approximately stated in the schedule below. The area which we desire to irrigate forms a compact block, having the following boundaries:—

North.—
South.—
East.—
West.—

All the cultivators of this block desire to conclude a lease for the period named above.

3. We undertake to arrange for the transit of the water from the distributary to all the fields in the block which we desire to lease either by the construction of a suitable channel or by arrangement with the occupiers of intervening leased fields. Failure on our part to get the water to any field or fields will not entitle us as a matter of right to claim exemption from payment of water-rate due on such field or fields.

4. We will prevent, as far as possible, the waste of the water supplied to us and its use in an unauthorised manner by other cultivators.

5. We request that the areas of our holdings may be checked and the lease for the term of years specified above may be prepared. We agree to sign the lease for the entire block defined above as soon as it is presented to us.

6. We make this application under section 74 of Act III (B.C.) of 1876 and the rules issued under it, more especially rules 17, 24, 28, 29, 41, 61, 62, 70, 73, 74. We agree to abide by these and by all rules passed under the Act.

7. Should the lease for which we now apply not be completely signed by all the cultivators in the block before the 30th of November next, or should the lease not be accepted by the Canal Officer, we agree to pay at the rate of Rs. 3 for each acre of our holdings within the block as found by actual measurement. *Provided* that if the delay in the completion of the lease be due to any cause beyond our control, the rate to be charged shall be that specified in clause 1 of this application. We agree to pay the sum due from each of us whether we require water during the season or not.

* Under the "lease unit" system (rules 7 to 15) a lease may be, under certain circumstances, for less than five years.

8. We agree to pay the water-rates due on this application in one instalment on or before the 1st of February.

Name of cultivator.	Area to be irrigated.	Signature of cultivator.	REMARKS.

Note.—A permit may be granted on this application by the Subdivisional Officer only

APPENDIX III.

Form of final application for a lease for a term of years.

Mouzah , pergunnah , distributary

1. We, whose names are attached, apply for water to be supplied from the distributary for the irrigation of our block of rice-fields from the 15th June until the 15th November in each of the following years :—

* 189 corresponding to 129
189 129
189 129
189 129
189 129

The area to be irrigated has the following boundaries :—

North.—
South.—
East.—
West.—

2. The area to be irrigated by each of us is stated in the schedule following, marked A Each of us agrees to pay water-rates on the area recorded against his name at the rate of Rs.— per acre. We will pay the sums due from us independently of our requiring water in any particular year or not.

3. We desire that the lands entered in the schedule marked B, lying within the boundaries of the block (which are either unirrigable lands, "Beali" lands, or low-lying lands, which will not ordinarily benefit by canal water) may be excluded from irrigation and assessment. Should we require irrigation for such lands, we agree to make a separate application for the particular season when we require the water.

4. We undertake to arrange for the transit of the water from the distributary to all the fields in the block which we desire to lease either by the construction of suitable channels or by arrangement with the occupiers of intervening leased fields. Failure on our part to get the water to any field or fields will not entitle us as a matter of right to claim exemption from payment of water-rate due on such field or fields.

5. We will prevent, as far as possible, the waste of the water supplied to us and its use in an unauthorised manner by other cultivators.

6. We make this application under section 74 of Act III (B. C.) of 1876 and the rules issued under it, more especially rules 17, 24, 28, 29, 41, 61, 62, 70, 73, 74. We agree to abide by these and by all rules passed under the above Act.

7. We agree to pay the water-rates due from us in one instalment on or before the 1st of February, and to give due notice to the Canal Officer of any changes in the holdings included in this application.

8. We are aware that if a permit is granted to us it is liable to be cancelled under rules 28 and 29—

(i) If on the 1st of June of any year, more than one-half of the aggregate water-rates ue on this application are unpaid.

(ii) If water supplied for irrigating the block of land included in the application is habitually wasted or misused.

9. (If all the applicants have not signed.) We who have signed this application further bind ourselves to be jointly responsible for the payment of the water-rates due on the block from those who have not yet signed this application, should they fail to do so in due time, as required by the rules.

SCHEDULE A.

Name of cultivator.	Area to be irrigated.	Signature or mark of cultivator.	Signature of witness to cultivator's signature.

* Under the "lease unit" system (rules 7 to 15) a lease may be, under certain circumstances, for less than five years.

SCHEDULE B.

Name of cultivator.	Number of fields.	Class of land.	Area of land to be excluded from irrigation and assessment.	Signature.

Note.—A permit will not be granted for any lease for a term of years until an application in this form has been signed by all the occupiers of the land included in the block. If this application is not complete by the 15th June, an application either in Form Appendix II or Form Appendix IV must be submitted if water is required during the year then current.

Note.—When a contractor undertakes the collection of all the water-rates due on this application the following shall be inserted above schedule A :—

"9. We desire under rule — that —— —— —— —— shall be appointed contractor. We agree to pay water-rates to him as they become due so long as he is authorised by proper authority to collect them. Should the contractor resign or be removed, we engage to pay water-rates to the Collector or to any person authorised by him to receive the amounts due from us."

The contractor shall sign the following agreement which shall be added to the lease :—

"I agree to become contractor under rules —— —— for the collection of the entire sum due under this application in consideration of being permitted to deduct Rs. 15 per centum from the total amount due on the lease. I undertake to pay to the Collector the whole amount due to Government on or before the 15th of March following the dates when the water-rates are due from the cultivators; should I default the Collector shall be at liberty to realise from me the said amount in terms of Section 85 of Act III (B.C.) of 1876. I will myself take the risk of any default in payment by the cultivators."

Note.—The agreement with a contractor needs an eight-anna court-fee stamp.

APPENDIX IV.

Note.—No application in this form will be received after the 1st September for water to be supplied during the season then current.

Application for a lease during a single khárif season.

Mouzah pergunnah distributary

1. We, whose names are attached, apply for water to be supplied from the * 15th June to the 15th of November for the irrigation of the block of land formed by our holdings.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

The 18th February 1892.—It is hereby notified for general information that the Lieutenant-Governor has been pleased to make the following rules under clauses (*g*), (*l*) and (*m*), section 138 of the Bengal Local Self-Government Act, III (B.C.) of 1885, in supersession of all rules now in force under the aforesaid provisions of the law :—

PART IX.

Qualifications of Candidates for employment as District Engineers, Overseers, Sub-Overseers and Accountants.

1. A candidate for first employment as District Engineer must be qualified in one of the manners following, that is to say, he must—

(*a*) be at the time of seeking the employment, or have previously been, a member of the Public Works Department in the grade of Executive or Assistant Engineer or Sub-Engineer or Supervisor ;

(*b*) hold the degree of Bachelor of Engineering or be a Licentiate of Engineering of the Calcutta University, or have passed the final examination of the Civil Engineering College at Sibpur, and in any case have been employed on engineering works in a grade corresponding to the grade in the Public Works Department mentioned above for not less than five years, and holds satisfactory certificates of good conduct and efficiency during such employment ; and in either case

(*c*) hold a certificate from the Chief Engineer of the Public Works Department of the Government of Bengal that his experience, professional attainments, and knowledge of the native language are such as to qualify him for employment as a District Engineer, such certificate having been granted within five years from the time when he seeks such employment.

2. A candidate for employment on the Subordinate Engineering Staff of the District Engineer must be qualified in one of the manners following, that is to say—

(1) if the pay of the appointment is Rs. 60 per mensem, or more, he must hold—

(*a*) a certificate from the Principal of the Government Engineering College at Sibpur that he has served his apprenticeship there, and passed the final examination, qualifying him for employment in the Public Works Department as a foreman-mechanic or an upper subordinate ; and

(*b*) a certificate from the Chief Engineer, given within five years from the time of making his application, that he has been examined and found to possess the knowledge prescribed in the Public Works Department Code, Volume I, Chapter II, Section 27 (*fifth edition*), and is qualified to be an upper subordinate of the Public Works Department ;

(2) if the pay of the appointment is less than Rs. 60 per mensem, he must hold—

(*a*) a certificate from the Principal of the Government Engineering College at Sibpur that he has passed the annual examination hold at the end of the second year of the course for mechanical apprentices, and that he possesses the qualifications required of a Sub-Overseer in the Public Works Department ; and

(*b*) a certificate of fitness from the Inspector of Local Works or Superintending Engineer : provided that an employé thus engaged cannot rise to an appointment, the pay of which is Rs. 60 or more, unless he obtains the certificates mentioned under 2 (1)*a* and 2 (1)*b*.

3. Candidates for employment as Accountants in the office of the District Board or of the District Engineer must hold a certificate that they have passed the examination prescribed in the Public Works Department Code, Volume I, Appendix C, paragraph 18 (*fifth edition*).

4. All candidates for employment as District Engineer or as subordinates on the staff of a District Engineer must produce a certificate from a Civil Surgeon that they are physically fit for their out-door duties, and from the Magistrate of the district that they are able to ride.

5. Candidates for employment as District Engineer or as subordinates on the staff of a District Engineer who already hold similar appointments in other districts need not bring evidence of the qualifications specified in Rules 1 and 2, but should produce a certificate of approved service—

in the case of a District Engineer—

from the Chairman of the District Board and the Commissioner of the Division under whom he is employed;

in the case of a subordinate—

from the Chairman of the District Board under whom he is employed.

Procedure to be adopted in the appointment of District Engineers.

6. When a District Engineer intends to resign his appointment, he shall give the District Board three months' notice of his intention, and similarly when it is intended in accordance with the provisions of section 32 (*g*) of the Act to discharge a District Engineer, the District Board shall give him three months' notice of such intention.

7. When notice is thus given or received that the appointment of District Engineer is about to become vacant, a meeting of the District Board shall be held for the purpose of fixing the salary of the new incumbent of the office, and a copy of the Resolution of the Board shall be submitted to the Commissioner for confirmation.

8. On receipt of the confirmation of the Commissioner, the Chairman of the District Board shall forthwith publish an advertisement in the *Calcutta Gazette* and in such other newspapers as the District Board shall decide, inviting candidates to submit applications for the vacant appointment. This advertisement should be published for at least six weeks and should notify the salary attached to the appointment, the rules prescribing the qualifications required of candidates, and the date on which the applications are to be submitted.

9. All applications from intending candidates shall be submitted in sealed and registered covers addressed to the Chairman of the District Board, and superscribed "Application for appointment of District Engineer." Each application must be accompanied by all the necessary certificates and testimonials required by the preceding rules, together with a suitable envelope addressed and sufficiently stamped for registration in which they can be returned in the event of the application being unsuccessful.

10. As soon as possible after the date fixed for the submission of the applications, a meeting of the District Board shall be held for their consideration. The Chairman shall open the applications in the presence of the District Board, who shall thereupon proceed to make their selection.

11. On the selection being made, a resolution to that effect shall be recorded, and a copy thereof forwarded, together with the original application, certificates, and testimonials of the selected candidate, to the Commissioner for confirmation.

12. If the nomination be confirmed by the Commissioner, the Chairman of the District Board shall notify to the successful candidate that he is appointed District Engineer, and instruct him as to the date on which he is to take up his appointment and begin his duties.

13. If the nomination be not confirmed by the Commissioner, the Chairman shall call a meeting of the District Board to reconsider it and make another selection from among the remaining candidates. The procedure laid down in Rule 13 shall then be repeated.

14. When the appointment has been finally settled, and the successful candidate has joined and entered upon his duties, the Chairman shall return the certificates and testimonials of the several candidates.

15. In the event of the appointment of District Engineer becoming vacant suddenly, by death or otherwise, without the notice prescribed in Rule 8, the Chairman of the District Board may make arrangements for the temporary performance of the duties of the office till the new District Engineer shall be appointed in accordance with the preceding rules.

16. The procedure prescribed in the above rules [7 to 15] need not be adopted in the event of a District Board determining, with the approval of the Lieutenant-Governor, to appoint an officer of the Public Works Department of the Government of Bengal to be its District Engineer. In such cases a meeting of the District Board shall be held for the purpose of making the appointment, and on the appointment being made, a resolution to that effect shall be recorded, and a copy thereof forwarded to the Commissioner for confirmation.

Duties and powers of District Engineers.

17. The District Engineer will be the officer in immediate charge of all the roads and buildings and other public works, the control of which is vested in a District or Local Board. He will arrange the details of their construction and be responsible for their custody and maintenance in efficient repair so far as the funds placed at his disposal permit. He will keep accurate plans of the land appertaining to all roads and buildings in his charge, and take prompt steps to prevent encroachments.

18. The District Engineer will receive positive orders only from the Chairman of the District Board. The duty of yielding implicit obedience to any orders so received must be clearly understood; but in the interpretation of general instructions he will act upon his own judgment.

19. The subordinate engineering staff of a District or a Local Board will be under the immediate orders and control of the District Engineer, and all orders to them with reference to work should emanate from, or be issued through, the District Engineer. But in cases where the District Board consider it desirable, and subject to the Commissioner's sanction, a subordinate may be placed temporarily or permanently under the orders of the Chairman, Local Board, his work being subject to inspection, check, and report by the District Engineer.

20. The District Engineer will be responsible for the accuracy of all reports, plans, designs, specifications, and estimates prepared by him, and must attest them by his signature.

21. The District Engineer will pay strict attention to the economical application of all labour and materials used on works in his charge, and will be responsible for preventing the expenditure on any work exceeding the amount of the sanctioned estimate. He should also strive to bring economically into use, on all occasions, the articles procurable in the local markets and the natural products of the district.

22. The District Engineer must exact from his subordinates a correct performance of their duties and give them all proper instructions. He will furnish them with proper working drawings and written instructions as to the execution of any works they may be entrusted with, using additional precautions to prevent errors or accidents at a distance from the head-quarters of the district.

23. The District Engineer will frequently inspect outlying roads and works in progress, and see that the work carried on by his subordinates or contractors is sound and economical. When on tour he will keep a journal in which the distances travelled will be noted. A copy of the journal will be forwarded monthly to the Inspector of Local Works, whose duty it will be to bring any shortcomings or defective arrangements to the notice of the Chairman of the District Board. The District Engineer will also keep note-books in which will be entered daily any particulars with reference to works in progress which may call for remarks, the dates of all inspections, the orders issued to subordinates, the check measurements taken, the accounts inspected, and generally any details concerning his duties which may be worthy of remark. These note-books will be considered official records.

24. The District Engineer will be responsible that his accounts are regularly posted from day to day, and are kept in strict accordance with the rules made from time to time under section 138(i) of the Act.

25. On the completion of any work, a completion report in the Form A, B or C (herewith attached), as the case may be, shall be submitted by the District Engineer to the Chairman, and a copy of the same to the Inspector of Local Works. The Form A is to be used in the case of original works, or of repairs costing more than Rs. 5,000 each; the Form B, for repairs of metalled roads not exceeding Rs. 5,000 each; and the Form C, for annual repairs of buildings and unmetalled roads not exceeding Rs. 5,000 each. Any deviation from the design and estimate that may have been made during the construction of the work must be fully explained in the completion report.

Duties and powers of Inspector of Local Works.

26. The Inspector of Local Works will make frequent tours of inspection in the districts of the Commissioner's division to which he is appointed. He will not only minutely survey and report upon the state of the various works, whether completed or in progress in each district, but will carefully enquire into the system of management prevailing in respect to the preparation and cost of materials, the style of execution, the price of labour, and the rates of work. He will satisfy himself that building or road materials and other resources available in each district are brought into use in the most efficient and economical manner, and that the means of communication, projected or completed, are adapted to the requirements of the traffic.

27. The Inspector of Local Works will also, during his inspections, enquire into and report on the efficiency of the engineering establishments employed under District or Local Boards.

28. The Inspector of Local Works will also carefully inspect the books of District Engineers and their subordinates and the arrangements and procedure for the primary accounts, and see that they are kept in the manner prescribed.

29. Besides his regular tours of inspection, the Inspector of Local Works will proceed to any place in his division whenever it may be necessary for him to report on any important design or work, or on any serious accident or threatened danger to any works, or on any calamity, actual or anticipated, the remedy for which may appear to be within the range of engineering skill.

30. Detailed reports of all his inspections shall be drawn up by the Inspector of Local Works for the information of the Commissioner, and a copy thereof, so far as may relate to a particular district, shall be forwarded by him to the District or Local Board concerned through the Magistrate of the district.

31. Although the detailed designs and estimates for works will commonly be prepared by District Engineers, the arrangement and general plan of all important works should be concerted with the Inspector of Local Works, who will be responsible for the engineering

character of every project that he passes on with his approval. The Inspector of Local Works may, if he see fit, himself prepare the designs for any work in his division. He will communicate freely and personally on all professional matters with District Engineers, and afford them the benefit of his advice in the performance of their duties.

32. The Inspector of Local Works will, in submitting to the Commissioner any reports, plans, estimates, or other documents relating to the works of District Boards, invariably state his own opinion as to the suitability of the designs and reasonableness of the rates. He must also check the calculations in detail of all estimates and compare the quantities in the estimates with those shown on the drawings. If projects are sent up by District Boards without proper information, he will return them for such further information as the case may need.

33. The office of the Inspector of Local Works will be located at such place as the Local Government may from time to time determine, and he will correspond direct with District Boards regarding all matters in which he exercises powers assigned to him by these rules.

Mode of preparation and submission of plans, designs, specifications, and estimates for works for approval and sanction.

34. All estimates and projects for the construction or repair of buildings, roads bridges, and other public works undertaken by District and Local Boards shall be classed under one or other of the two heads *Repairs* or *Original Works*, and shall be prepared in the forms prescribed in the Public Works Department Code, Volume I, Chapter VII (*fifth edition*) and submitted for the sanction of the District or Local Board in meeting. Estimates for *Repairs* shall include all operations required to maintain works in proper condition, and estimates for *Original Works* all those which do not come under the classification of repairs.

35. The cost of every survey or preliminary operation other than those which can be carried out by the paid district establishment shall be considered to be an "Original work," and shall be covered by a sanctioned estimate and a specific assignment of funds.

36. A revised estimate shall be prepared immediately there is reason to anticipate that an estimate will be exceeded by more than 10 per cent. of its total amount, or where considerable alterations of the original estimate are desired, and it shall be submitted for the approval of the authorities whose sanction would be necessary if it were an original estimate.

37. In the case of all works of importance, the District Engineer shall submit a rough design for the approval of the Inspector of Local Works before preparing the detailed drawings and estimates.

38. All sanctions given by the District or Local Boards shall be formally recorded in their proceedings.

39. Except in case of emergency, or to prevent damage or loss, no work shall be put in hand until an estimate for carrying it out has been sanctioned; and no proposal for the execution of any work shall be sanctioned by a District or Local Board unless it be accompanied by a properly detailed estimate, and, when necessary, by properly prepared drawings showing fully the work proposed.

40. In the case of the following classes of estimates or projects, the sanction of the District or Local Board shall be provisional only, and subject to the confirmation and approval of the authority indicated :—

(*a*).	All projects for new works, the estimated cost of which amounts to Rs. 25,000 or more ..	Sanction of the Local Government in the Public Works Department to be obtained through the Inspector of Local Works and Commissioner of the Division.
(*b*).	All projects for works which may affect or alter the course of any river which is navigable at any time of the year or on either bank of which there is any public embankment	
(*c*).	All projects for embanked roads passing through country subject to floods or irrigated from canals	
(*d*).	All estimates for new works or repairs, the amount of which is Rs. 5,000 or more	Sanction of the Commissioner of the Division to be obtained through the Inspector of Local Works.
(*e*).	All estimates for expenditure under the provisions of section 79 of the Act, except the planting of trees on the sides of roads	

The sanction of the District or Local Board to an estimate for an original work which forms part of a contemplated scheme, although such estimate may in itself be within the limit up to which the Board can sanction, shall be subject to the confirmation and approval of the same authority as the estimate for the whole scheme would be, and no such estimate for a part of a scheme shall be sanctioned unless the nature and approximate cost of the entire scheme is fully set forth in the report of the estimate.

When the sanction of the authority indicated is received, the provisional sanction of the District or Local Board shall be confirmed by a resolution to be formally recorded in their proceedings, and the execution of the work may thereafter be proceeded with in accordance with any provision that may be made for it in the budget of the year.

The 10th February 1892.

G. STEVENSON, Collector.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government, situated along the Patna and Gya State Railway, in the district of Patna, will be put up to sale at 12 noon on Thursday, the 7th April 1892, corresponding with the 25th Chaitra 1299 Fasli, and the two following days, at the Collector's office, Bankipur.

The purchasers of the several plots of land will be subject to the following conditions:—

1*st*.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the lands closer than 3 feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd*.—If the amount of purchase-money exceed Rs 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4*th*.—The plots of land will be sold revenue-free to the highest bidders.

5*th*.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

Midnapur Collectorate, the 18th February 1892. J. G. CUMMING, for Collector.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Burdwan, will be put up to sale at the Burdwan Collectorate on 28th March 1892, corresponding with 16th Chaitra 1298 B.S.

The purchasers will be subject to the following conditions of sale :—

CONDITIONS OF SALE.

1*st*.—The estate to be sold to the highest bidder above the upset price, which will be fixed at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3*rd*.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale—

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill, and Statement of Objects and Reasons accompanying it, are published for general information, by order of His Excellency the Governor General, under the 22nd of the Rules for the Conduct of the Legislative Business of the Council of the Governor General :—

No. 4 OF 1892.

A Bill to amend the Court of Wards Act, 1879 (B. C.).

WHEREAS it is expedient to amend the Court of Wards Act, 1879 (B. C.) ; It is hereby enacted as follows :— [(B. C.) of 79.

1. This Act shall be read with, and taken as part of, the Court of Wards Act, 1879 (B.C.); and it shall come into force from the date on which it may be published in the Calcutta Gazette with the assent of the Governor General. [(B. C.) of 79.

Construction and commencement.

2. In section 3, at the end of the clause defining "estate" shall be added the following words, namely :—"and includes a share in or of an estate."

Addition to section 3.

3. To section 6 the following clause shall be added :—

Addition to section 6.

"(*e*) persons as to whom the Local Government has declared, on their own application, that they are disqualified, and that it is expedient, in the public interest, that their estates should be managed by the Court of Wards."

4. The following proviso shall be added to section 7 :—

Addition to section 7.

"Provided that the Court shall not be empowered to take charge of the person of a proprietor disqualified on his own application under clause (*e*) of section 6."

5. At the end of section 9 the following shall be added :—

Addition to section 9.

"And in any case in which the Court has taken charge of the property of a person disqualified from managing his own estates under the provisions of section 6, clause (*e*), it may in its discretion—

(*e*) at any time withdraw from such charge, or

(*f*) retain such charge, notwithstanding any application made for the release of the estate, or the death of the proprietor, until all debts and liabilities incurred by, or due from, the said proprietor, or which are a charge upon the property or any part thereof, together with all interest due thereon, have been discharged ;

Provided that, after the death of the proprietor, the Court shall not retain charge on account of any debt or liability not binding on the representative of such deceased proprietor."

6. In section 10, in the place of the first two clauses shall be inserted the following words, namely :—

Amendment of section 10.

"whenever a Civil Court is satisfied that an order should be made under section 7 of Act VIII of 1890, appointing a guardian of the person or property of a minor, or both ;

"whenever a Civil Court removes a guardian under section 39 of Act VIII of 1890."

Insertion of new sections after section 10.

7. After section 10 shall be inserted the following three sections :—

Court of Wards may take over charge of property from executors.

"10A. The Court of Wards may, at the request and with the consent of any executor or administrator, take charge of so much of the property lately belonging to the deceased person as it may think fit, if any person entitled to an estate included in such property is a person disqualified to manage his own property under section 6."

Court of Wards may be executors.

"10B. The Court of Wards may be appointed the executor or administrator to the estate of a deceased person, if any person entitled to an 'estate' included in such estate of a deceased person is a person disqualified to manage his own property under section 6; and any probate or letters of administration granted to the Court shall be deemed to be granted to the person or persons constituting the Court for the time being."

Court of Wards to be the guardian within sections 215 to 218 of Act X of 1865, and sections 31 to 33 of Act V of 1881.

"10C. Where a ward is sole executor or sole universal or residuary legatee, or would be solely entitled under an intestacy, the Court shall be deemed to be his legal guardian for the purposes of sections 215 to 218 of the Succession Act, X of 1865, and sections 31 to 33 of the Probate and Administration Act, V of 1881."

Amendment of section 11.

8. In section 11, for the words "the Civil Court which would have jurisdiction under Act XL of 1858 may, on the application of the Court of Wards, direct the Court of Wards to retain" there shall be substituted the following words, namely :—"the Court of Wards may retain," and the words "during the continuance of their disqualification, or, subject to the provisions of section 12, for so long as such Civil Court may order," shall be omitted.

Amendment of section 12.

9. In section 12, for the words "which before the commencement of this Act was placed," shall be substituted the following, namely :—"which either before or after the commencement of this Act was or is placed," and at the end of the first clause, after the figures 1858, shall be added the following words, namely :—"or under any other enactment for the time being in force."

Addition to section 13.

10. To the end of section 13 shall be added the following words, namely :—"or until all debts and liabilities, together with any interest due thereon, have, under the provisions of section 9, been discharged."

Insertion of new sections after section 13.

11. After section 13 shall be inserted the following two sections :—

"13A. The Court of Wards shall not be required to verify, otherwise than by the signature of the Court, any petition presented by the Court; and if the facts stated in any such petition are not within the personal knowledge of the person, or one or more of the persons constituting the Court for the time being, the petition may be subscribed and verified by any person competent to make the verification."

"13B. The Court of Wards shall not be liable to give security or render accounts to any Civil Court as an executor or administrator, but all such accounts and inventories as may be by law required from an executor or administrator shall be kept in the office of the Court of Wards, and shall be open to inspection by persons interested in such accounts at such times as the Court of Wards may think fit."

Addition to clause 1 of section 23.

12. To clause 1 of section 23, after the word "Court" the following words shall be added, namely :—

"and all estates in respect of which the Court is the executor or administrator shall be exempt from sale for any arrear of revenue."

Repeal of proviso in section 48.

13. In section 48 the proviso in class III shall be omitted.

Amendment of section 49.

14. In section 49, for the words "remains under the charge of the Court with his consent under section 11" shall be substituted the following words, namely :—"is under the charge of the Court under clause (*e*) of section 6, or under the second clause of section 11."

Amendment of section 56.

15. In section 56, instead of the words "who has consented to leave his property under the charge of the Court of Wards, as provided in the second clause of section 11" shall be substituted the following words, namely :—"whose property is under the charge of the Court under clause (*e*) of section 6, or under the second clause of section 11."

16. To section 60 the following words and paragraph shall be added, namely :—"or to assign over or charge any allowance to be received by him from the Court.

"No property which is or has been under the charge of the Court of Wards shall be liable, either during such period or in the hands of any person other than the ward, for the satisfaction of any debt or decree incurred by or obtained against the ward."

STATEMENT OF OBJECTS AND REASONS.

UNDER the law at present in force, Bengal Act IX of 1879, the Court of Wards can assume the management of the estates of adult male proprietors only in certain specified cases, namely, when they have been adjudged by the ordinary tribunals to be incapable of managing their own affairs, by reason of physical or mental infirmity. But cases have occurred in which proprietors not disqualified in this manner have themselves applied for the protection of the Court, and in which it appeared that their requests should not be refused. The Bill provides a procedure under which the Court of Wards may comply with such applications when Government has decided that the proprietors are disqualified, and that the public interest requires that their property should be placed under State management.

It also extends the definition of estate in section 3 of the Act so as to include a share in an estate. This appears to be in accordance with the law in Madras, the North-Western Provinces and the Punjab, and is intended to remove the inconvenience arising from the interpretation put upon it as excluding from the jurisdiction of the Court of Wards proprietors of shares of estates, however large their property might be.

Some slight formal alterations in the Wards Act have become necessary owing to the repeal of Act XL of 1858, and these are provided in the Bill.

Finally, provision has been made to allow the Court of Wards to take out probate and letters of administration, and to act in certain cases under the Succession Act, X of 1865, and the Probate and Administration Act, V of 1881.

JOHN EDGAR.

S. HARVEY JAMES,

Secretary to the Government of India.

The 19th February, 1892.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill and Statement of Objects and Reasons accompanying it are published for general information, by order of His Excellency the Governor General, under the 22nd of the Rules for the conduct of the Legislative Business of the Council of the Governor General :—

No. 5 OF 1892.

A Bill for the Regulation of the Bengal Military Police.

WHEREAS it is expedient to make provision for the better regulation of the Bengal Reserve Police; It is hereby enacted as follows :—

[Act XV of 1887, s. 1.]

Title, extent and commencement.

1. (1) This Act may be called the Bengal Military Police Act, 1892.

(2) It extends to the whole of the territories subject to the Lieutenant-Governor of Bengal: and

(3) It shall come into force on such day as the Local Government may, by notification in the Calcutta Gazette, appoint in this behalf.

[Ditto, s. 3.]

Definitions.

2. In this Act, unless there is something repugnant in the subject or context,—

(1) "Military Police-officer" means a person appointed to the Bengal Police Force under section 7 of Act V of 1861, who has signed the statement in the schedule to this Act, in accordance with the provisions of this Act:

(2) "active service" means service against hostile tribes or other persons in the field:

(3) "District Magistrate" includes a Deputy Commissioner, an Assistant Commissioner in charge of a sub-division, and the Superintendent of the South Lushai Hills:

(4) "Commandant" means a person appointed by the Local Government to be a Commandant of Military Police and includes a District Superintendent of Police and an Assistant District Superintendent of Police in charge of the civil police of a district or of a sub-division:

(5) "Second-in-Command" means a person appointed by the Local Government to be a Second-in-Command of Military Police, and includes an Assistant District Superintendent of Police not in charge of the civil police of a district or of a sub-division: and

(6) the expressions "reason to believe," "criminal force," "assault," "fraudulently" and "voluntarily causing hurt" have the meanings assigned to them respectively in the Indian Penal Code.

XLV of 1860.

[Act XV of 1887, s. 4.]

Enrolment and discharge of Military Police-officers.

3. (1) Before an officer appointed to the Bengal Police Force under section 7 of Act V of 1861 is appointed to be a Military Police-officer, the statement in the schedule shall be read to him in the presence of a Magistrate, Commandant or Second-in-Command, and shall be signed by him in acknowledgment of its having been so read to him.

(2) Notwithstanding any notice given under section 9 of Act V of 1861, a Military Police-officer shall not be entitled to be discharged from the Bengal Police Force except in accordance with the terms of the statement which he has signed under this Act.

Classes and grades of Military Police-officers.

4. (1) There shall be eight classes of Military Police-officers, namely :— [Act XV of 1887, s. 5.]

(i) subadars-major,
(ii) subadars,
(iii) jamadars,
(iv) havildars-major,
(v) havildars,
(vi) naiks,
(vii) buglers, and
(viii) sepoys,

and such grades in each class as the Local Government may direct.

(2) The expression "superior officer" in this Act includes—

(a) in relation to a sepoy, any sepoy of a higher grade, and any bugler, naik, havildar, havildar-major, jamadar, subadar or subadar-major;

(b) in relation to a bugler, any bugler of a higher grade, and any naik, havildar, havildar-major, jamadar, subadar or subadar-major;

shall be punished with imprisonment for a term which may extend to one year, or with fine which may extend to three months' pay, or with both.

[Act XV of 1887, s. 9.]

Minor punishments.

7. (*1*) A District Magistrate, Commandant or Second-in-Command, or an officer not being below the rank of subadar commanding a separate detachment or an outpost or in temporary

command at the head-quarters of a district during the absence of the District Magistrate, Commandant and Second-in-Command, may, without a formal trial, award to any Military Police-officer who is subject to his authority any of the following punishments for the commission of any petty offence against discipline which is not otherwise provided for in this Act, or which is not of a sufficiently serious nature to call for a prosecution before a Criminal Court, that is to say—

(*a*) imprisonment to the extent of seven days in the quarter-guard or such other place as may be considered suitable, with forfeiture of all pay and allowances during its continuance;

(*b*) punishment drill, extra guard, fatigue, or other duty, not exceeding thirty days in duration, with or without confinement to quarters.

(*2*) Any one of these punishments may be awarded separately or in combination with any one or more of the others.

[Act XV of 1887, s. 10.]

Place of imprisonment.

8. A person sentenced under this Act to imprisonment for a period not exceeding three months shall, when he is also dismissed from the Bengal Police Force, be imprisoned in the nearest or such other jail as the Local Government may, by general or special order, direct; but, when he is not also dismissed from that force, he may, if the convicting officer or District Magistrate so directs, be confined in the quarter guard or such other place as the convicting officer or District Magistrate may consider suitable.

[Regulation I of 1887, s.]

Saving of prosecutions under other laws.

9. (*1*) Nothing in this Act shall prevent any person from being prosecuted under Act V of 1861, or under any order or rule made under that Act or under any other enactment for the time being in force for any act or omission punishable hereunder, or from being liable if so prosecuted to any other or higher penalty than is provided for that act or omission by this Act:

(*2*) Provided that no person shall be punished twice for the same offence.

[Act XV of 1887, s. 11.]

Conferment of magisterial powers on Police-officers.

10. Notwithstanding anything in Act V of 1861 or in any other enactment for the time being in force, the Local Government may invest any Police-officer not below the rank of Commandant with the powers of a Magistrate of any class for the purpose of enquiring into or trying any offence committed by a Military Police-officer and punishable under Act V of 1861 or this Act.

[Ditto, s. 12.]

Disciplinary and other powers of Commandants and Seconds-in-Command of Military Police otherwise than in respect of Military Police.

11. (*1*) Subject to such rules as the Local Government may make in this behalf, a Commandant or Second-in-Command of Military Police shall have, with respect to Police-officers appointed to the Bengal Police Force under section 7 of Act V of 1861, who are not Military Police-officers, the same disciplinary powers as a District Superintendent of Police has with respect to them under that section.

(*2*) The Local Government may confer on a Commandant or Second-in-Command of Military Police, by name or by virtue of his office, any other power of a District Superintendent of Police under Act V of 1861, or any other enactment for the time being in force, or under any rule under any such enactment, and may define the circumstances in which any power so conferred may be exercised by such Commandant or Second-in-Command.

[Act XV of 1887, s. 13.]

Privileges of Commandants and Seconds-in-Command of Military Police as Police-officers.

12. A Commandant or Second-in-Command of Military Police shall be entitled to all the privileges which a Police-officer has under sections 42 and 43 of Act V of 1861, section 125 of the Indian Evidence Act, 1872, and any other enactment for the time being in force.

[Ditto, s. 14]

Power to make rules.

13. The Local Government may, as regards the Military Police, make such orders and rules consistent with this Act as it thinks expedient relative to the several matters respecting which the Inspector-General of Police, with the approval of the Local Government, may, as regards the rest of the Bengal Police Force, frame orders and rules under section 12 of Act V of 1861.

THE SCHEDULE.

STATEMENT.

(*See sections 2 and 3.*)

[Ditto, Sch.]

AFTER you have served for three years in the Bengal Military Police, you may, at any time when not on active service, apply for your discharge, through the officer to whom you may be subordinate, to a Commandant of Military Police or to the District Magistrate of the district in which you may be serving, and you will be granted your discharge after two months from the date of your application, unless your discharge would cause the vacancies in the Bengal Military Police to exceed one-tenth of the sanctioned strength; in that case you must remain until this objection is waived by competent authority or removed. But when on active service you have no claim to a discharge, and you must remain and do your duty until the necessity for retaining you in the Bengal Military Police ceases, when you may make your application in the manner hereinbefore prescribed. In the event of your re-enlistment, after you have been discharged, you will have no claim to reckon for pension or any other purpose your service previous to your discharge.

(Signature of Police-officer in acknowledgment of the above having been read to him.) } *A.B.*

Signed in my presence after I had ascertained that *A. B.* understood the purport of what he signed. } *C. D.*, *Magistrate, Commandant or Second-in-Command.*

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill, which has been prepared at the request of the Government of Bengal, is to constitute a body of Military Police for service in the South Lushai Hills and in such other frontier districts as they may be required. The Bill follows the Burma Military Police Act, 1887, so closely that no explanation of the proposed measure appears necessary.

June, 10th	146	12mo dy	1st...	1,000	Printed	0 10 0	Svarúp Chandra Ráy, Dibrugarh, Assam.	A very interesting work. It gives the modern and ancient geography of Sonargaon, its produce, manufactures, animals, &c. The history has been traced from the legendary period when the Aryans were roaming in the Punjab down to very recent times. The history of the last Hindu Kings of Bengal who retained possession of Eastern Bengal is given in some detail. But the most interesting history is that of Isha Khan, one of the 12 Bhumiyas who were tributaries to the Emperor Akbar.	485

NOTICE TO MARINERS—No. 87.

[First Publication.]

AUSTRALIA, NORTH-WEST COAST—EASTERN ARCHIPELAGO.

NOTICE to Mariners No. 18 of 1892, issued by the British Admiralty, is republished below.

The following information has been received from Commander W. H. Moore, H.M. Surveying Vessel *Penguin*, dated November 1891,—the result of recent examination of the several localities off the north-west coast of Australia:—

1. *Parry shoal*, composed of coral, extends within the 10 fathoms line 4 miles in an E. by N. and W. by S. direction, with a breadth of half a mile. The shoalest spot, with 5 fathoms water over it, lies one mile from its western end, in lat. 11° 9½′ S., long. 129° 39½′ E.
2. *Flinders shoal* is circular in shape, and 1½ miles in diameter, with a general depth of 6 to 8 fathoms over coral. The shoalest spot, with 5 fathoms water on it, is situated in lat. 9° 52½′ S., long. 129° 17′ E.
3. *Franklin shoal* is circular in shape, and one mile in diameter, with a general depth of 6 to 8 fathoms over coral. The shoalest spot, with 5 fathoms water on it, is situated in lat. 9° 52¾′ S., long. 129° 19′ E.
4. *Blackwood shoal* is about 6 cables in diameter, with a general depth of 8 to 14 fathoms, coral bottom. The shoalest spot, with 7 fathoms water over it, lies in lat. 9° 55′ S., long. 129° 25′ E.
5. *Evans shoal* extends 4¾ miles in a N.N.W. and S.S.E. direction, with a breadth of 3 miles, and has a general depth of 8 to 16 fathoms. The shoalest spot, with 5 fathoms water on it over coral, lies 4 cables from the north extreme, in lat. 9° 53′ S., long. 129° 32¾′ E.

There are quantities of snakes and sea perch on these banks.

CAUTION.—It is probable that many other shoals exist on or near the same parallel of latitude, both eastward of Evans shoal and westward of Flinders shoal. The four shoals above mentioned are probably part of a submerged barrier, lying along the edge of the bank. Northward of them the character of the bottom changes to globigerina ooze.

NOTE.—The hill on the south coast of Bathurst island, eastward of cape Fourcroy, situated in lat. 11° 47′ 50″ S., long. 130° 8′ E., is conical and conspicuous, 420 feet in height, and forms a good landmark in approaching the coast.

EASTERN ARCHIPELAGO.

NOTE.—The existing plan of Kulewatte harbour, Damma island, on sheet of harbours and anchorages between Bali and Timor, No. 935, is misleading, the anchorage being much smaller than represented. The anchorage is in 20 fathoms water, fine black sand and coral, with the large hut on the point, close to the ruin of Watch house (now scarcely visible) bearing N.E. by N., distant 1½ cables. The space admits of one vessel (about 1,000 tons burden) lying at single anchor, or two of that size moored.

Revised Directions for the guidance of vessels—Karachi harbour.

NOTICE to Mariners No. 53, dated 12th January 1892, issued by the Port Officer, Karachi, is republished :—

In supersession of former Directions for Karachi harbour, dated 1st October 1886, the following with reference to draught of vessels is notified for general information :—

Tides.

	H.	M.
High-water full and change	10	30
	Ft.	In.
Average rise and fall *Spring-Tides*	9	6
Do. do. *Neap-Tides*	5 to 6 feet.	

Depth of water in Entrance Channel.

Spring-Tides	31 feet.
Neap-Tides	26 to 27 feet.

Draught of Vessels entering or leaving the Port, Spring-Tides.

South-west monsoon.

The maximum draught allowed	25 feet.

Fair season.

The maximum draught allowed	27 feet.

Neap-Tides.

South-west monsoon.

Must be regulated by the state of the weather.

Fair season.

There should be at least two feet of water under the ship to insure her steering.

State of tide for entering port.

Sailing vessels should enter port on the ebb-tide. Steamers can enter either on the flood or ebb at the Pilot's discretion.

Masters of vessels should not on any account attempt to enter the harbour without a Pilot.

Time-Ball, "Merewether" Pier.

The Time-Ball is dropped daily (Sundays excepted) at one o'clock, Karachi mean time. Position of Ball Tower, Latitude 24° 49′ 11″ N., Longitude 66° 58′ 00″ E.

	H.	M.	S.	
Ball is hoisted close up at	0	55	00	P.M.
And dropped at Karachi mean time	1	00	00	,,
Longitude (66° 58′ 00″ E) in time	4	27	52	,,
Equivalent to Greenwich mean time	20	32	8	

Should the ball fail at 1-0-0 P.M, it is again dropped at 2-0-0 P.M. Karachi mean time, equivalent to 21H. 32M. 8S. Greenwich mean time.

Harbour improvements.

Among the extensive works executed, a *Breakwater* has been built, running out from Manora point in a S. by E. direction to a distance of 1,500 feet into 5 fathoms of water. This affords complete shelter to the *Entrance Channel* during the south-west monsoon; also a channel has been opened through the entrance with a depth of 21½ feet at low water spring-tides, 500 feet in breadth. The channel is marked by buoys, black on starboard hand, red on port.

The *Merewether pier*, 312 feet in length, has 26 feet at low water alongside.

The *Erskine wharf*, 2,008 feet in length, has accommodation for 5 vessels of the largest class.

An improved *Red Light* of the all-round-anchor pattern of ship's light is exhibited at the extreme end of the breakwater, brightly visible in clear weather 5 nautical miles, and at least half that distance during the south-west monsoon.

The height of this light is 54½ feet above mean sea-level, and it is maintained throughout the year.

Caution.—An *Electric Light* is used for working steamers alongside the "Merewether" pier and "Erskine" wharf. The height above mean sea-level is 67½ feet, and would be visible from the westward about 15 miles. The position of this light being north 1½ miles from the lighthouse on Manora, Commanders of vessels are warned not to mistake it for the Fixed light.

Note.—Mail Steamers arriving off the Port at night should burn two blue lights in quick succession; other vessels one, or two at intervals of two minutes. During the fair season, Pilots will board, but during the monsoon they must keep off the Port until daylight.

F. L. V. "Krishna" in position.

IN continuation of Notice to Mariners No. 192, dated 20th October, and No. 226 of the 19th December 1891, the Officiating Port Officer, Rangoon, has given notice that the floating light-vessel "*Krishna*" has resumed her station off the Krishna shoal in latitude 15° 36′ 15″ N., longitude 94° 34′ 30″ E. in 5½ fathoms reduced.

Owing to the non-arrival of the new lantern, there has been no alteration in the character of this light.

AUSTRALIA—POLLARD CHANNEL—CAPE BOWLING GREEN.

What the channel approach and shoal off the cape are composed of.

THE Port Master, Brisbane, has given notice (No. 1 of 1892) that the "Erlangen Patch" in the Pollard Channel consists of coral and is about 550 yards in diameter. It rises abruptly from deep water and can be seen a short distance off when the sun is in a favourable position.

The least water found on it is 9 feet at low-water springs.

It lies in following position:—

Summit N E. Cockburn Island	N. 28° W.
Summit North Home Island	S. 64° W.
Summit N. Sir Charles Hardy Island	N. 78° E.
Latitude	11° 55½′ S.
Longitude	143° 19′ E.

The same officer reports that the shoal off Cape Bowling Green is 1½ miles long, lying in a N. W. and S. E. direction, and about 1½ cables wide. The shoal is composed of sand

and is steep to. The depth over it at low-water springs is 3 fathoms with from 9 to 11 fathoms close to.

Vessels should not approach Cape Bowling Green within a distance of 5 miles.

From its N.W. end Cape Bowling Green Light-house bears S. 69° W, distant $3\frac{4}{10}$ miles.

From its S. E. end Cape Bowling Green Light-house bears S. 89° W., distant $4\frac{3}{10}$ miles.

All bearings are magnetic.

Foul ground in channel between Labuan and Kuraman.

WITH reference to Notice to Mariners No. 64, dated 6th April 1891, issued by this office, the British Admiralty has given further notice (No. 1 of 1892) that an examination of the channel between Labuan and Kuraman has recently been made by Commander A. M. Field H.M. Surveying vessel *Egeria*, with the result that the rocks and foul ground southward of Kiamsan point have been found to extend about a quarter of a mile further into the channel than previously charted; also, that shoal water was found upwards of 3 cables from the north-eastern point of Kuraman.

Mariners are therefore warned that the channel between Labuan and Kuraman should not be used, pending a thorough survey of the locality.

Flashing light on Gomiga saki Okusiri.

THE British Admiralty has given notice (No. 4 of 1892) that on 1st December 1891 a light would be exhibited from a light-house recently erected on Gomiga saki, the northern point of Okusiri:—

Gomiga saki light is a *flashing white* light, showing a flash *every fifteen seconds*, visible through an arc of 266°, or between the bearings of N. 88° E. through south, and N. 6° W. It is elevated 150 feet above the sea, and should be seen in clear weather from a distance of 18 miles.

The illuminating apparatus is of the third order.

The light-house, 60 feet in height, is an iron framework structure, with a circular shaft in the middle, painted black and white in horizontal bands.

Approximate position: lat. 42° 14′ 40″ N., long. 139° 33′ 10″ E.

AUSTRALIA—NORTH COAST.

TORRES STRAIT—PRINCE OF WALES CHANNEL.

Reported sunken reef in western approach.

THE British Admiralty has given notice (No. 5 of 1892) that Mr. F. Jardine reports having passed over a reef of small extent, with apparently a depth of not more than 6 feet on it, at low water, lying in a position estimated to be about 5 miles W. by N. from Quoin point, Goode island, Prince of Wales channel.

Approximate position to be considered doubtful, lat. 10° 33′ S., long. 142 4½′ E.

NOTE.—Soon after passing the reef, the course steered being southerly, the Government Residency on Thursday island was seen to open southward of Quoin point. Mariners are therefore warned that, when in the vicinity of this danger, the Residency on Thursday island should be kept well open southward of Quoin point, and that great caution should be exercised.

23	Bogra „ 20, '92	0·31	Rain fell on the 15th instant. It has since been fine and dry, with rather high westerly winds. Mustard has been cut, with an average outturn of 12 annas. State and prospects of other *rabi* crops are good, and sugarcane has been generally very productive. The rain has done much good to the grass, and in helping ploughing for *aus* rice, jute, &c.; and fodder and water are sufficient. Common rice selling on the average at 13 seers a rupee.
	Sherpur ...	0·33	
	Naukhilla ...	0·20	
24	Pabna „ 20, 92	0·06	Weather—cool and at first cloudy. The rain did some good, but was not heavy enough. *Rabi* prospects accordingly poor. Sugarcane yielding 12 annas. Common rice sells at 13 seers per rupee. Fodder and water sufficient.
25	Darjeeling „ 20, 92	1·02	Weather—very cold. In the hills wheat and barley are ripening. *Tori* and *jofar* are being cut. In the Terai harvesting of mustard finished. Recent rain has done good to *rabi* crops and has helped ploughing operations. Fodder improved by rain. Water-supply sufficient. No disease among cattle.
26	Jalpaiguri „ 20, '92	0·56	Weather—seasonable. Ploughing still continues for *bhadoi* crop. The recent rain has improved prospects of tobacco. More rain wanted. Common rice sells at from 8 to 10 seers per rupee. No cattle disease. Fodder and water-supply sufficient.
BEHAR.			
Bhagalpur Divn. 27	Monghyr „ 20, '92	0·17	Weather—drizzling at the commencement of the week; now fair. Prospects of *rabi* crops continue unsatisfactory. Prices are— Srs. Rice ... ... 12½ Wheat ... ... 12 Janera ... ... 18 Gram ... ... 19 } per rupee.
	Jamui ..	0·40	
28	Bhágalpur „ 20, '92	0·19	Lack of fodder in Newadi (Jamui). No report received from Begusarai. A little rain fell everywhere on the 15th. It has been cooler since, but west winds are now beginning. The rain has done a little good to the backward *rabi*, otherwise prospects are unchanged. Mangoes promise well. Common rice—old 10 seers 11 chitaks, new 12 seers 10 chitaks.
29	Purnea .. 20, '92	0·06	Weather—cloudy with slight rain at the beginning of the week, gradually becoming warm accompanied by west wind since. Harvesting of mustard almost finished. Harvesting of tobacco and cutting of sugarcane going on. In Sadar subdivision *rabi* crops are drying up for want of rain. In Kishanganj they are also suffering for the same reason. In Araria they are reported to have benefited slightly by the recent rainfall, but more rain is still wanted there. In Araria prices show a slight tendency to fall. At Sadar and at Kishenganj coarse rice sells at 11 to 13 seers and 11 seers per rupee respectively. Fodder and water for cattle plentiful. No cattle-disease.
	Kishanganj ...	0·10	
	Araria ...	0·11	
30	Malda „ 20, '92	0·70	Weather—cloudy in the beginning of the week; bright and fine latterly. Transplantation of *boro* paddy continues. Recent rain has benefited the *rabi* crops. Prospects favourable. Condition of cattle good. Fodder and water-supply sufficient. Common rice selling at an average of 12½ seers per rupee.

	Somastipur ...	0·47	
36	Muzaffarpur — „ 20, '92	0·14	Weather—cold and cloudy, but latterly sunny and seasonable. The rain was pretty generally distributed almost all over the district. It will benefit the indigo sowings and the latest sown *rabi* crops. *Rahar* has fortunately not suffered from it being well in pod by the time. It has, however, done some injury to the mango blossoms and also to more advanced wheat and tobacco. Condition of poppy has improved slightly after the rainfall in unirrigated tracts. Prices show a tendency still to a slight rise. No unusual sign of distress and none as yet reported. Fodder and water for cattle sufficient. Cattle in good condition.

CHOTA NAGPORE.			
South-West Frontier Agency.			
CHOTA NAGPORE DIVN. 42	Hazaribagh — Feb. 20, '92	0·96	Weather—getting less cold, and cloudy at intervals. Rain has done good to *rabi*. Poppy doing well. Common rice sells at from 11 to 14 seers per rupee. Cattle-disease reported from certain stations. Water and fodder supply sufficient, except at Chatra, where fodder is reported to be scanty.
	Giridih ...	1·45	
43	Lohardaga „ 20, '92	1·31	Weather—cloudy. Ploughing of land commenced. Reaping of oil-seeds completed. Mango prospects good. Common rice selling at 13 seers per rupee. Fodder and water sufficient.
44	Palámau „ 20, '92	0·24	Weather—cloudy and cold mornings. The little rain that has fallen has done much good to the *rabi* crops. Mango and sugarcane doing well. Fodder and water-supply yet sufficient. Rice selling at 14½ seers per rupee.
45	Singhbhum „ 20, '92	1·18	Weather—seasonable. The rainfall has been general throughout the district, and has not only benefited the standing crops, but has also enabled lands to be ploughed for the *gora* paddy crop. Mustard, gram, *til*, *rabar*, cotton and wheat are being harvested; 10 to 14 annas outturn expected. Price of common rice from 14 to 24 seers per rupee at Chaibassa; it sold at 17 seers per rupee at the last hát. No deficiency of water or fodder.
46	Manbhum — „ 20, '92	0·93	Weather—seasonable. Sugarcane is being pressed; outturn 12 annas expected. Rice selling at 15 seers per rupee. There was some rain of late, but more is wanted. Fodder and water-supply still not insufficient.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; t, thunder, ⌓, dew; ≡, fog.

* Mean of 6 days. | † Means of 5 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last [illegible]. The *humidity* of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted 1 y 0 and an overcast sky by 10. The numbers are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station for the period in question during the past stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 20th of February 1892.

Explanation.—.....indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 23rd February* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 20TH OF FEBRUARY 1892.

On Saturday, the 13th of February, or at the close of the previous week, the meteorological conditions over Northern India were decidedly disturbed owing to the existence of a large but shallow barometric depression the centre of which was between Agra and Jhansi. The disturbance was an extensive one, and was even on this date affecting the weather conditions in Behar and Bengal. On the morning of Sunday, the 14th, the depression was between Cawnpore and Sutna, having moved slowly in an easterly direction. Pressure was hence falling moderately to rapidly in Bengal, while temperature was as usual rising rapidly in front of the advancing depression. Conditions generally on this day became decidedly disturbed; a few rain showers were reported in Behar, and at Darjeeling a gale of wind was reported, pointing to the fact that the depression was largely influencing the upper layers of the atmosphere. On the morning of the 15th the depression had to a great extent filled up and disappeared, and pressure was rising in Bengal, while on the other hand temperature had fallen rapidly. The depression had given very disturbed weather from the 14th to the 15th, and at Darjeeling a severe storm accompanied by a large amount of hail occurred, and 1·67 inches of rain (due to the melting of the hail) was registered. At most of the stations in the province of Bengal, except those in East Bengal and Orissa, rain was also recorded on the morning of the 15th. A brisk to rapid increase of pressure had taken place on the 16th, and the effects of the depression had quite disappeared, winds became again generally northerly and north-westerly, and a fall of temperature varying from about 3° to nearly 9° occurred, and for the time ordinary cold weather conditions again became established in Bengal. From the 15th to the 16th practically no rain was reported except from a few stations in Orissa and South-West Bengal. On the 17th pressure again increased and temperature fell, but there were no important changes of conditions, while on the 18th pressure was almost steady, though it showed a tendency to fall, while temperature, on the other hand, had commenced to increase. The northerly element in the wind direction had decreased on the 18th, and at most stations westerly winds were blowing. On the 19th conditions again commenced to change in Bengal, for pressure began to fall briskly owing to the existence of another barometric depression which had appeared in North-Western India and which was advancing slowly down the Gangetic plain. On the morning of the 19th the centre of the depression was near Lucknow, but it was decidedly feeble and was giving little rain. Temperature in Bengal in front of the advancing depression as usual again became high, and became above the normal by 2° or 3°. Winds also became generally southerly and humidity rose rapidly, and conditions became a little abnormal and unsettled, though no stations reported rain. On the 20th, pressure fell briskly in Bengal and became about a tenth of an inch below the normal, and a depression apparently existed in a feeble form over Bengal. Winds were, however, very irregular and did not show any distinct circulation, while temperature had again risen moderately to rapidly and had become from 3° to 8° above the normal of the day. Again on this day the disturbed conditions were not sufficiently developed to produce rain, and though the sky became partially clouded, no station reported rain. Conditions were, therefore, again rather disturbed at the close of the week in the same way as they had been at its commencement.

The meteorology of the week has, however, been important from the fact that in all divisions of the province, except East Bengal, rain fell generally in moderate amounts on one or two days of the week.

Pressure.—The mean pressure for the week has again been in defect of the normal by small amounts. The usual defect has equalled about 0·02″ to 0·03,″ and it is fairly equally distributed throughout the province.

Temperature—Has varied very considerably during the week. It was high at its commencement, comparatively low in the middle of the week, and again rather largely above the normal at its close. The mean temperature of the whole province for the week has been almost exactly one degree above the normal, but the excess has been largest in North Behar, where it equals 2·4°, and in East and North Bengal and South Behar, where it has been between one and two degrees. On the other hand, temperature has been in slight defect in Chutia Nagpur.

The variation of temperature is, however, most clearly seen in the table below, where the average maximum, minimum, and mean temperatures for the week at nine typical stations in different districts of the province are compared with the normal values for the same period. The night or minimum temperatures have generally shown a larger variation than the day or maximum temperatures:—

Rainfall—Fairly general, but only light to moderate rain was reported in all districts except East Bengal on one or two days of the week, the falls being generally reported on the 14th, 15th or 16th. Chutia Nagpur has received an average fall of 0·82 inch, and South Behar one of 0·60; in North Behar and North Bengal the falls have been between a quarter and half an inch, and in South-West Bengal and Orissa they have averaged a fifth of an inch. In the case of the smaller districts a fall of nearly two inches is reported in the Darjeeling district, and one of 1·18 inches in the Singbhoom district. Falls of half to one inch are reported from Manbhoom, Lohardugga, Hazaribagh, Sonthal Pergunnahs, Patna, Shahabad, Sarun, Durbhanga, Mozufferpore, Rajshahye, Moorshedabad, West Burdwan, and Beerbhoom, and falls of a quarter to half an inch in Gya, Julpigooree and Cooch Behar, Rungpore, Dinagepore, Maldah, Bogra, Bankoora, and Cuttack. On the other hand, the following districts have been either rainless or nearly so:—All in East Bengal except Noakhally and Mymensingh; Khoolna, Jessore, South-West Midnapore, and South 24-Pergunnahs, and lastly Chumparun, which is surrounded on all sides by districts which have received moderate rain.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 20th of February 1892:—

MEMORANDUM.

Review of the Monthly Statistics of Deaths registered in forty-five districts of Bengal for the month of November 1891.

The total number of deaths registered in forty-five districts of Bengal during the month of November 1891 amounted to 216,770, against 154,891 in November 1890, and an average of 152,821 in the corresponding month of the previous five years, 1886—90. These figures represent annual death-rates of 39·48, 28·20 and 27·84 per 1,000, respectively, of the aggregate population of those districts, which is 65,859,534. The death rate of November 1891 is 11·64 higher than the average rate of the corresponding month of the past five years, 1886—90, and is also higher than the rate of the corresponding month of any of the past five years, *vide* figures below :—

	November 1886.	November 1887.	November 1888.	November 1889.	November 1890.	Monthly average of five years, 1886—90.	November 1891.
Number of deaths	175,656	146 775	138,969	147,795	154,891	152,821	216,770
Ratio per *mille* per annum	31 93	26 64	25·23	26 85	28 10	27 84	39 48

It will also be seen from the figures below that the mortality of November 1891 is considerably higher than that of any of the previous months of the year :—

Months.	*Number of deaths.*	*Ratio per mille per annum.*
January	143,492	26·04
February	137,553	24·96
March	168,185	30·60
April	161,980	29·52
May	125,975	22 92
June	140,594	25·56
July	121,977	22 20
August	142,154	25 80
September	149,431	27·12
October	149,140	27·12
November	216,770	39·48

The increase in November is due to a larger number of deaths from cholera and fever.

Distributed according to sex and class, the mortality was as follows :—

	Sex.			Class.				
	Male.	Female.	Ratio of male deaths to every 100 female deaths, calculated on the proportion such mortality bears to the total male and female population.	Christians.	Hindus.	Mahomedans.	Buddhists.	Other classes.
Number of deaths ...	111,866	104,904	...	270	126,275	90,881	153	3,389
Ratio per *mille* per annum ..	41·04	37·93	108	23·26	35·40	48·96	20·28	23·04

Considered collectively, the mortality among males was greater than among females. Taking the districts individually, this was also the case except in nine districts of Khulna, Dinajpur, Rajshahi, Rungpur, Darjiling, Julpaiguri, Bakerganj, Noakhali and Purnea, where the death-rate was higher among females. The death-rate was highest among Mahomedans than among Hindus, and least among Buddhists.

The following table shows, in order of sequence, the highest district death-rates during November 1891. The rates of the corresponding month in the previous year are also given for purposes of comparison :—

Districts.	Ratio per *mille* during— Nov. 1891.	Nov. 1890.	*Districts.*	Ratio per *mille* during— Nov. 1891.	Nov. 1890.
Maldah	107·76	30·00	Faridpur	41·40	46·80
Nadiya	94·08	26·28	Bakerganj	41·16	39 84
Jessore	82 20	44·04	Monghyr	39·00	28 80
Rajshahi	79·56	35·04	Balasore	38 84	31·44
Murshidabad	66 84	28·68	Midnapur	36 36	30 96
Dinajpur	60·12	31·56	24-Parganas	36·24	24 24
Pubna	50 88	40·44	Howrah	35·88	28·44
Serampur	50 76	31 68	Dacca	35 52	31 56
Julpaiguri	49·80	34 32	Burdwan	34·44	22 92
Purnea	49 08	22 80	Bogra	33·96	28·68
Rungpur	45·24	28 92	Cuttack	33 60	20 28
Khulna	44 52	45 48	Bhagalpur	33·36	32·04
Champaran	42 48	22 92	Noakhali	31·08	29 52
Hughli	42 36	27 96	Patna	30 00	23·64
Birbhum	41·64	27·12			

It will be seen that the highest death-rate occurred in Maldah (107·76 per *mille*), where fever was accountable for 5,496 out of the total number of 6,385 deaths which occurred in the district.

The total mortality during November, from the several death-causes, is compared in the following table with the mortality from the same causes in the corresponding month of 1890, and the average of the previous five years, 1886—90:—

	Ratio per *mille* during—		
	November 1891.	November 1890.	Monthly average of five years, 1886—90.
Cholera	2·40	1·56	1·44
Small-pox	·12	·04	·02
Fever	31·20	21·36	21·48
Dysentery and diarrhœa	·72	·60	·72
Injury	·24	·24	·24
Other causes	4·44	4·08	3·72

It will be seen that the death-rate of November 1891, under the heads cholera and fever, particularly fever, is considerably higher than that of the two past periods with which it is compared. The highest fever death-rate in the province was 92·76 returned from Maldah; Nadiya comes next with (75·48), then Jessore (74·52), Rajshahi (66·36), Dinajpur (55·44), Murshidabad (53·64), Julpaiguri (48·60), Purnea (47·76), Rungpur (43·68). The death-rates from fever were also very high in Pubna, (36·72), Khulna (36·60), Faridpur (36·48), Champaran (33·96), Birbhum (33·84), Hughli (33·72), Serampur (33·72) and Monghyr (33·24). Cholera also accounted for an unusually large number of deaths in November 1891. The mortality from this cause was highest in Nadiya (14·16 per *mille*); Pubna and Maldah come next with 12·12 each, followed by Rajshahi (9·48), Murshidabad (9·24), Mymensing (5·88), Cuttack (5·52), Serampur (5·28), Balasore (5·28), Bogra (5·16), Howrah (4·80), Jessore (4·32), Khulna (3·60), Puri (3·12) and 24-Parganas 2·52. In two districts—Hazaribagh and Singbhum—the disease was entirely absent.

According to *age*, infants under one year of age, as usual, perished in the largest numbers, the death-rate being 264·24 per *mille* per annum. Persons over 60 years of age furnish the next highest record with a death-rate of 97·32 per *mille*. The lowest death-rate occurred among persons between 10 and 15 years of age, viz., 18·48 per 1,000 per annum.

Detailed information under all heads will be found in the statement appended.

REVISED WATER-RATE RULES FOR THE MIDNAPORE CANAL.

Notification No. 62, dated the 16th February 1892.

In exercise of the powers conferred on him by sections 99 and 78 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to make the following rules and to fix the undermentioned rates to be charged for water supplied from the Midnapore Canal. These rules and rates will supersede those now in force.

J. M. MCNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

1. The officers of the Public Works Department, who have charge of the canal, are solely responsible for maintaining it in an efficient state of repair, for providing drainage channels where necessary, and generally for all engineering work involved in its management, as well as for the distribution of water to lessees. The word "canal" is here used as defined in section 3 of the Act.

2. The Deputy Revenue Superintendent, under the supervision of the Collector of the district as Revenue Superintendent, is responsible for the collection of water-rates and miscellaneous revenue accruing to Government from the canal.

3. Water shall not be distributed otherwise than on the application of a lessee, or of a ryot in whose favour a provisional requisition has been issued, as provided for in Rule 21 below. Such application may be made verbally or in writing to any Public Works Department officer in charge of that part of the canal from which water is required.

4. If any lessee apply for water to the Deputy Revenue Superintendent, or one of his subordinates verbally, he should be told to address himself to the officers of the Public Works Department. If he makes such an application in writing, his petition shall be forwarded direct by the canal revenue officer, to whom it is addressed, to the Public Works Department officer in charge of that part of the canal from which the petitioner's village is supplied.

5. The canal officers of the Public Works Department, in consultation with the Deputy Revenue Superintendent, shall map out the irrigable area into blocks in accordance with the natural features of the ground, and so determined that the whole block shall be irrigable from one outlet, or from one set of outlets. So far as may be practicable, the blocks shall be separated by drainage lines.

6. Each block determined as above shall be numbered and recorded with its irrigable area in registers to be maintained by the Public Works officers and by the Deputy Revenue Superintendent. The blocks shall also be marked on maps to be maintained by the same officers.

7. Leases for not more than five years may be granted for the whole irrigable area of a block, or, subject to the provisions of Rule 14, for definite parts of a block, under the following conditions:—

I.—The lease may be for the lands of one or more villages, but ordinarily the whole irrigable area of any village, so far as situated within the block must be included in the lease.

II.—All leases within one block shall be granted so that they shall expire on the same date.

III.—In order to equalise the areas to be dealt with in each year, the date of expiry of the leases in each block shall be determined by the Public Works officers in consultation with the Deputy Revenue Superintendent, so that one-fifth of the total area usually irrigated may fall out of lease in each year.

Explanation.

A	blocks	commence	1892	...	...	Expire	1897.
B	,,	,,	1893	...	...	,,	1898.
C	,,	,,	1894	...	...	,,	1899.
D	,,	,,	1895	...	...	,,	1900.
E	,,	,,	1896	...	...	,,	1901.

Then, should a lease in a B block expire in 1892, a lease for one year must be given. Similarly, a lease in a B block expiring in 1894 must be renewed for four years only. It may, however, be possible in cases like the latter to arrange by mutual consent to cancel the existing and unexpired leases in B blocks in 1893, and then to renew for the full term of five years.

8. The rates to be charged for water supplied between June and November, whether by flow or lift, to lessees on application shall be—

For a term of five years—Rs. 1-8 per acre for each season.

Provided that the leases, whether new or renewals, required for shorter terms in order to develop the system of blocks as explained above shall, on the first occasion, be offered at the above rate.

Subject to the above provision, the rates shall be—

	Rs.	A.	P.	
For a term of four years	1	12	0	per acre per season.
,, ,, of three ,, ...	2	0	0	,, ,,
,, ,, of two ,, ...	2	4	0	,, ,,
For one season	2	8	0	,, ,,

Explanation.

An existing lease in a D block expires in 1892. The lessees will be offered a renewal for three years at Rs. 1-8 per acre per season. They decline this, and do not renew till 1893. They can then only get a lease for two years at Rs. 2-4 per acre per season. Similarly, an application for a new lease in a C block is received in 1892. A lease for two years at Rs. 1-8 per acre may be given; but should an application for a new lease in a C block be received in 1893, a lease for four years at Rs. 1-12 per acre will be granted.

9. For the supply of water, when available, for winter crops, a rate of Rs. 1-8 per acre per season shall be charged.

10. For the unauthorized use of canal water a rate of Rs. 5 per acre, or such less rate as may be fixed by the Collector, shall be charged.

11. Applications for water-leases under section 74 of the Act should be presented to the zilladar of the division in which the applicant's land lies, and, subject to Rules 12, 13, 14, 15, and 16 below, zilladars are authorized to grant such leases.

12. No village shall be brought under lease for the first time, and no lease shall be renewed for a period exceeding one year, without the consent in writing of the Executive Engineer. Such consent in writing may be taken specially for a single village, or generally for specified tracts including several villages.

13. Every application for a water-lease shall contain the following particulars:—

1.—Name and residence of applicant.

2.—Name of pergunnah, mehal, and village in which the land to be irrigated is situated.

3.—Total area for the irrigation of which the application is made and its boundaries, and if the lands to be irrigated lie in separate *chaks*, the name of each *chak*.

4.—Names of the ryots whose lands are to be irrigated, and the quantity of land held by each.

5.—Name of the canal and number of distributary from which water is required.

6.—Signatures of the applicants.

14. No application for a water-lease shall be entertained when the supply of water must of necessity be delivered across an unleased area, unless a village-channel exists, which, in the opinion of the Executive Engineer, will deliver water without waste across the unleased area.

15. Without the permission of the Collector, no application shall include lands belonging to more than one village, but *tehsilalaids* or other lands lying within the village boundary at the time of survey may be included.

16. Without special orders in writing from the Deputy Revenue Superintendent, no application for a water-lease shall be received unless it includes all the irrigable lands in a village.

17. When a water-lease is granted, a *kabuliyat* shall be taken in a form approved by Government, and a "permit" shall be given to the lessee or lessees in a form similar to that prescribed in Schedule C of the Act.

18. On the issue of a "permit" as above, of which the zilladar shall keep a duplicate, he shall forward a copy of the *kabuliyat* to the Deputy Revenue Superintendent for record and at the same time he shall forward to the Executive Engineer or Sub-divisional Officer direct a requisition requesting him to supply water to the lessee on application. This requisition shall be kept by the officers of the Public Works Department till January 1st next following, and shall then be returned to the Deputy Revenue Superintendent. On the back should be noted the several dates on which the village was supplied with water. A fresh requisition should be issued on or before June 1st, and returned on or before January 1st, each year, till the lease expires.

19. When application for a lease is received from a village not previously leased, the zilladar, before granting a lease, shall satisfy himself by comparison with the survey records, as well as by local enquiry, that the particulars given in the application are correct. For the purpose of comparison with the survey record, the application should be sent through the Deputy Superintendent to the Collector. The zilladar should also satisfy himself that the Executive Engineer's consent, as required by Rule 12, has been obtained.

20. When application is made for the renewal of an expired lease, the zilladar, before granting a new lease, shall satisfy himself by comparison with his register of *kabuliyats* that the particulars given in the application are correct.

21. Pending the result of the enquiries provided for in the last rules, the zilladar may, at his discretion, issue a provisional requisition for the supply of water to the area covered by the application.

22. When it comes to the knowledge of the Public Works Department officers in charge of the canal that canal water has been taken without authority, notice shall be sent to the Deputy Revenue Superintendent, accompanied by the following particulars:—

1.—Name of village and pergunnah.

2.—Number of distributary from which water has been illicitly obtained.

3.—Manner in which water has been taken.

4.—Abstract of evidence that water has been taken.

A separate notice should be sent for each village irrigated without authority.

23. On receipt of such a notice, the Deputy Revenue Superintendent, after such enquiry as may be necessary, and after hearing any objection which may be raised, shall proceed to assess, at the rate provided in Rule 10, the land irrigated without authority. If in any case he thinks that this rate should not be imposed, he shall report the matter to the Collector for orders.

24. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted, or used for the irrigation of lands not under lease, it shall be competent for the Deputy Revenue Superintendent, on the application of the Executive Engineer, and with the approval of the Collector, to cancel the lease.

25. The rates for water supplied from June to November shall, in each season, fall due on the 1st February following. The rates for water supplied for winter crops shall fall due on the 1st April following.

26. Water-rates imposed under Rule 10, on account of lands irrigated without authority, fall due as soon as the assessment is made, and shall be realized at once.

27. Remission of water-rates, either in whole or part, as the case may require, shall be granted by the Collector for—

1.—Injury to the crop on a leased area caused by deficient supply of water.

2.—Errors in the assessment of rates.

28. The Collector may grant remissions of water-rates, either in whole or part, for injury to the crops on leased areas caused by excess of water due to deficient drainage.

29. The Collector may commute rates charged under Rule 10 to those chargeable for water supplied on application, provided that a lease either for a term of years or for the season has been subsequently executed for the lands in question.

30. Remissions on other grounds than the above require the sanction of Government.

31. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy, or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Collector.

32. Before awarding compensation under section 16 of the Act, or making a reference under section 17 of the Act, the Collector shall obtain the written opinion of the Executive Engineer in charge of the canal, and his written opinion shall form part of the record of the proceedings.

33. The Collector may distribute amongst village *mookhyas*, who agree in writing to assist the Deputy Superintendent in collecting water-rates, and generally in his operations under Act III (B.C.) of 1876, a commission calculated in such manner as he may think fit, provided the total amount paid shall not exceed 6 pies in the rupee on the total water-rates collected during the year. If the payments thus made to *mookhyas* do not amount to 6 pies in the rupee on the total water-rates of any year, the Collector may expend the balance in paying extra collecting establishment.

34. Registers shall be kept in the Deputy Superintendent's and zilladar's offices in forms sanctioned by Government.

35. A copy of the Collector's decision in all cases of remission, and of the Magistrate's decision in all cases of proceedings under section 93 or 94 of the Act, shall be forwarded to the Executive Engineer for information and record in his office.

IRRIGATION.

REVISED WATER-RATE RULES FOR THE ORISSA CANALS.

Notification No. 56, *dated the 9th February* 1892.

IN exercise of the powers conferred on him by sections 99 and 78 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to make the following rules and to fix the undermentioned rates to be charged for water supplied from the Orissa Canals. These rules and rates will supersede those now in force.

J. M. McNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

General conditions.

Compensation under section 76 (c).

(1) The Collector, before awarding compensation under section 16 or section 76 (*c*), or making a reference under section 17 of the Irrigation Act [Act III (B.C.) of 1876] shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.

No appeal from order of Canal Officer.

(2) Except as provided in the Irrigation Act and in these rules, no appeal shall lie from any order passed by a Canal Officer, but the Sub divisional and Divisional Canal Officers shall modify any order passed by them on the receipt of definite instruction to that effect from the Divisional or Superintending Canal Officers respectively.

Appeals to Collector.

(3) Appeals to the Collector under section 91 of the Irrigation Act, other than those specially provided for in Rule 49, will ordinarily be against an order passed by the Divisional Canal Officer. When the order passed has reference to the alignment of a village channel, or, to the refusal of the Divisional Canal Officer to grant a lease under schedule I, II or III, the Collector may require the Superintending Canal Officer to state his opinion in writing, and this opinion shall form part of the record of the proceedings in the case.

On village channels.

Canal Officer to assist.

(4) Canal Officers shall give every assistance to applicant in aligning and laying out any village channels which they may desire to construct.

Register of village channels.

(5) A register of all village channels shall be maintained by the Divisional Canal Officer in such form as the Superintending Canal Officer may direct.

On the free irrigation of chaukidars' jaghirs.

Chaukidars' jaghirs.

(6) The chaukidar of any village in which lands are leased under schedule I, II, III or IV shall be entitled to a remission of the water-rates chargeable on account of lands included in his jaghir and in any leased area on the condition that he gives efficient and willing assistance to the Canal Officers in respect to the following matters:—

(*a*) In the preparation of applications for leases.
(*b*) In the measurements of irrigated lands.
(*c*) In giving the names of the occupiers of the various fields.
(*d*) By receiving the demand statement, making it over to one of the principal raiyats in the village, and informing the cultivators that he has done so.
(*e*) By receiving "tippas" from the Canal Officers and distributing them.
(*f*) By reporting cases of unauthorized irrigation which may come to his notice.
(*g*) By being present when any local inquiry is made by a Canal Officer and by giving information concerning the matter under investigation.
(*h*) By reporting to the Collector any mutations in the holdings of persons who have signed a lease under schedule I or II that may come to his knowledge.

On the "lease unit" system.

Distributary lease units.

(7) The area commanded by each distributary which is not fully provided with village channels shall be portioned out by the Divisional Canal Officer into any convenient number of tracts, or group of villages to be called "lease units." The boundary of each of these "lease units" shall be so determined that the land lying within it can be conveniently irrigated from the same outlet or from any convenient group of outlets. The "lease units" shall be approved by the Superintending Canal Officer.

Classification of villages in "lease units."

(8) The area in each "lease unit" shall be divided by the Canal Officer into three classes.

(*a*) Lands which, being situated in immediate contact with a canal or distributary, can be irrigated by direct flow from outlets in it.

(*b*) Lands which are provided with village channels properly constructed and maintained in good order by the owners of the channels.

(*c*) Lands which, not being provided with proper village channels, and being remote from the canal or distributary, can only be irrigated by flow through fields intervening between them and the distributary.

Record of "lease units."

(9) The Canal Officer shall keep in his office a plan showing the "lease units" of each distributary. Each "lease unit" shall be separately numbered and registered in a book which shall show:—

Its area;
The number and size of outlets provided for it;
The names of the villages in it;
The class (*a*, *b*, or *c*,) of each area;
The date when the leases in it terminate

Amendment of "lease units."

(10) The boundaries of, or the classification of the tracts in any "lease unit" may at any time be amended by the Divisional Canal Officer with the previous sanction of the Superintending Canal Officer. On receipt of such sanction the Divisional Canal Officer shall amend his plans and registers.

(11) The lease first granted in any "lease unit" must be for five years.

Leases of class (*c*) villages.

(12) No lease shall be granted to any class (*c*) village until all the class (*a*) villages in the "lease unit" have been leased, and until the villages lying between it and the class (*a*) villages of that "lease unit" (if any) have also been leased.

Leases to terminate simultaneously.

(13) Leases granted for a term of years to any or all of the villages situated in the same "lease unit" shall terminate at the same time as the lease first granted in that "lease unit."

Exceptions with reference to present leases.

(14) Provided that, for four years after the date of these rules, the lessees of lands in any "lease unit" in which the class (*a*) villages have been leased for five years, shall, when their leases expire, be offered the opportunity of extending them for such a term of years as will cause them to expire simultaneously with those of the class (*a*) villages of that "lease unit" and they may be extended at the rate of Re. 1-8 per acre. If, however, the lessees decline to renew them on these conditions, within one month of their expiry, they shall not be permitted to renew them subsequently except at the rates given in schedule II.

Schedule of Rates.

(15) Class (*a*) and class (*b*) villages shall be eligible to obtain leases under all the five schedules attached to these rules. Class (*c*) villages shall only be eligible for leases under schedules II and III.

On applications for the supply of water during the kharif season.

Kharif applications of three kinds.

(16) Applications for the supply of water in the kharif season will be granted:—

(1) For a term of years (schedules I and II).
(2) For one season only (schedule III).
(3) After the 1st of September from an outlet of a defined size (schedule VI).

(17) Applications for the supply of water for a term of years shall be subject to the following conditions:—

Notice that lease is required.

I. Notice in the attached form (Appendix I) must ordinarily be given to the Subdivisional Canal Officer by the cultivators of a village not later than the 1st April if they require water for irrigation for a term of years to have effect from the 15th of June following. Applications presented after the 1st April will be accepted so far as may be possible, having regard to the measurements, &c., which are necessary before the grant of permits. Those presented between 1st April and 1st May will, if accepted, be liable, at the discretion of the Divisional Canal Officer, to an additional rate of 4 annas per acre for the first year of the lease, and those presented between the 1st May and 1st June will be similarly liable to an additional rate of 8 annas per acre. In either case the additional rate shall be payable at the same time as the first instalment of the ordinary rates due on the lease. On presentation of this notice the Canal Officer shall inspect the block which it is proposed to lease, and, if he approves of it, shall proceed to prepare the final application (Appendix III)

II. The application shall not be entertained unless it refers to a distinct block of land of which the boundaries are defined. The block must (in all but very exceptional cases) include all the irrigable lands of a village which are, or have been, cultivated with rice. If the block of land offered for lease has included within its boundaries:—

Applications to include all rice lands in village.

(*a*) High lands not irrigable by flow, or—

(*b*) "Beali" lands for which canal water is not ordinarily required, or—

(*c*) "Low lands" which cannot ordinarily benefit by canal water,

these lands may be excluded from the final application. But water cannot in that case be supplied to such lands during the currency of the lease except on an application for an annual lease (schedule III).

III. The application must be in the form attached to these rules (Appendix III), which states that water-rates will be paid on all lands contained in the block for which the application is presented whether water is required or not, and that the applicants will arrange for the transit of the water from the distributary to all the fields of the block to be leased, and give due notice to the Canal Officer of any changes in their holdings.

Payment to be made for area leased.

IV. The lands contained within the defined boundaries must be measured (or the area ascertained from the cadastral survey map) by the Canal Officer or his subordinates, and the application must be completely signed by all the cultivators holding lands in the block, or the applicants must bind themselves to be jointly responsible for the water-rates due on such block before a permit for the supply of water shall ordinarily be granted. Provided that if water is required to be supplied before this can be done, a preliminary application in the form Appendix II must be submitted before the 1st of September instead of the notice referred to in Rule I. This form binds the applicants to pay at the rate of Rs. 3 for each acre of their holdings if they fail to complete the lease for a term of years before the 30th of November of the year in which water is required. The Superintending Canal Officer may, if special circumstances appear to him to justify it, alter this date to the 1st of February next following. A permit which has been granted on this preliminary application will be cancelled as soon as the final application (Appendix III) has been completely signed by all the cultivators holding lands in the block. A permit for a term of years will then be issued.

Lease must be complete before water is supplied.

If not, annual lease must be executed.

No leases granted after 1st of September.

V. When under the "lease unit" system described in Rules 7 to 15 inclusive, a portion of a village falls in one "lease unit" and the remainder in another "unit" a separate application must be signed for each portion of the village.

VI. No additions to the area covered by a lease duly executed for a term of years shall, as a rule, be permitted. But when the irrigable area which is under rice cultivation in a village is increased (owing to improvements in distribution or to the actual extension of cultivation or to any other cause), an application may be made for a separate lease for a term of years for such increased area. If the application is approved by the Canal Officer, a permit shall be granted for a term of years such that the lease will terminate at the same time as the one previously granted in the same village. The water-rates chargeable on such a lease shall be those defined in schedule II.

No extension of lease during its currency.

(18) Applications for water for one kharif season only shall be subject to the following conditions:—

I. The application must be for a block of land having well-defined boundaries, and so situated that adjoining or intervening lands will not ordinarily or probably be irrigated by water supplied for the land included in the application. The block must be situated either—

Annual leases.

(1) In immediate contact with a canal or distributary, so that it can be irrigated without a village channel by direct flow therefrom, or

(2) it must be provided with a proper village channel, or

(3) it must be situated in immediate contact with a village leased under schedules I and II, so that it can obtain a supply through the fields of that village.

II. The application must be in the form (Appendix IV) attached to these rules, which states that water-rates will be paid on all lands contained in the block for which an application is presented whether water is required or not, and that the applicants will arrange for the transit of the water from the distributary to all the fields in the block which they desire to irrigate.

No leases granted after 1st September.

III. Applications for leases under schedule III must be submitted before the 1st of September.

Water supplied after 1st September.

(19) Applications for the supply of water after the 1st of September from an outlet of a defined size shall be subject to the following conditions:—

I. Outlets in a canal or distributary bank may, at the discretion of the Subdivisional Canal Officer, be leased from the 1st September until the 15th November at the rates enumerated in schedule VI, care being taken not to lease any outlet unless a head of not less than six inches on the outlet is available.

Outlets leased.

II. Persons occupying lands not under lease may apply for water to be delivered to them after the 1st of September for the current kharif season in the form (Appendix V)

attached to these rules. The application shall not be entertained unless it is accompanied by a sum in cash equal to half the amount chargeable for the size of the outlet at the rates defined in schedule VI, and by an agreement executed by substantial persons in the form attached to Appendix V binding themselves to pay the remainder.

Lessee of outlet allowed free use of water.

III. The person to whom a permit for the use of an outlet is granted shall be allowed the free use of all the water he can obtain from that outlet without reference to the area irrigated.

On applications for the supply of water during the rabi and hot-weather seasons.

(20) Applications for the supply of water in the rabi season (15th November to 30th April) and in the hot-weather season (1st May to 15th June) will be subject to the following conditions:—

Water-rates paid in area watered.

I. The approximate area of land for which water is required must be stated in the application, which must be signed by all the occupiers of the land. The application must be in the form (Appendix VI) attached, which states that water-rates will be paid on the area actually irrigated.

Canal closures.

II. That water cannot be supplied during the hot-weather season when the canals are closed. Notice of the duration of such closures will be given before the commencement of the season.

(21) It shall be the duty of the patrol to enter in his shudkar every field which is irrigated in the rabi and hot-weather seasons.

Water of tanks.

(22) Water for filling tanks may be supplied at the discretion of the Canal Officer at the rates given in schedule VII. The charge for the water shall be paid in advance for such a quantity of water as the Canal Officer may consider necessary to fill the tank. The Canal Officer shall see that the outlet is opened for a sufficient time to give the quantity which is paid for.

On permits.

Grounds for refusing permit.

(23) A permit shall not be issued when, in the opinion of the Canal Officer—

(i) waste is likely to occur.

(In the order refusing a permit on this ground the Canal Officer shall state in writing the manner in which he apprehends that waste will occur.)

(ii) The area for which water is required cannot be irrigated without passing canal water through, over or into, unleased areas.

(24) All permits for the use of water shall be subject to the following conditions:—

Lessees to arrange for distribution.

I. That where there are no village channels the applicants will make their own arrangements for the transit of the water from the canal or distributary to the leased area.

No bunds allowed.

II. That the water will be supplied at the level at which it is ordinarily maintained in the distributary, and that no earthen bunds or other works will be used to raise the level of the water in the distributary.

Canal Officer to regulate.

III. That the regulation of the discharge of the outlets will be entirely in the hands of the Canal Officer and his subordinates.

Regular payment.

IV. That water-rates are paid when due.

Waste to be prevented.

V. That the applicants will not permit waste of water.

Water restricted to leased area.

VI. That water supplied for the irrigation of a leased block of land in a village shall not be applied to any other lands in that village.

Leased block to be distinct.

VII. That land to be irrigated on kharif leases (schedules I, II and III) must form a compact block defined by well-marked boundaries of such a nature as clearly to separate the leased lands from the neighbouring unleased ones. The boundaries must be mentioned in the application.

Excluded lands.

VIII. That when high lands, "beali" lands, or low lands, which cannot ordinarily benefit by canal water, are, under Rule 17, II, excluded from a lease for a term of years, a schedule of such lands shall be attached to the application, the numbers of the fields on the cadastral map being stated in the schedule; or if there is not a cadastral survey map of the village, the Canal Officer shall attach a rough map to the lease showing the excluded area.

Power to cancel lease.

(25) If all the persons who have signed a lease under schedule I or II submit an application for the lease to be cancelled, the superintending Canal Officer may cancel it if he considers the reasons given are sufficient.

Annual permits.

(26) Permits for irrigation for a single kharif season under schedule III (annual leases) shall be subject to the same general conditions; the essential difference being in the duration of the lease and in the fact that a permit may be issued for any well-defined block and not necessarily for the whole irrigable land in the village which is cultivated with rice. "Beali" lands and low-lying lands cannot be excluded from annual leases if they are situated within the boundaries defined in the application.

Rabi permits.

(27) Permits for irrigation in the rabi or in the hot weather under schedules IV and V shall be issued on the following conditions:—

I.—That the applicants will give notice to the Canal Officer, or his subordinates as soon as the area requiring irrigation has received a sufficient supply of water

II.—That the applicants will undertake, as far as is practicable, to prevent water being wasted or applied to the irrigation of fields not included in the application.

III.—Water-rates will be levied on the areas actually irrigated and not on those specified in the application.

On penalties and the cancelling of leases.

(28) At the request of the Collector of the district, the Superintending Canal Officer shall direct the Divisional Canal Officer to—

Irrigation to be stopped where water-rates are not paid.

I. Decline to renew leases (*i.e.*, to issue permits) for the irrigation of land in villages where there have been constant difficulties in realising water-rates. In such cases permits shall not be again issued until all the arrears of water-rates due are paid up; and also, if specially required, by the Collector not unless half the amount due for the first ensuing season is paid up in advance. An order under this rule (unless the Collector in the meantime apply for its being rescinded or modified) shall be in force for the time stated therein, which shall not exceed three years.

Lease may be cancelled where water-rates are not paid.

II. Cancel any lease under schedule I or II, if, on the 1st of June of any year, the water-rates due on such lease are in arrear by more than half a year's demand.

(29) The Divisional Canal Officer may, with the concurrence of the Collector and the sanction of the Superintending Canal Officer, cancel a lease under schedule I or II if water is habitually misused or wasted. Such an order shall have effect from the 15th June next ensuing, and at least two months' notice must be given to the cultivators.

Lease to be cancelled when water misused.

(30) The Superintending Canal Officer in issuing orders under Rules 28 and 29 shall bear in mind the circumstances affecting "lease units" as described in Rules 7 to 15, and shall not cancel a lease if it is necessary that it should remain in force in order that water may be supplied to other leased areas.

Interests of others to be considered in cancelling leases.

On Unauthorised Irrigation and Waste of Water.

(31) Water-rates for unauthorised irrigation shall be assessed by the Canal Officer under section 78 of the Irrigation Act at rates not exceeding Rs. 5 an acre.

Rate for unauthorised irrigation.

(32) Unauthorised irrigation during the kharif season consists of two classes—

Two classes of unauthorised irrigation.

(i) Unauthorised irrigation within the boundaries of a leased area.

(ii) Unauthorised irrigation effected with water taken either from a leased area or from a canal, distributary or village channel.

(33) Unauthorised irrigation of the first class shall, during the kharif season, only be assessed when the land irrigated has been entered in the schedule of lands excluded from the lease; and then only when:—

(i) Within a leased block.

(*a*) The irrigation has been recorded in the patrol's shudkar.

(*b*) The patrol and sectional officer report that there are signs that the water has been deliberately taken and that the crops have benefited.

(*c*) The reports of the patrol and sectional officer have been received by the Sub-divisional Canal Officer within 10 days after the date on which the illicit irrigation was detected.

(34) Unauthorised irrigation in the kharif season of the second class shall only be assessed when the same three conditions (*a*), (*b*) and (*c*) have been complied with, and further—

(ii) Beyond a leased block.

(*d*) When the assessment of the area irrigated has been authorised by the Divisional Canal Officer.

(35) It shall be the duty of the Subdivisional Canal Officer to deal promptly with cases of unauthorised irrigation. He shall personally inspect as many cases as he can, and shall not make any assessment himself, nor ask the Divisional Canal Officer to sanction any assessment, unless the evidence has been recorded and he considers it quite satisfactory.

(36) When in the first case, the Subdivisional Canal Officer has determined that an assessment of unauthorised irrigation in the kharif season shall be made; or when the Divisional Canal Officer has authorised such an assessment, the Canal Officer shall *at once* send, by post or otherwise, a slip *(a tippa) to each cultivator, informing him of the fact and quoting the approximate area, as detailed in the patrol's shudkar, which has been recorded as irrigated. At the same time he shall send an amin to measure the fields which have been irrigated and to prepare the demand statement therefor.

Notice of assessment to be sent.

(37) Demand statements of unauthorised irrigation during the kharif season should be served in the village immediately they are prepared, and in no case later than the 30th November.

Demand statements to be promptly issued.

(38) Unauthorised irrigation in the rabi season or in the hot-weather season shall be assessed by the Canal Officer on the evidence of the patrol and sectional officer. The Canal Officer should personally inspect as many cases as he can. A notice that an assessment will be made should be served on the cultivators as soon as an assessment is ordered, as provided in Rule 36, the procedure of which should be generally followed (*mutatis mutandis*).

Unauthorised irrigation in rabi season.

(39) Charges for waste of water under section 80 of the Irrigation Act shall be at the rates fixed in Rule 31, and be subject to the same conditions as the assessments of unauthorised irrigation which are stated in the foregoing rules. When a tank or piece of low ground has been deliberately filled, a charge of Rs. 5 per thousand cubic yards may, at the discretion of the Canal Officer, be imposed instead of an acreage rate.

Waste of water.

On demand statements.

(40) Statements showing the amounts due on account of water-rates shall be prepared in such form as may be sanctioned from time to time by the Lieutenant-Governor, under the supervision of the Subdivisional Canal Officer, and shall be signed by him and by the Divisional Canal Officer. They shall then be forwarded to the Collector for the realisation of the demands.

Demand statements.

(41) The demand statement showing the water-rates due on any lease given under schedules I and II shall be prepared at the same time as the application. A copy of it shall be given to the patwari or to the chaukidar of the village for the general information of the villagers. A separate statement or tippa signed and sealed by the zilladar may also, if the Collector so direct, be prepared in the name of each person who has signed the lease, showing the annual sum which is due from him. These tippas may be given to the patwari or chaukidar to distribute or may be sent by post. No further notice of demand shall be given during the currency of the lease.

For long leases prepared once for all. A copy sent to chaukidar.

And tippas to each ryot.

(42) A demand statement showing the water-rates under a lease for a single kharif season (schedule III) shall be prepared as soon as possible after the lease is granted and not later than two months after the issue of the permit. The statement shall show the amount due from each person who has signed the lease, whether irrigation has been effected or not. A copy of it shall be given to the patwari or to the chaukidar of the village for public information, and separate tippas showing the demands against each individual may also be sent as in the previous rule. No further notice of demand shall be given.

Similar procedure for annual kharif leases.

(43) The assessments and issue of demands on account of lands irrigated in the rabi season or in the hot-weather season shall be made under the following procedure:—

Demand statements for rabi and hot weather shall be for

I. The area which is actually irrigated in any village shall be measured, or ascertained by means of the cadastral map, by an amin with the assistance of the patrol. The khasrah, which shall be in a printed form, shall be signed by the amin and by at least two respectable cultivators. If any of the lessees desire to have a copy of the khasrah, he shall be allowed to copy it.

The area actually irrigated.

II. When the measurement is completed, the khasrah shall be forwarded to the Subdivisional Canal Officer, who shall prepare a demand statement with all reasonable despatch. A copy of this statement shall be sent to the patwari or to the chaukidar for public information in the village, and a tippa may be sent as in rules 41 and 42 above to each person whose fields have been irrigated.

Demand statement sent to chaukidar. Tippas to cultivators.

(44) Demand statements on account of unauthorised irrigation shall be dealt with generally in the same manner as those of the rabi season, but with greater promptness. The demand statement in such cases shall be printed on red paper to draw attention to the fact that the demand is payable at sight. The demand statements sent to the patwari or to the chaukidar and the tippas sent to the cultivators shall also be on red paper.

Demand for unauthorised irrigation. Payable at sight.

* A "tippa" is the same thing as the "percha" of the Sone Canal Rules.

(45) Persons who may wish to raise any objections to the demands made against them must present a written statement of their case to the Subdivisional Canal Officer, who, after such local or other enquiry as he may think necessary, shall pass orders on the matter. A copy of the order if not passed in his presence and hearing shall be delivered by post or otherwise to the person who raised the objection.

Objections to demands to be made to Canal Officer.

(46) All objections to demands on account of water-rates which relate to the supply of water and the assessment of water-rates and are addressed to the Collector shall be referred for the orders of the Divisional Canal Officer.

Objections made to Collector to be referred to Canal Officer.

(47) Objections to the demand statements must be presented within thirty days of the date on which the demand statement was given to the patwari or to the chaukidar of the village, or of the date on which the tippa was delivered to the person objecting. This period may be extended when reasonable cause for delay can be established.

Objections to be made within thirty days.

(48) The objection should ordinarily be stated in a form which will be sold for one pice at all Canal Offices, giving instructions as to the particulars required to admit of the objection being readily investigated; but any form may be accepted at the discretion of the Collector or canal officer provided it clearly states the name or names of the persons objecting, the crop and the year for which the charge is made, the demand from each cultivator to which objection is taken, and the name of the village in which the land is situated. *Provided* that no objection shall be received which refers to more than one "lease-unit," and that all or any of the raiyats in one "lease-unit" may join in one objection.

Prescribed form for objections.

(49) Any person who is not satisfied with the order passed by the Subdivisional Canal Officer under Rule 45 may file an application of appeal to the Collector under section 91 of the Irrigation Act. Such application must be accompanied by a copy of the order appealed against. The Collector shall thereupon, after considering the records of the case, pass such order as he may think fit, and may meanwhile suspend collections by a written order if he thinks proper to do so.

Appeals to lie to the Collector.

(50) The Collector may, by a special order passed in each case, refer applications under rule 49 to any Deputy Collector for report or disposal. An appeal against an order passed by a Deputy Collector under this rule may be preferred, within thirty days, by either the applicant or the Divisional Canal Officer.

Appeal against order of Deputy Collector.

(51) When any person appeals to the Collector against an order passed by a Subdivisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record thereon any remarks he may think fit. The papers shall not be detained by him for the purpose of making further enquiries, but the Collector may, on the suggestion of the Divisional Canal Officer, or of his own motion, direct that such enquiries shall be made.

Procedure when an appeal is made to the Collector.

(52) Reports of, and applications for mutations of names in leases under schedules I and II shall be made to the Collector or to any officer authorized by him to receive and dispose of them. If addressed to any Canal Officer, they shall be referred to the Collector for disposal.

Mutations of names.

on the payment of water-rates.

(53) Water-rates assessed under sections 78, 79, and 80 of the Irrigation Act shall be due on the following dates:—

I. Leases for the kharif season for a term of years (schedules I and II)—
In one instalment on the ... ... 1st March.

Note.—The demand statements will be sent to the Collector as soon as the lease is complete as provided in Rule 41. Annual demand statements are not necessary.

II. Annual leases.

(*a*) Leases for a single kharif season (schedule III)—

In one instalment on the ... ... 1st March.

Note.—The demand statements for the water-rates due on these leases shall be submitted to the Collector as soon as the application is complete (see Rule 42).

(*b*) Leases during the rabi season (schedule IV)—In one instalment on the 1st August (except for sugarcane).

(*c*) Leases during the hot-weather season (schedule V) for sugarcane. The demand for the irrigation of sugarcane for both the rabi and hot-weather seasons shall be paid in one instalment on the 1st of April after the crop is cut.

Note.—The demand statements for these two classes of leases shall be submitted to the Collector fifteen days, if possible, before the water-rates are due, but accuracy in the charges is of more importance than a rigid adherence to dates.

III. For water supplied for kharif crops after the 1st of September to lands which are not under lease (schedule VI)—

First moiety	...	... Before the outlet is opened.
Second ,,	...	... 1st March.

Note.—The first moiety shall be paid to the Subdivisional Canal Officer, the second to the Collector A demand statement shall be forwarded to the Collector as soon as the lease has been granted.

IV. Water supplied for filling tanks (schedule VII)—Shall be paid to the Subdivisional Canal Officer in one instalment—before the outlet is opened.

V. Unauthorised irrigation and waste.

Assessments under sections 79 and 80 of the Irrigation Act.	On receipt of the demand statement by the Collector.

(54) The water-rates shall be paid on or before the dates when they fall due as detailed in the previous paragraph.

Contractor for water-rates.

(55) At the joint written request of all the cultivators signing the application and of a person who shall be termed the contractor, a lease for a term of years may be granted under which the said contractor shall collect and pay to Government the entire sum due annually on the said application. In such a case the form of application shall be altered as prescribed in the footnote of Appendix III. A contractor shall be entitled to receive a commission of 15 per cent. on the amount paid to the Collector.

To be approved by Collector.

(56) No person shall be accepted as contractor under rule 54 except with the written consent of the Collector to his nomination. The Collector may require the contractor to give security for the execution of the agreement. The contractor must be either the zamindar or the farmer of the *entire* village. No person who is the zemindar or farmer of only a portion of the village, less than sixteen annas, shall be accepted as contractor.

Powers of contractors to collect.

(57) Contractors shall be entitled to collect water-rates from the cultivators who have signed the application and from their successors in interest in the land included therein, at the rates fixed by the Lieutenant-Governor under section 78 of the Act. Every sum due from a cultivator to a contractor on account of water-rates under rule 54 shall be deemed to be a sum due to Government under sections 82 and 85 of the Irrigation Act.

Contractor's payments when due.

(58) The sum due from the contractor shall be paid to the Collector, either by instalments or in one sum, before the 31st of March.

Resignation of contractor.

(59) A contractor may resign his interest in a lease on giving to the Collector, before the 1st of October, a written notice of his intention to do so.

Canal Officer may appoint approved contractor.

(60) If, after the completion of a lease under sechedule I or II a contractor, as described in rule 55, comes forward, and is willing to undertake to collect the entire sum due from any village on account of water-rates, the Canal Officer, subject to the approval of the Collector, may appoint him to the office under a proper agreement under section 82 of the Act.

Any person paying entire demand may claim 15 per cent.

(61) If, at any time, the cultivators of a village under lease pay to the Collector through any one person nominated by themselves, the entire sum due on their lease, on or before the date on which the water-rates are due, a refund of 15 per cent. of the amount so paid shall be made at the time of payment to such person.

On Remission.

Gauge of discharges.

(62) The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of failure of supply.

Remission for failure of supply.

(63) Claims to remission of water-rates under section 76 (*b*) shall be made to the Subdivisional Canal Officer. Such claims shall only be admitted on proof of actual loss caused by failure or stoppage of supply. On proof of such loss, due to such failure or stoppage as described in section 76 (*b*), the Divisional Canal Officer shall remit the whole or any part of the rates. All Applications for remission of water-rates shall be made in the manner provided in rule 45 within 15 days after the occurrence of such failure or stoppage.

Compensation.

(64) Before awarding compensation under section 76 (*c*), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings.

Remissions by Superintending Canal Officer.

(65) The Collector or the Superintending Canal Officer, acting under the general instructions which he may from time to time receive from Government, may, in special cases, remit the whole or part of the water-rates due to Government. Such remissions shall be classed as "extraordinary" and shall be a matter of grace only. Remissions under this head

will ordinarily be made on the representation of Collectors or of Divisional Canal Officers only No person shall be entitled to receive an order on an application for remissions contemplated by this rule.

Authority for remission.

(66) A remission statement signed by the Superintending or Divisional Canal Officer shall be sufficient authority for a refund by the Collector.

On collections and alteration of Demand Statements.

Collections.

(67) Collections of all water-rates shall be made by the Collector in accordance with the demand statements furnished to him by the Divisional Canal Officer.

Alterations in demand.

(68) The Collector may make any alterations in a demand statement provided that the total sum due is not altered or provided that an error in account only is corrected. When such alterations are made in a demand statement referring to a lease under schedule I or II, a memorandum of the alteration shall be sent to the Divisional Canal Officer.

Power of Collector to write off.

(69) In cases when water-rates cannot be collected owing to the death, bankruptcy or absconding of the defaulter, the amount which cannot be recovered may be written off as irrecoverable on the authority of the Collector. A detailed list of sums written off under this rule shall be sent to the Divisional Canal Officer.

Power of Commissioner.

(70) In all cases other than those stated, the sanction of the Commissioner of the Division must be obtained before any sum can be written off as irrecoverable.

On the supply of water.

Permits.

(71) The Subdivisional Canal Officer shall, as a rule, sign all permits himself. He may, however, authorise any fit person to sign them if he considers it necessary. No water shall be supplied until a permit has been signed and issued.

Outlets suitable to leased area.

(72) The Canal Officer shall be responsible that the supply given through any outlet or group of outlets is in accordance with the permits and suitable to the area and nature of the soil which is under lease.

Patrol's duties.

(73) It shall be the duty of the patrol to:—

(i) Report immediately all cases in which he finds that canal water is flowing beyond the limits of a block leased for irrigation in the kharif season, unless the water is passing into another leased block.

Shudkar of unauthorised irrigation.

(ii) Inspect the lands (entered in schedule B,) which have been excluded from a lease under schedule I or II, and to shudkar the fields if they have been irrigated without authority.

Note.—The patrol shall not shudkar ordinary irrigation in the kharif season. He has only to do with "Beali" or "Low-lying" fields or unauthorised irrigation beyond the leased area.

Report to zilladar.

(iii) Shudkar unauthorised irrigation and make an immediate report to the Sectional Officer and zilladar.

Shudkar of rabi and hot-weather.

(iv) Shudkar all fields irrigated in the rabi or in the hot-weather seasons.

Tatsil of outlets

(74) The Divisional Canal Officer may close outlets in rotation as he may consider necessary. But if the lessees require water, such closure shall not, in the kharif season, exceed five days after ten days of consecutive supply.

(75) The Subdivisional Canal Officer shall have authority to:—

Stoppage of supply.

(i) Stop the supply of water to any canal or distributary in a case of pressing emergency.

Note.—But, if the supply is stopped, the fact shall be at once reported to the Divisional Canal Officer, and if the stoppage exceeds five days in duration, the report shall be forwarded to the Superintending Canal Officer.

Stoppage of supply to village channel.

(ii) Stop the supply to any village channel under section 76 (*a*) of the Irrigation Act, when he is satisfied that the channel is not maintained in proper repair. A record shall be kept of all orders passed under this rule.

Repair of channel.

(76) No person shall be entitled to be supplied with water through a village channel, unless the channel has been put into a proper state of repair in accordance with the directions of the Subdivisional Canal Officer.

(77) A Canal Officer or any of his subordinates may temporarily close any outlet supplying a village channel or any leased area when unauthorised irrigation is, at the time, being carried on from the village channel or from the area under lease which is supplied from the outlet.

Outlet to be closed when unauthorised irrigation is in progress.

Miscellaneous.

(78) No officer employed on the canals, unless specially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold or leased in connection with them, either in his own name or in the name of another, or jointly, or in shares with others.

Interest in canal water.

(79) Tanks may, at the discretion of the Canal Officer, be filled with canal water without charge, and without reference to the area irrigated in any village wherever water can be made available without injury to the cultivation dependent on any canal, provided that no irrigation is practised from the tank, and that the water is required for domestic purposes or for watering cattle only.

Filling tanks.

(80) Any Deputy Collector or Sub-Deputy Collector may, under the general orders and control of the Collector, exercise the powers conferred on the Collector by rules 28, 52, 56, 58, 59, 60, 61, 67 and 68, provided that all orders passed by such Deputy Collector or Sub-Deputy Collector shall be appealable to the Collector, if a petition of appeal is preferred within thirty days of their being passed.

Powers of Deputy Collector.

APPENDIX I.

This form of notice will not ordinarily be accepted later than the 1st April for any lease which it proposed to make in the year then current.

Form of notice that a permit for a term of years is required.

Mouzah , pergunnah , distributary

We, whose names are attached, give notice that we wish to apply for a lease for a term of years for a block of land containing all the irrigable rice lands in our village. We request that the block may be inspected; that the necessary measurements may be made; and that the form of application, which has to be signed by all the cultivators of the block, may be prepared We have ascertained that all the cultivators in the block are willing to enter into the lease.

Signatures of five or six principal cultivators ...

Note.—No permit will be granted on this notice.

APPENDIX II.

Note.—No application in this form will be received after the 1st of September for any lease which it is proposed to make in the year then current.

Preliminary application for a lease for a term of years.

Mouzah , pergunnah , distributary

1. We, whose names are attached, hereby apply for water to be supplied from the above-mentioned distributary for the irrigation of our rice-fields from the 15th of June until the 15th of November in each of the following years: —

*189	corresponding to 129
189	129
189	129
189	129
189	129

We are aware that the rate applicable to this term of years is Rs.———for each acre leased.

2. The area to be irrigated by each of us is approximately stated in the schedule below. The area which we desire to irrigate forms a compact block, having the following boundaries:—

North.—
South.—
East.—
West.—

All the cultivators of this block desire to conclude a lease for the period named above.

3. We undertake to arrange for the transit of the water from the distributary to all the fields in the block which we desire to lease either by the construction of a suitable channel or by arrangement with the occupiers of intervening leased fields. Failure on our part to get the water to any field or fields will not entitle us as a matter of right to claim exemption from payment of water-rate due on such field or fields.

4. We will prevent, as far as possible, the waste of the water supplied to us and its use in an unauthorised manner by other cultivators.

5. We request that the areas of our holdings may be checked and the lease for the term of years specified above may be prepared. We agree to sign the lease for the entire block defined above as soon as it is presented to us.

6. We make this application under section 74 of Act III (B.C.) of 1876 and the rules issued under it, more especially rules 17, 24, 28, 29, 41, 61, 62, 70, 73, 74. We agree to abide by these and by all rules passed under the Act.

7. Should the lease for which we now apply not be completely signed by all the cultivators in the block before the 30th of November next, or should the lease not be accepted by the Canal Officer, we agree to pay at the rate of Rs. 3 for each acre of our holdings within the block as found by actual measurement. *Provided* that if the delay in the completion of the lease be due to any cause beyond our control, the rate to be charged shall be that specified in clause 1 of this application. We agree to pay the sum due from each of us whether we require water during the season or not.

* Under the "lease unit" system (rules 7 to 15) a lease may be, under certain circumstances, for less than five years.

8. We agree to pay the water-rates due on this application in one instalment on or before the 1st of February.

Name of cultivator.	Area to be irrigated.	Signature of cultivator.	REMARKS.

Note.—A permit may be granted on this application by the Subdivisional Officer only

APPENDIX III.

Form of final application for a lease for a term of years.

Mouzah , pergunnah , distributary

1. We, whose names are attached, apply for water to be supplied from the distributary for the irrigation of our block of rice-fields from the 15th June until the 15th November in each of the following years :—

* 189 corresponding to 129
189 129
189 129
189 129
189 129

The area to be irrigated has the following boundaries :—

North.—
South.—
East.—
West.—

2. The area to be irrigated by each of us is stated in the schedule following, marked A Each of us agrees to pay water-rates on the area recorded against his name at the rate of Rs.— per acre. We will pay the sums due from us independently of our requiring water in any particular year or not.

3. We desire that the lands entered in the schedule marked B, lying within the boundaries of the block (which are either unirrigable lands, "Beali" lands, or low-lying lands, which will not ordinarily benefit by canal water) may be excluded from irrigation and assessment. Should we require irrigation for such lands, we agree to make a separate application for the particular season when we require the water.

4. We undertake to arrange for the transit of the water from the distributary to all the fields in the block which we desire to lease either by the construction of suitable channels or by arrangement with the occupiers of intervening leased fields. Failure on our part to get the water to any field or fields will not entitle us as a matter of right to claim exemption from payment of water-rate due on such field or fields.

5. We will prevent, as far as possible, the waste of the water supplied to us and its use in an unauthorised manner by other cultivators.

6. We make this application under section 74 of Act III (B. C.) of 1876 and the rules issued under it, more especially rules 17, 24, 28, 29, 41, 61, 62, 70, 73, 74. We agree to abide by these and by all rules passed under the above Act.

7. We agree to pay the water-rates due from us in one instalment on or before the 1st of February, and to give due notice to the Canal Officer of any changes in the holdings included in this application.

8. We are aware that if a permit is granted to us it is liable to be cancelled under rules 28 and 29—

(i) If on the 1st of June of any year, more than one-half of the aggregate water-rates ue on this application are unpaid.

(ii) If water supplied for irrigating the block of land included in the application is habitually wasted or misused.

9. (If all the applicants have not signed.) We who have signed this application further bind ourselves to be jointly responsible for the payment of the water-rates due on the block from those who have not yet signed this application, should they fail to do so in due time, as required by the rules.

SCHEDULE A.

Name of cultivator.	Area to be irrigated.	Signature or mark of cultivator.	Signature of witness to cultivator's signature.

* Under the "lease unit" system (rules 7 to 15) a lease may be under certain circumstances, for less than five years.

SCHEDULE B.

Name of cultivator.	Number of fields.	Class of land.	Area of land to be excluded from irrigation and assessment.	Signature.

Note.—A permit will not be granted for any lease for a term of years until an application in this form has been signed by all the occupiers of the land included in the block. If this application is not complete by the 15th June, an application either in Form Appendix II or Form Appendix IV must be submitted if water is required during the year then current.

Note.—When a contractor undertakes the collection of all the water-rates due on this application the following shall be inserted above schedule A :—

"9. We desire under rule — —— that —— ———— shall be appointed contractor. We agree to pay water-rates to him as they become due so long as he is authorised by proper authority to collect them. Should the contractor resign or be removed, we engage to pay water-rates to the Collector or to any person authorised by him to receive the amounts due from us."

The contractor shall sign the following agreement which shall be added to the lease :—

"I agree to become contractor under rules —— ——— for the collection of the entire sum due under this application in consideration of being permitted to deduct Rs. 15 per centum from the total amount due on the lease. I undertake to pay to the Collector the whole amount due to Government on or before the 15th of March following the dates when the water-rates are due from the cultivators; should I default the Collector shall be at liberty to realise from me the said amount in terms of Section 85 of Act III (B.C.) of 1876. I will myself take the risk of any default in payment by the cultivators."

Note.—The agreement with a contractor needs an eight-anna court-fee stamp.

APPENDIX IV.

Note.—No application in this form will be received after the 1st September for water to be supplied during the season then current.

Application for a lease during a single kharif season.

Mouzah pergunnah distributary

1. We, whose names are attached, apply for water to be supplied from the * 15th June to the 15th of November for the irrigation of the block of land formed by our holdings.

2. The area to be irrigated by each of us is stated in the schedule below. The area which we desire to irrigate forms a compact block, having the following boundaries:—

North:—
South:—
East:—
West:—

3. Each of us agrees to pay water-rates at the rate of Rs. 3 an acre on the area in his occupation as found by actual measurement. We will pay the sums due from us independently of our requiring water during the season or not.

4. We undertake to arrange for the transit of the water from the distributary to all the fields in the block which we desire to lease. Failure on our part to get the water to any field or fields will not entitle us as a matter of right to claim exemption from payment of water-rate due on such field or fields.

5. We will prevent, as far as possible, the waste of the water supplied to us and its use in an unauthorised manner by other cultivators.

6. We make this application under section 74 of Act III (B. C.) of 1876 and the rules issued under it, more especially rules 18, 26, 61, 62, 70, 73, 74. We agree to abide by them and by all rules passed under the Act.

7. We agree to pay the water-rates due from us in one instalment on the 1st of February.

SCHEDULE.

Name of cultivator.	Area to be irrigated.	Signature or mark of cultivator.	Signature of witness to cultivator's signature.

* If this application is submitted after the 15th June, this date should be altered.

Note.—The block leased on this application may be of any area, but all the irrigable lands included in it must be assessed and paid for. "Beali" lands cannot (if lying within the block) be excluded from assessment.

APPENDIX V.

Application for the lease of a Distributary outlet from the 1st September to the end of the Kharif Season.

I, , of mouzah pergunnah , apply for water to be supplied to me through outlet No. of the distributary of inches in diameter for use in the irrigation of rice crops. I herewith tender Rs. , being half the sum of Rs. which is the rent of a inch outlet for the remainder of the season. I agree to pay the remaining sum of Rs. by the 31st of December next.

I am aware that the Canal Officer does not guarantee that any definite quantity of water will be delivered by the outlet. I am also aware that I shall only be entitled to the discharge of the outlet for ten days out of every fifteen days.

Witness:— Signature.

We, the undersigned residents of mouzah , pergunnah , agree to be jointly and severally liable for any portion of the above-mentioned sum of Rs. which may be left unpaid by on the 31st of December next.

Witness:— Signature of two substantial persons.

HIGH COURT NOTICES.

NOTIFICATION.

THE following Rule, amending the Rules for the receipt and payment of money by Judicial Officers, having been framed by the High Court of Judicature at Fort William in Bengal, in the exercise of the power vested in it by section 15 of the Statute 24 and 25 Victoria, Chapter 104, and sanctioned by the Governor-General in Council, is published for general information.

By order of the High Court,

The 24th February 1892. H. W. C. CARNDUFF, *Registrar.*

CIVIL AND CRIMINAL.

Rule No. , *dated the* *February* 1892.

1. In Rule 37, page 148, Chapter V (Civil) / page 81, Chapter III (Criminal), of the General Rules and Orders, for the words "the Courts mentioned in Rule 18" *substitute* "the Court by which the money is held in deposit."

2. In Rule 38, page 149 / page 82, *ibid*, in the second line, after the words "record of the case" *insert* "if it be in the Court:" and at the end of the rule *add*—"If the record be in some other Court, the application shall be dealt with in the manner prescribed by Rule 44 *post*."

3. In Rule 39, page 150 / page 83, *ibid*, strike out the words from "the application" in the second line to the words "in the latter event" in the fourth line. Also strike out the whole of the last two sentences of the rule commencing with the words "If the application" and *substitute*—"The fact of the issue of the payment-order shall in every case be communicated to the District Judge, in order that the necessary entry may be made in the record itself under his signature."

4. *Cancel* the Note at the foot of this rule.

5. For Rule 44, page 152 / page 85, *ibid*, *substitute* the following:—

"44. When the application is for the withdrawal of money tendered to another Court, as for instance where two or more Courts at one station are combined for the purposes of accounts, in every such case the duty of the Court receiving the application shall be to forward it to the Court to which the money was tendered, and that Court shall, after examining the record, furnish the necessary certificate that the applicant is the proper party to receive payment of the amount claimed. In any case in which the amount has been transferred from the credit of the original payee to that of the claimant, the fact should also be stated, and the application returned to the Court from which it was issued. The certificate shall then be compared with the Deposit Register in the office of the Judge in charge. Such Register, if the sum is shown therein to be in deposit, will inform the Judge whether there is any bar to payment. If there be no such bar, the payment-order may be issued by the Judge in charge, and the fact of its issue shall be communicated to the Court to which money was tendered, in order to enable it to enter satisfaction for the amount upon the record of the case. Should, however, the record of the case be despatched to the District Record-room, the Court receiving the application shall, on receipt from the Court to which the money was tendered, of the certificate as to the identity of the claimant, deal with it in the manner prescribed by Rule 39."

NOTIFICATION.

THE following Rule, having been framed by the High Court of Judicature at Fort William in Bengal, in the exercise of the power vested in it by section 652 of the Code of Civil Procedure (Act XIV of 1882), is published for general information.

By order of the High Court,

The 10th February 1892.

G. STEVENSON, Collector.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government, situated along the Patna and Gya State Railway, in the district of Patna, will be put up to sale at 12 noon on Thursday, the 7th April 1892, corresponding with the 25th Chait a 1299 Fasli, and the two following days, at the Collector's office, Bankipur.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the lands closer than 3 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

Midnapur Collectorate, the 18th February 1892. J. G. CUMMING, for Collector.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Burdwan, will be put up to sale at the Burdwan Collectorate on 28th March 1892, corresponding with 16th Chaitra 1298 B.S.

The purchasers will be subject to the following conditions of sale :—

CONDITIONS OF SALE.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale—
